Management Discussion and Analysis

BUSINESS REVIEW

The Group is currently engaging in two major business segments: (i) packaging segment (sales of original equipment manufacturer (OEM) packaging products and provision of packaging services); and (ii) IT solution segment (mobile game and shared massage chair). The Group intends to continue on the existing packaging business. On the other hand, the Group has decided to further develop the IT solution segment by engaging in the shared massage chair business in the People's Republic of China (the "PRC").

Packaging segment

In 2022, the COVID-19 pandemic continued to exert negative impacts on the global economy. The Group's packaging business in the Jiangxi Province was severely affected. The Group recorded a decrease in both sales and profit of our packaging segment as compared to the last corresponding period in 2021. The Group's revenue from the packaging segment decreased by 96.8% to approximately RMB4,084,000 from approximately RMB127,596,000 in the last corresponding period and comprising 100.0% of the total revenue of the Group.

Sales of original equipment manufacturer (OEM) packaging products

On 16 May 2023, the Jiangxi Bank and China Construction Bank individually applied to the district court for an enforcement order on HongSheng (Jiangxi) Color Printing Packaging Co., Ltd (鴻聖(江西)彩印包裝實業有限公司), a wholly-owned subsidiary of the Group for an aggregated overdue amount of approximately RMB44 million. Also, the subsidiary was indebted to its former employees of approximately RMB1.8 million. Hence, the Group's packaging business in the Jiangxi Province was suspended. Since a new management team has assumed control over the Group in early 2023, potential business opportunities have been identified in Hong Kong in September 2023. Mobile Internet Packaging Limited (移動互聯包裝有限公司), a wholly-owned subsidiary of the Group in Hong Kong has entered into an entrusted operation and management agreement (the "Packaging Entrusted Agreement") with Good View Development Group Limited ("Good View") for a period of four years commenced on 9 January 2024 till 8 January 2028. With the provision of manufacturing factory site, production line, machineries, labour and warehouse by Good View, the subsidiary will be responsible for the management, maintenance and development of the existing customer resources of Good View, daily operation of the factory, market research, planning and formulation of promotion campaigns and financial planning during the four-years business operation of the factory. The Group is expected to generate revenue from the Packaging Entrusted Agreement in early 2024.

Provision of packaging services

In addition to the sales of packaging products in the newly developed market since September 2023, the management team has further expanded the packaging business by providing tailor-made packaging services to its current and potential customers. In January 2024, the Group entered into three agreements with three Hong Kong Companies with the expected revenue of not less than HKD4.6 million. Thus, the Group is expected to generate revenue from such expansion in packaging business in early 2024.

Management Discussion and Analysis

IT solution segment

Mobile game business

The mobile game industry in the PRC is highly competitive, and more rules and restrictions have imposed by the Chinese government. Thus, the Group intended to diminish its resources on mobile game business. As a result, no revenue was contributed to the segment for the period under review, representing a decline of 100.0% and comprising approximately 0.0% of the total revenue of the Group.

Provision of IT solution services

With the appointment of a new management team in 2023, the Group has explored other potential business opportunities in the IT-related market. By leveraging the Group's professional knowledge and resources on mobile game applications to commercial mobile applications, it is expected to diversify its business and hence generate profit. Indeed, the Group has engaged with 廣東索弗健康科技集團有限公司 (Guangdong SOFO Health Technology Group Limited) ("SOFO Health"), a PRC company specialized in the provision of shared massage chairs in airports and train stations in the PRC, in 2023. According to the signed cooperation agreement, the Group will be responsible for the management, maintenance and provision of IT solution services to SOFO Health regarding its mobile application. As SOFO Health has signed a strategic contract with Guangzhou Baiyun International Airport on 19 December 2023 and has engaged with Fuzhou Changle International Airport on 5 December 2023 on the provision of shared massage chairs with the help of our management team, it is expected that the Group will begin to generate revenue from IT solution segment in early 2024.

Notes to the Condensed Consolidated Financial Statements

For the six months ended 30 June 2022

1. BASIS OF PREPARATION

The unaudited condensed consolidated financial statements have been prepared in accordance with the Hong Kong Accounting Standard (the "HKAS") 34 "Interim financial reporting" issued by the Hong Kong Institute of Certified Public Accountants (the "HKICPA").

The unaudited condensed consolidated financial statements should be read in conjunction with the annual financial statements of the Group for the year ended 31 December 2021 as contained in the Company's annual report 2021 (the "Annual Report 2021"), which have been prepared in accordance with the Hong Kong Financial Reporting Standards (the "HKFRSs").

These unaudited condensed consolidated financial statements are presented in Renminbi ("RMB") and rounded to the nearest thousand (RMB'000), unless otherwise stated. RMB is the Company's presentation currency and the functional currency of the principal operating subsidiaries of the Group. The functional currency of the Company is Hong Kong dollars. The directors consider that choosing RMB as the presentation currency best suits the needs of the shareholders and investors. These unaudited condensed consolidated financial statements were approved for issue on 15 February 2024.

Going concern

The Group incurred a net loss of approximately RMB46,214,000 for the six months ended 30 June 2022 and, as of that date, the Group's current liabilities exceeds its current assets by approximately RMB515,968,000.

In view of the above circumstances, the directors of the Company have given careful consideration to the future liquidity and financial position of the Group and its available sources of financing in assessing whether the Group will have sufficient financial resources to continue as a going concern. Certain plans and measures have been taken to mitigate the liquidity position and to improve the Group's financial position which include, but are not limited to, the followings:

- (i) The Group is taking measures to tighten cost control with an aim to attain positive cash flow from operations;
- (ii) The Group is in the process of negotiating with its creditors to restructure and/or refinance its borrowings, and secure necessary facilities to meet the Group's working capital and financial requirements in the near future;
- (iii) The Group is negotiating with the bank to reach a settlement for the existing bank borrowings;
- (iv) The Directors are considering various alternatives to strengthen the capital base of the Company including but not limited to, seeking new investment and business opportunities, private placements, open offers or rights issue of new shares of the Company; and
- (v) The Group is currently re-negotiating the repayment schedules with certain of its debtors and endeavouring to request them to repay the trade receivables in accordance with the repayment schedules agreed with them.

Notes to the Condensed Consolidated Financial Statements

For the six months ended 30 June 2022

1. BASIS OF PREPARATION (continued)

Going concern (continued)

The directors of the Company are of the opinion that, taking into account the above-mentioned plans and measures, the Group will have sufficient working capital to finance its operations and to meet its financial obligations as they fall due within twelve months from the date of approval of the consolidated financial statements. Accordingly, the directors of the Company are satisfied that it is appropriate to prepare the consolidated financial statements on a going concern basis.

Notwithstanding the above, since the execution of the above plans and measures are in progress, significant uncertainties exist as to whether management of the Group will be able to achieve its plans and measures as described above. Whether the Group will be able to continue as a going concern would depend upon the Group's ability to repay, renew or extend the maturity dates of the promissory notes and convertible bonds, generate adequate financing and operating cash flows.

Should the going concern assumption be inappropriate, adjustments may have to be made to reflect the situation that assets may need to be realised other than at the amounts at which they are currently carried in the consolidated statement of financial position. In addition, the Group may have to provide for further liabilities that might arise, and to reclassify non-current assets and liabilities as current assets and liabilities. The effect of these adjustments has not been reflected in the consolidated financial statements.

2. CHANGE IN ACCOUNTING POLICIES

The accounting policies adopted in preparing the financial statements are consistent with those applied in the annual consolidated financial statements of the Company for the year ended 31 December 2021, with addition for the new and revised HKFRSs (which include all Hong Kong Financial Reporting Standards, HKASs and Interpretations) issued by the HKICPA, that have become effective for the Group's financial period beginning on 1 January 2022.

	Six months ended 30 June	
	2022 RMB'000 (Unaudited)	2021 RMB'000 (Unaudited)
Loss attributable to owners of the Company for the purpose of loss per share	(46,214)	(51,912)

Weighted average number of ordinary shares	1,377,497,662	1,377,497,662

Basic loss per share for the periods ended 30 June 2022 and 2021 are calculated by dividing the losses for the period attributable to owners of the Company by the weighted average number of shares in issue during the period.

For the periods ended 30 June 2022 and 2021, the computation of diluted loss per share does not assume the conversion of the Company's outstanding convertible bonds and the effect of exercise the share options since it would result in an anti-dilutive effect on loss per share.

In determining the recoverability of a trade receivable, the Group considers any change in the credit quality of the trade receivable from the date credit was initially granted up to the end of the reporting period. The concentration of credit risk is limited due to the customer base being large and unrelated. Allowances for expected credit loss are recognised against trade receivables based on estimated irrecoverable amounts determined by reference to past default experience of the counterparty and an analysis of the counterparty's current financial position.

The Company does not hold any collaterals or other credit enhancements over these balances.
