VOLUNTARY ANNOUNCEMENT
GRANT OF PATENTS IN THE PRC

This is a voluntary announcement made by World Wide Touch Technology (Holdings) Limited (the “**Company**”, together with its subsidiaries, the “**Group**”). The purpose of this announcement is to keep the shareholders and potential investors of the Company informed of the latest developments of the Group.

GRANT OF NEW PATENTS IN CHINA

The board of directors of the Company (the “**Board**”) is pleased to announce that on 17 April 2013, the Company has received two patent certificates granted by the State Intellectual Property Office of the People’s Republic of China (the “**SIPO**”) in relation to an identity authentication device (application number: 201220397167.2; patent number: ZL 2012 2 0397167.2) and an instant messaging system (application number: 201220546371.6; patent number: ZL 2012 2 0546371.6), respectively.

The technologies of the above patents are currently used in FingerQ, a biometric security communication software platform and PrivacQ, a biometric communication device developed by the Group in the last quarter of 2012. These patented technologies are for biometric applications consisting encryption and decryption technology for point-to-point and point-to-group information sharing, which can be applied to internet messaging, chat, e-commerce and enterprise applications are able to take advantage of the security the Group’s security platform.

The Group believes that with the increased demand for secure internet communication capabilities, fingerprint technology will quickly become a widely adopted feature in smartphones and tablets for identity identification. With the Group’s prescient insight into the future development of this sector, the Group has taken the lead in the biometric fingerprint internet security industry by launching the Group’s own two innovative products, FingerQ and PrivacQ, which enjoyed a first-mover advantage and secured a leading position in the market. The Group believes that these patented products will successfully address the growing demand for privacy and data security technologies and accordingly, the Group will focus and develop the lines of products based on these patented technologies in the coming years.

The Group has also applied other patents with the SIPO for other technologies used in FingerQ and PrivacQ. The Company will issue further announcement(s) to provide further update in this regard as and when appropriate.

By order of the board
