### **VOLUNTARY ANNOUNCEMENT**

This is a voluntary announcement made by World Wide Touch Technology (Holdings) Limited (the “**Company**”, together with its subsidiaries, the “**Group**”). The purpose of this announcement is to keep the shareholders and potential investors of the Company informed of the latest developments of the Group.

The board of directors of the Company (the “**Board**”) is pleased to announce that the Company’s patented biometric security software platform, FingerQ has recently joined the Fast IDentity Online Alliance (the “**FIDO Alliance**”) as a sponsor to contribute FingerQ’s know-how in secure online social networking to help in accelerating the use of fingerprint biometric solution on websites and cloud applications for secure and convenient user verification in personal computers, notebooks, tablets and smart phones.

The FIDO Alliance is an industry consortium formed in July 2012 to address market needs and requirements for online authentication. Members of the FIDO Alliance will assist in defining the market requirements and contribute to the FIDO open protocol. This protocol is the first open industry standard for online and digital authentication that raises security, preserves privacy, and simplifies the user experience and FingerQ will take an active role in driving the industry standards forward.

The Board believes that through the participation in developing the technical standards and in planning and executing the FIDO Alliance’s marketing, certification and deployment programs, the Group will benefit from gaining a thorough understanding of how other authentication technologies are evolving to ensure a secure internet for the future.

By order of the Board
