MANAGEMENT DISCUSSION AND ANALYSIS

Business Review

For the six months ended 30th June, 2015, the unaudited total operating revenue of the Group was approximately RMB397,753,000, representing a decrease of approximately 3.2% from approximately RMB410,968,000 for the corresponding period in the previous year. The decrease in total operating revenue is mainly attributable to decrease in demand and drop in sales volume of products.

Gross Profit

For the six months ended 30th June, 2015, the unaudited gross profit was approximately RMB21,900,000, with gross profit margin of approximately 5.5%, while the unaudited gross profit and gross profit margin for the corresponding period in the previous year were approximately RMB32,969,000 and approximately 8.0% respectively, representing a decrease of 2.5% in gross profit margin. This was mainly due to decrease in selling prices of products and thus reduced gross profit.

Operating Costs and Expenses

Distribution costs for the six months ended 30th June, 2015 and the corresponding period in the previous year was approximately RMB20,536,000 and approximately RMB19,925,000 respectively, representing an increase of approximately RMB611,000 or approximately 3.1%. This is mainly due to increase in transportation cost when compared to corresponding period in the previous year.

Administrative expenses for the six months ended 30th June, 2015 and the corresponding period in the previous year was approximately RMB10,874,000 and approximately RMB10,784,000 respectively, representing a slight increase of approximately RMB90,000 or approximately 0.8%.

Finance income for the six months ended 30th June, 2015 and the corresponding period in the previous year was RMB117,000 and approximately RMB143,000 respectively, amount mainly represented interest income.

Assets impairment loss

For the six months ended 30th June 2015, the unaudited assets impairment loss of the Group was approximately RMB11,586,000, which represented an increase of approximately RMB11,631,000 from a reversal of assets impairment loss of RMB45,000 for the corresponding period of 2014. As the PRC economy exhibited a downward trend, the sales price of the PE type products of the Group decreased to a market sales price below the product costs, which resulted in a significant increase of provision for diminution in value of inventory during the period.

For the six months ended 30th June, 2015, the Group recorded approximately RMB19,738,000 for the unaudited loss attributable to owners of the Company, representing a decrease of approximately RMB20,428,000 from profit attributable to owners of the Company of approximately RMB690,000 for the corresponding period in the previous year. This was mainly attributable to the impact of Chinese economic downturn, demand for some of our products decreased and resulted in drop in sales volume while decrease in gross margin was caused by reduced selling prices of products.

Prospect

The Group believes that the agricultural and water saving irrigation industry continues to be one of the sectors to which the Chinese government pays attention and the development of which remains one of the government's priorities. However, stiffer competition among enterprises in the industry caused by the economic downturn in China will suppress the recovery of the Group in the near future, but the bright prospects remain intact in the long run.

Based on the current market condition, the Group will further segment the market, develop specialized drip irrigation systems for different crops and upgrade its products to stave off vicious competition in the low-end market, which will in turn enhance the competitiveness of the Group.

Liquidity, financial resources and capital structure

During the period, the Group raised funding principally from cash generated from its business operations.

As at 30th June, 2015, the Group had gearing ratio (which is defined as total borrowings over total equity) of zero (as at 31st December, 2014: zero). The Directors confirm that the Group financed its operations principally from cash generated from its business operations and had not experienced any liquidity problem for the six months ended 30th June, 2015.

Contingent Liabilities

Foreign currency exposure

As confirmed by the directors of the Company ("Directors"), the Group's present operations are mainly carried out in the PRC, and all of the Group's receipts and payments in relation to the operations are basically denominated in Renminbi. In this respect, there is no significant currency mismatch in its operational cashflows and the Group is not exposed to any significant foreign currency exchange risk in its operations.

Employee and salary policies

The Directors consider the quality of employees as the most critical factor in maintaining the Group's business growth and enhancing our profitability. The Group offers salary packages with reference to the performance and working experience of individual employees, and the prevailing market rates. As at 30th June, 2015, the Group had 768 full-time employees.
