The increase was mainly due to the increase in our profit before tax. The Group's effective tax rate was 33.9% for the period under review and 27.3% for the last corresponding period. The increase in effective tax rate was mainly because of the increase in non-tax deductible expenses such as the listing expenses for the period under review.

#### 1. BASIS OF PREPARATION

The unaudited condensed consolidated financial statements have been prepared in accordance with the Hong Kong Accounting Standard (the "HKAS") 34 "Interim Financial Reporting" issued by the Hong Kong Institute of Certified Public Accountants (the "HKICPA") and the applicable disclosure requirements of Appendix 16 to the Rules Governing the Listing of Securities (the "Listing Rules") on the Stock Exchange of Hong Kong Limited (the "Stock Exchange").

The unaudited condensed consolidated financial statements should be read in conjunction with the annual financial statements of the Group for the year ended 31 December 2013 as contained in the Company's annual report 2013 (the "Annual Report 2013"), which have been prepared in accordance with the Hong Kong Financial Reporting Standards (the "HKFRSs").

These unaudited condensed consolidated financial statements are presented in Renminbi ("RMB") and rounded to the nearest thousand (RMB'000), unless otherwise stated. RMB is the Company's presentation currency and the functional currency of the principal operating subsidiary of the Group. The functional currency of the Company is Hong Kong dollars. The directors consider that choosing RMB as the presentation currency best suits the needs of the shareholders and investors. These unaudited condensed consolidated financial statements were approved for issue on 26 August 2014.

#### 2. SIGNIFICANT ACCOUNTING POLICIES

The unaudited condensed consolidated financial statements have been prepared on the historical cost basis except for certain financial instruments which are measured at fair values. Historical cost is generally based on the fair value of the consideration given in exchange for assets.

The accounting policies adopted in the unaudited condensed consolidated financial statements for the six months ended 30 June 2014 are consistent with those followed in the preparation of the Annual Report 2013 except for the impact of the adoption of the new and revised standards, amendments and interpretations (the "new HKFRSs").

#### 3. OPERATING SEGMENT

Accordingly, the Group does not present separately segment information.

Segment revenue reported represents revenue generated from external customers. There were no intersegment sales for the six months ended 30 June 2014 (six months ended 30 June 2013: Nil).

During the six months ended 30 June 2014 and 2013, all revenue is derived from customers in the PRC.

### 13. TRADE RECEIVABLES

The Group generally grants its customers on sales of goods an average credit period ranging from 30 to 60 days. The following is an analysis of trade receivables by age, presented based on the invoice date. The analysis below is net of allowance for doubtful debts:

	30 June	31 December
	2014	2013
	RMB'000	RMB'000
	(Unaudited)	(Audited)
0 – 30 days	47,928	51,553
31 – 60 days	40,951	43,784
	88,879	95,337

No interest is charged on trade receivables for the first 60 days from the date of the invoice. Thereafter, penalty may be charged at 0.3% per day on the outstanding balance over the granted credit period. In determining the recoverability of a trade receivable, the Group considers any change in the credit quality of the trade receivable from the date credit was initially granted up to the end of the reporting period. The concentration of credit risk is limited due to the customer base being large and unrelated. Allowances for doubtful debts are recognised against trade receivables based on estimated irrecoverable amounts determined by reference to past default experience of the counterparty and an analysis of the counterparty's current financial position.

The Company does not hold any collaterals or other credit enhancements over these balances.

As at 30 June 2014, no trade receivables were past due but not impaired (31 December 2013: Nil).
