MANAGEMENT DISCUSSION AND ANALYSIS

Business Review

For the six months ended 30th June, 2018, the unaudited total operating revenue of the Group was approximately RMB231,373,000, representing a decrease of approximately 43.5% from approximately RMB409,242,000 for the corresponding period in the previous year. The decrease in the total operating revenue was mainly due to a significant decline in our sales revenue and project income, which was the result from a decrease in our sales of products and suspension of engineering projects during increasingly fierce market competition.

Gross Profit

For the six months ended 30th June, 2018, the unaudited gross profit was approximately RMB20,597,000, with gross profit margin of approximately 8.9%, while the unaudited gross profit and gross profit margin for the corresponding period in the previous year were approximately RMB43,956,000 and approximately 10.7% respectively, representing a decrease of 1.8% in gross profit margin. This was mainly due to a decrease in sales of products and selling price of the Group amid rising production costs during the current period.

Operating Costs and Expenses

Distribution costs for the six months ended 30th June, 2018 and the corresponding period in the previous year was approximately RMB14,609,000 and approximately RMB19,968,000 respectively, representing a decrease of approximately RMB5,359,000 or approximately 26.8%. This was mainly due to a significant decline in the transportation expenses as compared to that for the corresponding period in the previous year.

Administrative expenses for the six months ended 30th June, 2018 and the corresponding period in the previous year was approximately RMB14,760,000 and approximately RMB15,981,000 respectively, representing a decrease of approximately RMB1,221,000 or approximately 7.6%. This was mainly due to decreased funding for technology development.

Finance income for the six months ended 30th June, 2018 and the corresponding period in the previous year was approximately RMB187,000 and approximately RMB1,262,000 respectively, representing a decrease of approximately RMB1,075,000. This was mainly due to a drop by 100% in net income from foreign exchange for the current period as compared to that for corresponding period in the previous year.

Assets impairment loss

For the six months ended 30th June 2018 and the corresponding period in the previous year, the Group's unaudited reversal of assets impairment loss was approximately RMB213,000 and approximately RMB23,000 respectively.

Net loss attributable to owners of the Company

For the six months ended 30th June, 2018, the Group recorded approximately RMB10,091,000 for the unaudited net loss attributable to owners of the Company, representing a decrease of approximately RMB15,562,000 from net profit approximately RMB5,471,000 for the corresponding period in the previous year.

Prospect

The Group is of the view that the water-saving agricultural irrigation industry enjoys enormous development and growth potential as it continues to be a top priority on the development agenda of the Chinese government. Given the dumping strategy adopted by micro-size industry peers for their product inventory, the market competition continues to intensify such an extent that the Company is affected in the short term.

By understanding the actual and market demands, the Group will advance the transformation of our industry-specific products in our extending industry chain, stimulate our corporate vitality, and promote our innovation development. In the meantime, we will continue to increase investments in new water-saving products and technologies. With our ongoing product upgrade and iteration, the Group will steer clear of the malicious competition caused by low-end market competitors, while expanding and enhancing our core competitive strengths.

Liquidity, financial resources and capital structure

During the period, the Group raised its funding principally from cash generated from its business operations.

As at 30th June, 2018, the Group had gearing ratio (which is defined as total borrowings over total equity) of zero (as at 31st December, 2017: zero). The Directors confirm that the Group financed its operations principally from cash generated from its business operations and had not experienced any liquidity problem for the six months ended 30th June, 2018.

Contingent Liabilities

As at 30th June, 2018, the Company did not have any significant contingent liabilities.

Foreign currency exposure

As confirmed by the Directors, the Group's present operations are mainly carried out in the PRC, and all of the Group's receipts and payments in relation to the operations are basically denominated in Renminbi. In this respect, there is no significant currency mismatch in its operational cashflows and the Group is not exposed to any significant foreign currency exchange risk in its operations.

Employee and salary policies

The Directors consider the quality of employees as the most critical factor in maintaining the Group's business growth and enhancing our profitability. The Group offers salary packages with reference to the performance and working experience of individual employees, and the prevailing market rates. As at 30th June, 2018, the Group had 721 full-time employees.

Retirement benefit scheme and other benefits

The Group provides employee benefits covering old-aged insurance scheme, medical insurance scheme, unemployment insurance scheme, labour injury insurance scheme and maternity insurance scheme (collectively under the social insurance scheme) for its staff, whereby the Group is required to make monthly contributions to these schemes. The Company has no obligation for the payment of retirement and other post-retirement benefits for employees save for the monthly contributions described above. Expenses incurred by the Company in connection with these retirement benefit plans were approximately RMB6,532,000 for the six months ended 30th June, 2018.

Housing pension scheme

According to the relevant requirement under "The Decision Regarding the Reinforcement of Reform on Housing Systems in Cities and Towns by the State Council" (《國務院關於深化城鎮住房制度改革的決定》), "The Notice Regarding the Further Reinforcement of Reform on Housing Systems and Acceleration of Housing Facilities in Cities and Towns by the State Council" (《國務院關於進一步深化城鎮住房制度改革加快住房建設的通知》) and "Housing Pension Administrative Rules" (《住房公積金管理條例》), all administrative and business units and their staff members shall make contribution to a housing pension for the establishment of a housing pension scheme. Both the housing pensions contributed by each staff member and by their respective units are vested to the staff members. The percentage of the housing pension contributed by the staff members and their units shall not be less than 5% of the average monthly wages of such staff members of the previous financial year. Such contribution may be varied with those cities with better conditions. The housing pension scheme is mandatory.

Future plan for material investment

As at 30th June, 2018, the Group had no material investment plan.

Material acquisitions and disposals

For the six months ended 30th June, 2018, the Group had no material acquisitions nor disposals of subsidiaries and associated companies.
