NOTICE OF EGM**

I. INTRODUCTION

Reference is made to the Announcement, whereby the Board announced that on February 17, 2025, the Company and the Seller entered into the Parking Spaces Transfer Framework Agreement and the Equity Transfer Agreements in relation to the Acquisitions.

LETTER FROM THE BOARD

The purposed of this circular is to provide you with, among other things:

- (i) further details of the Parking Spaces Transfer Framework Agreement and the Equity Transfer Agreements and the transactions contemplated thereunder;
- (ii) a letter from the Independent Board Committee to the Independent Shareholders containing its recommendation in respect of the Parking Spaces Transfer Framework Agreement and the Equity Transfer Agreements and the transactions contemplated thereunder;
- (iii) a letter from the Independent Financial Adviser to the Independent Board Committee and the Independent Shareholders containing its recommendation in respect of the Parking Spaces Transfer Framework Agreement and the Equity Transfer Agreements and the transactions contemplated thereunder;
- (iv) financial information of the Group;
- (v) financial information of the Target Companies;
- (vi) unaudited pro forma financial information of the Enlarged Group upon completion of the Acquisitions;
- (vii) the property valuation report of the Target Parking Spaces and properties of Target Companies;
- (viii) other information as required under the Listing Rules; and
- (ix) a notice convening the EGM.

At the EGM, ordinary resolutions will be proposed to approve the Parking Spaces Transfer Framework Agreement and the Equity Transfer Agreements and the transactions contemplated thereunder.

LETTER FROM THE BOARD

II. THE PARKING SPACES TRANSFER FRAMEWORK AGREEMENT

Principal terms

Principal terms of the Parking Spaces Transfer Framework Agreement are summarized below:

Date:	February 17, 2025
Parties:	The Company, as the purchaser; and The Seller, as the seller
Subject Matter:	Pursuant to the Parking Spaces Transfer Framework Agreement, the Company has conditionally agreed to purchase, and Seller has conditionally agreed to sell the property right or the right of use (as the case may be) of the Target Parking Spaces owned by the Seller Group, subject to the terms and conditions of the Parking Spaces Transfer Framework Agreement.

In case where the Seller Group has the real estate right certificate (the “**Certification**”) of the relevant Target Parking Spaces (and in such case the Seller Group has the title of property such as the right of ownership, possession, use, transfer and income), the property right of such Target Parking Spaces will be transferred as contemplated under the Parking Spaces Transfer Framework Agreement.

Where the Certification of the relevant Target Parking Spaces cannot be applied for or obtained, only the right of use (instead of the property right) of such Target Parking Spaces will be transferred as contemplated under the Parking Spaces Transfer Framework Agreement. Such right of use includes, without limitations, right of possession, transfer, lease, operation and management, income, advertising income, etc. The respective term of the right of use of such Target Parking Spaces is up to the expiration date of the term of the right of use of the land on which such Target Parking Spaces are located, so that the entire potential economic benefits of such Target Parking Spaces will be transferred to the Company. As advised by the Company’s PRC legal adviser, this constitutes a valid transfer of the right of use of these Target Parking Spaces to the Group, which is permitted under the applicable PRC law.

LETTER FROM THE BOARD

Separate transfer agreements

The Parking Spaces Transfer Framework Agreement is a framework agreement. Subject to the compliance with the Listing Rules (including but not limited to obtaining the approval from the Independent Shareholders at the EGM for the transaction contemplated under the Parking Spaces Transfer Framework Agreement) and the satisfaction of the conditions precedents as set out below, the Group and the Seller Group shall enter into separate transfer agreements for the transfer of the property right or the right of use (as the case may be) of the Target Parking Spaces.

The Company and the Seller must enter into separate transfer agreements by each project concerning the Target Parking Spaces because each project may involve different counterparties, specifically the respective members of the Group and the Seller's Group responsible for such project. Furthermore, under the applicable PRC law, property title transfer would be subject to registration with the relevant local authorities in the PRC. Considering that the Target Parking Spaces are located at different provinces, having separate transfer agreements is essential for such registration process.

Therefore, the key difference between the Parking Spaces Transfer Framework Agreement and the separate transfer agreements will be the counterparties, as the transfer agreements for each project shall be entered into by different members of the Group and the Seller's Group, in accordance with the existing ownership of the relevant Target Parking Spaces and the intended entities of the Group that will purchase the same. Except for the counterparties, the separate transfer agreements will adhere to the terms and conditions of the Parking Spaces Transfer Framework Agreement, including the price cap, payment terms, and delivery methods for the Target Parking Spaces. Hence, the separate transfer agreements do not constitute new notifiable or connected transactions under the Listing Rules.

LETTER FROM THE BOARD

Consideration:

The total consideration is RMB229.37 million and will be settled by cash.

Such final consideration is adjusted as compared with the consideration disclosed in the Announcement based on the final valuation assessed by the Independent Valuer, as the Company has elected to discard or replace those Target Parking Spaces subject to ownership disputes with comparable parking spaces as agreed upon by the parties. Details of valuation and the considerations of parking spaces by project are set out in Appendix VI to this circular and in the paragraphs headed “Information on the Target Parking Spaces” below.

The Group intends to use its internal resources to settle the cash consideration payable under the Parking Spaces Transfer Framework Agreement.

Payment Schedule:

The consideration for each project will be paid in three installments:

Initial payment: the Company shall pay 50% of the consideration to the Seller within seven (7) business days after the execution of the separate transfer agreements;

Second payment: the Company shall pay an additional 40% of the consideration to the Seller within seven (7) business days following the completion of property right or the right of use (as the case may be) transfer registration and the handover of relevant documentation; and

Final payment: the remaining 10% of the consideration shall be paid to the Seller within twelve (12) months after the execution of the separate transfer agreement.

LETTER FROM THE BOARD

- Basis of the Consideration:** The consideration was determined after arm's length negotiations between the parties with reference to:
- (i) the book value of the Target Parking Spaces as at December 31, 2024 of RMB238.07 million;
 - (ii) the appraised value of the Target Parking Spaces as at February 28, 2025, with a market value of approximately RMB113.76 million for those with title and an investment value of approximately RMB115.61 million for those without title, based on an independent valuation by the Independent Valuer on Target Parking Spaces as at February 28, 2025. For further information on the valuation of the Target Parking Spaces, please refer to Appendix VI to this circular;
 - (iii) the prevailing property market conditions;
 - (iv) the expected administrative cost of the Company to realize the acquired assets; and
 - (v) the reasons and benefits as particularized in the paragraphs headed "Reasons for and Benefits of the Acquisitions" below.
- Conditions Precedent:** Completion is conditional upon fulfillment of the following conditions:
- (i) both parties have obtained the approval of their respective independent shareholders at the general meeting of both parties in respect of the Parking Spaces Transfer Framework Agreement and the transactions contemplated thereunder; and
 - (ii) the satisfaction of all the applicable requirements under the Listing Rules.
- Completion:** The Parking Spaces Transfer Framework Agreement is a framework agreement. Subject to the compliance with the Listing Rules (including but not limited to obtaining the approval from the Independent Shareholders at the EGM for the transaction contemplated under the Parking Spaces Transfer Framework Agreement) and the satisfaction of the conditions precedents as set out above, the Group and the Seller Group shall enter into separate transfer agreements for the transfer of the property right or the right of use (as the case may be) of the Target Parking Spaces.

LETTER FROM THE BOARD

Details of the transfers, including the final transfer price and the number of parking spaces to be transferred for each project, will be subject to the separate transfer agreements for each project, provided that the clauses in the separate transfer agreements shall be in compliance with the requirements of the Listing Rules and shall not be in conflict with the terms of the Parking Spaces Transfer Framework Agreement.

Long Stop Date:

Unless terminated earlier by either party in accordance with its provisions, this agreement shall remain in effect for a period of 12 months from the date of the Parking Spaces Transfer Framework Agreement.

The Directors consider that the 12-month period is justifiable because both parties will require sufficient time to implement the sale and purchase for each Target Parking Space, including entering into separate transfer agreements and conducting the necessary registration of titles and taking into account the circular and Independent Shareholders' approval requirements applicable to the transactions contemplated under the Parking Spaces Transfer Framework Agreement in accordance with the Listing Rules.

III. THE EQUITY TRANSFER AGREEMENTS

Background

As of December 31, 2024, the Outstanding Receivables due from the Seller mainly consist of three components: (i) approximately RMB90 million for pre-delivery management services for the Seller's unsold units and services provided to property sales venues, such as display units and sales offices; (ii) approximately RMB83 million for commercial property management services; and (iii) approximately RMB286 million for refundable deposits related to parking space sales agency services. These Outstanding Receivables reflect the nature of ongoing operational and contractual relationships between the Seller and the Group.

LETTER FROM THE BOARD

The following table sets forth an aging analysis of the Outstanding Receivables (based on the invoice date) as at the date of this circular:

	Component (i)		Component (ii)		Component (iii)	
	Amount		Amount		Amount	
	(Unaudited)		(Unaudited)		(Unaudited)	
	(RMB		(RMB		(RMB	
	million)	%	million)	%	million)	%
Within 1 year	38	42.2	36	43.4	21	7.3
1-2 years	52	57.8	47	56.6	265	92.7
Total	<u>90</u>	<u>100</u>	<u>83</u>	<u>100</u>	<u>286</u>	<u>100</u>

Given the amount of outstanding balance of each of these receivables due from the Seller to the Group, particularly the refundable deposits related to parking spaces sales agency services that mostly consist of receivables aged at least one year, the Company sought to expedite the recovery of these selected Outstanding Receivables by entering into the Equity Transfer Agreements.

Principal terms

Principal terms of the Equity Transfer Agreements are summarized below:

Date: February 17, 2025

Parties: Nanjing Hong Life, as the purchaser of each of the Equity Transfer Agreements;

Chengdu Hong Yang Jin Xing, as the seller in respect of the Equity Transfer of Target Company A;

Xuzhou Hong Qi, as the seller in respect of the Equity Transfer of Target Company B;

Nanjing Hong Tai Pu Yang, as the seller in respect of the Equity Transfer of Target Company C.

LETTER FROM THE BOARD

Subject Matter: Nanjing Hong Life has conditionally agreed to purchase, and each of Chengdu Hong Yang Jin Xing, Xuzhou Hong Qi and Nanjing Hong Tai Pu Yang has conditionally agreed to sell (i) 70% of the equity interests in Target Company A held by Chengdu Hong Yang Jin Xing; (ii) 20% of the equity interests in Target Company B held by Xuzhou Hong Qi; and (iii) 19% of the equity interests in Target Company C held by Nanjing Hong Tai Pu Yang, together with all other assets, liabilities and owners' equity attached to the equity interests abovementioned, subject to the terms and conditions of the respective Equity Transfer Agreements. Each of the Equity Transfer Agreements stipulates the terms and conditions of Equity Transfer of each Target Company.

Consideration: The respective consideration under the Equity Transfer Agreements is RMB109.49 million for Target Company A, RMB68.13 million for Target Company B and RMB41.02 million for Target Company C. Such considerations shall be offset against an equal amount of Outstanding Receivables from refundable deposits related to parking space sales agency services on a dollar-for-dollar basis, with older balances being settled first. No separate cash payment will be made by the Group to the Seller Group.

Such final considerations are adjusted as compared with the considerations disclosed in the Announcement based on the relevant audit of the accounts of the Target Companies, as agreed upon by the parties in writing.

Basis of the Consideration: Such considerations were determined after arm's length negotiations between the parties with reference to:

- (i) the adjusted gross net asset value¹ of Target Company A, Target Company B and Target Company C as at December 31, 2024, amounted to RMB176.97 million, RMB204.16 million and negative RMB105.53 million, respectively;

¹ The adjusted gross net asset value is calculated based on the net asset value of the Target Companies as at December 31, 2024 in the respective accountants' report plus the market value minus the carrying amounts of properties of the respective Target Companies as at February 28, 2025. The carrying amounts of the relevant properties for Target Company A, Target Company B and Target Company C as at February 28, 2025 were approximately RMB228.0 million, RMB718.3 million and RMB204.0 million, respectively, whereas their market value were approximately RMB253.2 million, RMB852.2 million and RMB204.0 million, respectively, based on an independent valuation by the Independent Valuer as at February 28, 2025. For further information on the valuation of the relevant property interests, please refer to Appendix VI to this circular.

LETTER FROM THE BOARD

- (ii) the outstanding payables due to Target Company A from the Seller Group, as recorded in the management accounts of Target Company A as at December 31, 2024, amounted to RMB14.39 million;
- (iii) the outstanding receivables due from Target Company B and Target Company C to the Seller Group, as recorded in their respective management accounts as at December 31, 2024, amounted to RMB27.29 million and RMB61.07 million, respectively;
- (iv) the expected administrative cost of the Group to realize the acquired assets; and
- (v) the reasons and benefits as particularized in the paragraphs headed “Reasons for and Benefits of the Acquisitions” below.

In particular, the consideration was arrived taking into account of the following:

Target Company A

The adjusted gross net asset value of Target Company A as at December 31, 2024 was RMB176.97 million. With a 70% equity interest being acquired, this amounts to RMB123.88 million. After deducting RMB14.39 million in payables owed to Target Company A by the Seller Group, the obligations of which will be transferred to and assumed by Nanjing Hong Life in their entirety upon completion of the Equity Transfer, the net consideration for the 70% equity interest in Target Company A shall be RMB109.49 million.

LETTER FROM THE BOARD

Target Company B

The adjusted gross net asset value of Target Company B as at December 31, 2024 was RMB204.16 million. With a 20% equity interest being acquired, this amounts to RMB40.83 million. Adding RMB27.29 million in receivables owed to the Seller Group by Target Company B, the rights to which will be transferred to and acquired by Nanjing Hong Life in their entirety upon completion of the Equity Transfer, the net consideration for the 20% equity interest in Target Company B is RMB68.13 million.

Target Company C

The adjusted gross net asset value of Target Company C as at December 31, 2024 was negative RMB105.53 million. With a 19% equity interest being acquired, this amounts to negative RMB20.05 million. Adding RMB61.07 million in receivables owed to the Seller Group by Target Company C, the rights to which will be transferred to and acquired by Nanjing Hong Life in their entirety upon completion of the Equity Transfer, the net consideration for the 19% equity interest in Target Company C is RMB41.02 million.

Conditions Precedent:

Completion is conditional upon fulfillment of the following conditions:

- (i) the transfer of the equity interests of Target Company A, Target Company B and Target Company C contemplated hereunder comply with the articles of association of Target Company A, Target Company B and Target Company C, respectively and having obtained the consent and waiver of the first refusal right from the respective remaining shareholders of Target Company A, Target Company B and Target Company C, respectively;
- (ii) both parties have obtained the approval of their respective independent shareholders at the general meeting of both parties in respect of the agreement and the transactions contemplated thereunder; and
- (iii) the satisfaction of all the applicable requirements under the Listing Rules.

LETTER FROM THE BOARD

Completion:

Upon completion of the Equity Transfer:

- (i) Nanjing Hong Life will be interested in 70% of equity interest in Target Company A. Therefore, Target Company A will become an indirect non-wholly-owned subsidiary of the Company and its financial results will be consolidated into the Company's consolidated financial statements; and
- (ii) Target Company B and Target Company C will be accounted for as an associate and a joint venture of the Company, respectively. Therefore, their financial results will not be consolidated into the Company's consolidated financial statement but both will be accounted for under the equity method.

Long Stop Date:

Unless terminated earlier by either party in accordance with their respective provisions, each of these agreements shall remain in effect for a period of 12 months from the date of the respective Equity Transfer Agreements.

The Directors consider that the 12-month period is reasonable because both parties will require sufficient time to implement the sale and purchase for each of the Target Companies, including completing the industrial and commercial registration for the equity transfer of each Target Company and taking into account the circular and Independent Shareholders' approval requirements applicable to the transactions contemplated under the Equity Transfer Agreements in accordance with the Listing Rules.

IV. REASONS FOR AND BENEFITS OF THE ACQUISITIONS

The Company provides a wide range of property management services to property owners, residents and tenants, value-added services to non-property owners, primarily property developers, and other property management companies, and community value-added services to residential property owners and residents. As at June 30, 2024, 33.4% of our projects under management were properties developed by the Seller and 17.7% of our projects under management were properties developed by property developers which are joint ventures and associates of the Seller in which the Seller does not hold a controlling interest. The Company has maintained long track record of business relationship and deep cooperation with the Seller.

LETTER FROM THE BOARD

The Acquisitions allow the Company to (i) enhance of its revenue stream by receiving income generated from parking spaces sales and lease business; and (ii) to recover the Outstanding Receivables from the Seller based on the circumstances as detailed below.

Target Parking Spaces

The Target Parking Spaces have not generated any revenue in previous years, as they have not yet been made available for sale or lease. After the Company acquires them, the Company will offer both leasing and sales services for the Target Parking Spaces. Particularly, the Company will primarily focus on sale, and those unsold ones will be leased. This includes actively identifying potential customers with parking space needs, conducting regular promotional activities, and leveraging the Company's core property management business to facilitate parking space sales. Meanwhile, the temporary parking spaces will generate revenue through short-term parking fees. The Company has extensive experience in managing and leasing parking spaces as part of its community value-added services, which comprise, among others, property brokerage services and assets management services. It has established marketing channels and operational expertise to effectively promote, sell and lease parking spaces to individual users.

In addition to these efforts, the Company may also explore additional revenue opportunities, such as generating advertising income from the Target Parking Spaces. The Company intends to utilize certain parking lot areas, such as walls and ground surfaces, for advertising displays, which may generate additional advertising income for the Company from potential customers with advertising needs.

These strategies will help the Company create a sustainable and diversified income streams from the Target Parking Spaces, both through leasing, sales, and potential advertising revenue.

Target Companies

The Company views the acquisitions of equity interests in Target Companies as strategic equity investments rather than a shift of its business to real estate development.

The Company's primary focus remains on property management services, and the Acquisitions provide an opportunity to enhance its service offerings, recover the Outstanding Receivables, and potentially realize returns from the Target Companies' assets without the intention of becoming directly involved in property development activities. Among other things, even if Target Company A becomes the Company's subsidiary upon completion of the Equity Transfer, the Company will not be involved in any property development activities as its project is in the final phase of sale. The Company's role will thus be limited to selling the remaining inventory units, leveraging its expertise to efficiently manage the final sales process and integrate property management services.

LETTER FROM THE BOARD

Additionally, the Company may eventually sell its equity interests in the Target Companies, should suitable buyers be identified with favorable terms, allowing the Company to realize a return on its equity investment. This strategy aligns with the Company's ongoing commitment to managing its portfolio with a long-term, value-driven approach, focusing on generating sustainable income from its core property management business while maintaining flexibility to divest non-core assets if beneficial.

The Company has considered various methods for recovering the Outstanding Receivables from the Seller. However, due to the Seller's current liquidity position, the likelihood of recovering the receivables in cash could be limited. Alternative assets, including real estate, are subject to high taxes and transaction costs, rendering them less efficient for recovery. By contrast, the Equity Transfer presents a more advantageous solution, offering lower transaction costs and the potential for future returns. The equity interests in the Target Companies are considered to be quality assets which may provide a more effective and strategic means of recovering the Outstanding Receivables.

Acquisitions

The Acquisitions align with the Company's strategic objectives by diversifying its revenue streams without deviating from its asset-light business model. While the Company is focused on property management services, the acquisition of equity interests in the Target Companies represent an easy and reliable opportunity to recover the Outstanding Receivables and the acquisition of the Target Parking Spaces provides additional sources of income from parking space sales, leasing, and advertising. The Acquisitions are designed to enhance cash flow, recover outstanding receivables, and create long-term value, all while maintaining the Company's core focus on delivering quality property management services.

The Target Parking Spaces and the Target Companies have not previously been managed by the Company. Upon completion of the Acquisitions, the Company will integrate these assets into its existing property management operations.

Despite the fact that the Target Parking Spaces have not generated any revenue or profit and Target Company C has nil revenue and profit, and has net liabilities, the Company has considered the Acquisitions fair and reasonable for the following reasons: (i) the Acquisitions provide the Company with strategic assets that are expected to generate future income through parking space sales, leasing, and advertising opportunities, which align with the Company's long-term revenue diversification strategy; (ii) the Acquisitions allow the Company to recover Outstanding Receivables from the Seller, enhancing cash flow and improving the Company's financial position; and (iii) the equity interests in the Target Companies are viewed as quality assets with future growth potential. Therefore, the Company believes the Acquisitions represent a sound investment given the potential for future returns, despite the current financial status of the Target Companies.

LETTER FROM THE BOARD

In view of the above, the Board (including the independent non-executive Directors) is of the view that, for the reasons for and benefits of the Acquisitions and the basis of determination of the consideration for the Acquisitions set out above, despite the Agreements and the Acquisitions were not entered into in the ordinary and usual course of business of the Group, the terms of the Agreements (including the respective considerations) are on normal commercial terms and are fair and reasonable and in the interests of the Company and the Shareholders as a whole.

V. FINANCIAL EFFECTS OF THE ACQUISITIONS ON THE EARNINGS, ASSETS AND LIABILITIES OF THE GROUP

Upon completion of the Equity Transfer, Nanjing Hong Life will be interested in 70% of equity interest in Target Company A. Therefore, Target Company A will become an indirect non-wholly-owned subsidiary of the Company and its financial results will be consolidated into the Company's consolidated financial statements. Target Company B and Target Company C will be accounted for as an associate and a joint venture of the Company, respectively. Therefore, their financial results will not be consolidated into the Company's consolidated financial statement but both will be accounted for under the equity method.

Following completion of the Acquisitions, no gain or loss will be recorded.

The unaudited pro forma financial information of the Enlarged Group as set out in Appendix III to this circular illustrates the financial impact of the Acquisitions. Based on the unaudited pro forma financial information of the Enlarged Group, the profit for the year of 2024 would represent a decrease of RMB16.76 million, and the assets and the liabilities as at December 31, 2024 would represent an increase of RMB511.01 million and RMB466.60 million, respectively. As a result, the net assets of the Group as at December 31, 2024 would increase by RMB44.40 million to RMB953.48 million.

VII. IMPLICATIONS UNDER THE LISTING RULES

Given that the transactions under the Parking Spaces Transfer Framework Agreement and the Equity Transfer Agreements were entered into between the Group and the Seller Group, among other parties, within 12 months and are of a same nature, the Acquisitions constitute a series of transactions which are required to be aggregated pursuant to the Listing Rules.

As the highest applicable percentage ratio in respect of the Acquisitions exceeds 100%, the Acquisitions constitute a very substantial acquisition for the Company pursuant to Rule 14.06(5) of the Listing Rules and are therefore subject to reporting, announcement, circular and Shareholders' approval requirements under Chapter 14 of the Listing Rules.

As of the date of this circular, the Seller is indirectly held as to 71.88% by Mr. Zeng Huansha, a Controlling Shareholder. Accordingly, the Seller is an associate of Mr. Zeng Huansha and therefore a connected person of the Company under Chapter 14A of the Listing Rules. Therefore, the Acquisitions also constitute a connected transaction of the Company under Chapter 14A of the Listing Rules and are subject to the reporting, announcement, circular and Independent Shareholders' approval requirements.

VIII. INTEREST OF DIRECTORS

As Mr. Zeng Junkai, the chairman and non-executive Director of the Company, is the son of Mr. Zeng Huansha, a Controlling Shareholder and a controlling shareholder of the Seller, Mr. Zeng Junkai is regarded as having a material interest in each of the Agreements and the transactions contemplated thereunder. Therefore, Mr. Zeng Junkai has abstained from voting on the respective Board resolutions approving the Agreements and the transactions contemplated thereunder. Save as disclosed above, none of the Directors has any material interest in, or was required to abstain from voting on the relevant Board resolutions.

IX. INDEPENDENT SHAREHOLDERS' APPROVAL

In view of the above, the Company will seek the approval of the Independent Shareholders in relation to the Agreements and the transactions contemplated thereunder. Ordinary resolutions will be proposed at the EGM to approve by way of poll the Agreements and the transactions contemplated thereunder.

As at the Latest Practicable Date, Redsun Services Group (Holdings) Limited is a controlling Shareholder, directly holding approximately 72.77% of the entire issued share capital of the Company. Redsun Services Group (Holdings) Limited is wholly owned by Hong Yang Group Company Limited, which in turn is wholly owned by Hong Yang International Limited, which in turn is owned as to 50% and 50% by Hong Yang Group (Holdings) Limited (a company wholly owned by Mr. Zeng Huansha) and Mr. Zeng Huansha, respectively. Accordingly, Redsun Services Group (Holdings) Limited and its associates will be required to abstain from voting on the ordinary resolutions to be proposed at the EGM in respect of the Agreements and the transactions contemplated thereunder.

LETTER FROM THE BOARD

X. INDEPENDENT BOARD COMMITTEE AND INDEPENDENT FINANCIAL ADVISER

The Company has established the Independent Board Committee (comprising all the independent non-executive Directors) in accordance with Chapter 14A of the Listing Rules to advise the Independent Shareholders on the Agreements and the transactions contemplated thereunder.

In this connection, the Company has appointed the Independent Financial Adviser to advise the Independent Board Committee and the Independent Shareholders in respect of the Agreements and the transactions contemplated thereunder.

XI. CLOSURE OF REGISTER OF MEMBERS

To attend and vote at the EGM

For the purpose of ascertaining the Shareholders' entitlement to attend and vote at the EGM, the register of members of the Company will be closed from Friday, May 16, 2025 to Wednesday, May 21, 2025, both days inclusive. In order to be eligible to attend and vote at the EGM, all transfers of Shares accompanied by the relevant share certificates and appropriate transfer forms must be lodged for registration with Computershare at Shops 1712-1716, 17th Floor, Hopewell Centre, 183 Queen's Road East, Wanchai, Hong Kong not later than 4:30 p.m. on Thursday, May 15, 2025.

XII. EGM AND PROXY ARRANGEMENT

A notice convening the EGM to be held at Room 2612, 26/F, China Merchants Tower, Shun Tak Centre, Sheung Wan, Hong Kong at 2:00 p.m. on Wednesday, May 21, 2025 is set out on pages EGM-1 to EGM-2 of this circular.

Pursuant to Rule 13.39(4) of the Listing Rules and Article 72 of the Articles of Association, any vote of shareholders at a general meeting must be taken by poll except where the chairman, in good faith, decides to allow a resolution which relates purely to a procedural or administrative matter to be voted on by a show of hands. An announcement on the poll results will be published by the Company after the EGM in the manner prescribed under Rule 13.39(5) of the Listing Rules.

A form of proxy for use at the EGM is sent to the Shareholders together with this circular. Such form of proxy is also published on the websites of the Stock Exchange (www.hkexnews.hk) and the Company (www.rsunservice.hk). Whether or not you intend to attend the EGM, you are requested to complete the accompanying form of proxy in accordance with the instructions printed thereon and return the same to Computershare, the branch share registrar of the Company in Hong Kong, at Shops 1712-1716, 17th Floor, Hopewell Centre, 183 Queen's Road East, Wanchai, Hong Kong as soon as possible but in any event not less than 48 hours before the time appointed for the holding of the EGM or any adjournment thereof. Completion and return of the form of proxy shall not preclude you from attending and voting in person at the EGM if you so desire.

LETTER FROM THE BOARD

As at the Latest Practicable Date, Redsun Services Group (Holdings) Limited is a controlling Shareholder, directly holding approximately 72.77% of the entire issued share capital of the Company. Redsun Services Group (Holdings) Limited is wholly owned by Hong Yang Group Company Limited, which in turn is wholly owned by Hong Yang International Limited, which in turn is owned as to 50% and 50% by Hong Yang Group (Holdings) Limited (a company wholly-owned by Mr. Zeng Huansha) and Mr. Zeng Huansha, respectively. Accordingly, Redsun Services Group (Holdings) Limited and its associates will be required to abstain from voting on the ordinary resolutions to be proposed at the EGM in respect of the Agreements and the transactions contemplated thereunder.

XIII. RECOMMENDATION

Your attention is drawn to the letter from the Independent Board Committee set out on pages 31 to 32 of this circular and the letter from the Independent Financial Adviser containing its recommendations to the Independent Board Committee and Independent Shareholders in connection with the Acquisitions and the Agreements, and the principal factors and reasons considered by them in arriving such recommendations set out on pages 33 to 63 of this circular.

Based on the information set out in this circular, the Directors (including the independent non-executive Directors, having taken into account and based on the recommendation of the Independent Financial Adviser) consider that despite the Agreements and the Acquisitions were not entered into in the ordinary and usual course of business of the Group, the terms of the Agreements (including the respective considerations) are on normal commercial terms and are fair and reasonable and in the interests of the Company and the Shareholders as a whole. Accordingly, the Directors (including the independent non-executive Directors) recommend the Shareholders to vote in favor of the resolutions to be proposed at the EGM.

XIV. ADDITIONAL INFORMATION

Your attention is also drawn to the additional information set out in the appendixes to this circular.

To the Independent Shareholders

Dear Sir or Madam,

**VERY SUBSTANTIAL ACQUISITION AND
CONNECTED TRANSACTION IN RELATION TO ACQUISITIONS OF
(1) THE TARGET PARKING SPACES; AND
(2) EQUITY INTERESTS IN TARGET COMPANIES**

We refer to the circular dated April 30, 2025 issued by the Company (the “**Circular**”) of which this letter forms part. Terms defined in the Circular shall have the same meanings when used herein, unless the context otherwise requires.

We have been appointed as members of the Independent Board Committee to advise the Independent Shareholders in respect of the Parking Spaces Transfer Framework Agreement and the Equity Transfer Agreements and the transactions contemplated thereunder, details of which are set out in the “Letter from the Board” in the Circular. Ignite Capital (Asia Pacific) Limited has been appointed as the Independent Financial Adviser to advise the Independent Board Committee and the Independent Shareholders in this regard.

We wish to draw your attention to (i) the “Letter from the Board” set out on pages 6 to 30 of the Circular; (ii) the “Letter from the Independent Financial Adviser” set out on pages 33 to 63 of the Circular and (iii) the additional information set out in the appendixes to the Circular.

Having taken into account, among other things, the principal factors and reasons considered by, and the advice of, the Independent Financial Adviser, we concur with the view of the Independent Financial Adviser and consider that despite the Parking Spaces Transfer Framework Agreement and the Equity Transfer Agreements and the Acquisitions were not entered into in the ordinary and usual course of business of the Group, the terms of the Agreements (including the respective considerations) are on normal commercial terms and are fair and reasonable and in the interests of the Company and the Shareholders as a whole.

LETTER FROM THE INDEPENDENT BOARD COMMITTEE

Accordingly, we recommend the Independent Shareholders to vote in favor of the relevant resolution to be proposed at the EGM to approve the Parking Spaces Transfer Framework Agreement and the Equity Transfer Agreements and the transactions contemplated thereunder.

Yours faithfully,
for and on behalf of the
Independent Board Committee

To: The Independent Board Committee and the Independent Shareholders of Redsun Services Group Limited

Dear Sirs or Madams,

**VERY SUBSTANTIAL ACQUISITION AND
CONNECTED TRANSACTION IN RELATION TO ACQUISITIONS OF
(1) THE TARGET PARKING SPACES; AND
(2) EQUITY INTERESTS IN TARGET COMPANIES**

INTRODUCTION

We refer to our engagement as the Independent Financial Adviser to advise the Independent Board Committee and the Independent Shareholders in respect of the Parking Spaces Transfer Framework Agreement and Equity Transfer Agreements, details of which are set out in the letter from the Board (the “**Letter from the Board**”) contained in the circular of the Company to the Shareholders dated April 30, 2025 (the “**Circular**”), of which this letter forms part. Capitalised terms used in this letter shall have the same meanings as those defined in the Circular unless otherwise defined or the context requires otherwise.

Parking Spaces Transfer Framework Agreement

On February 17, 2025, the Company and the Seller entered into the Parking Spaces Transfer Framework Agreement, pursuant to which the Company conditionally agreed to purchase and the Seller conditionally agreed to sell the property right or the right of use (as the case may be) of the Target Parking Spaces, subject to the terms and conditions of the Parking Spaces Transfer Framework Agreement.

LETTER FROM THE INDEPENDENT FINANCIAL ADVISER

Equity Transfer Agreements

On February 17, 2025, Nanjing Hong Life (an indirect wholly-owned subsidiary of the Company) and each of Chengdu Hong Yang Jin Xing, Xuzhou Hong Qi and Nanjing Hong Tai Pu Yang (all being indirect wholly-owned subsidiaries of the Seller) entered into the respective Equity Transfer Agreements, pursuant to which Nanjing Hong Life conditionally agreed to purchase, and each of Chengdu Hong Yang Jin Xing, Xuzhou Hong Qi and Nanjing Hong Tai Pu Yang conditionally agreed to sell (a) 70% of the equity interests in Target Company A held by Chengdu Hong Yang Jin Xing; (b) 20% of the equity interests in Target Company B held by Xuzhou Hong Qi; and (c) 19% of the equity interests in Target Company C held by Nanjing Hong Tai Pu Yang, together with all other assets, liabilities and owners' equity attached to the equity interests abovementioned, subject to the terms and conditions of the respective Equity Transfer Agreements.

Listing Rules Implications

Given that the transactions under the Parking Spaces Transfer Framework Agreement and the Equity Transfer Agreements were entered into between the Group and the Seller Group, among other parties, within 12 months and are of a same nature, the Acquisitions constitute a series of transactions which are required to be aggregated pursuant to the Listing Rules.

As the highest applicable percentage ratio in respect of the Acquisitions exceeds 100%, the Acquisitions constitute a very substantial acquisition for the Company pursuant to Rule 14.06(5) of the Listing Rules and are therefore subject to reporting, announcement, circular and Shareholders' approval requirements under Chapter 14 of the Listing Rules.

As of the date of the Circular, the Seller is indirectly held as to 71.88% by Mr. Zeng Huansha, a Controlling Shareholder. Accordingly, the Seller is an associate of Mr. Zeng Huansha and therefore a connected person of the Company under Chapter 14A of the Listing Rules. Therefore, the Acquisitions also constitute a connected transaction of the Company under Chapter 14A of the Listing Rules and are subject to the reporting, announcement, circular and Independent Shareholders' approval requirements.

As at the Latest Practicable Date, Redsun Services Group (Holdings) Limited is a controlling Shareholder, directly holding approximately 72.77% of the entire issued share capital of the Company. Redsun Services Group (Holdings) Limited is wholly owned by Hong Yang Group Company Limited, which in turn is wholly owned by Hong Yang International Limited, which in turn is owned as to 50% and 50% by Hong Yang Group (Holdings) Limited (a company wholly owned by Mr. Zeng Huansha) and Mr. Zeng Huansha, respectively. Accordingly, Redsun Services Group (Holdings) Limited and its associates will be required to abstain from voting on the ordinary resolutions to be proposed at the EGM in respect of the Agreements and the transactions contemplated thereunder.

LETTER FROM THE INDEPENDENT FINANCIAL ADVISER

THE INDEPENDENT BOARD COMMITTEE

The Independent Board Committee, comprising all the independent non-executive Directors, namely Ms. Wang Fen, Mr. Li Xiaohang and Mr. Zhao Xianbo, has been established to advise the Independent Shareholders in respect of the Parking Spaces Transfer Framework Agreement, Equity Transfer Agreements and the transactions contemplated thereunder and to make recommendations as to, among others, whether the terms of the Parking Spaces Transfer Framework Agreement, Equity Transfer Agreements and the transactions contemplated thereunder are fair and reasonable, are normal commercial terms and in the interests of the Company and the Independent Shareholders as a whole, and as to voting in respect of the relevant resolution(s) at the EGM. Our appointment as the Independent Financial Adviser has been approved by the Independent Board Committee.

OUR INDEPENDENCE

As at the Latest Practicable Date, we did not have any relationship with, or interest in, the Group, the Seller, the Seller Group or any of their respective connected persons and close associates or other parties that could reasonably be regarded as relevant to our independence. During the past two years immediately prior to this letter, we have not: (i) acted in the capacity as a financial adviser or as an independent financial adviser to the Company; (ii) provide any services to the Company; or (iii) had any relationship with the Company. Apart from normal independent financial advisory fee paid or payable to us in connection with the current appointment, no arrangements exist whereby we had received or will receive any fees or benefits from the Group, the Seller, the Seller Group or any other parties that could reasonably be regarded as relevant to our independence. Accordingly, we consider ourselves independent pursuant to Rule 13.84 of the Listing Rules.

BASIS OF OUR OPINION

In formulating our opinion and recommendation to the Independent Board Committee and the Independent Shareholders, we have reviewed, amongst other things:

- (i) the Company's annual results announcement for the year ended 31 December ("**FY**") 2024 (the "**2024 Annual Results Announcement**");
- (ii) the Company's annual reports for FY2023 (the "**2023 Annual Report**");
- (iii) the Parking Spaces Transfer Framework Agreement;
- (iv) the Equity Transfer Agreements;
- (v) the property valuation reports prepared by the Independent Valuer (the "**Valuation Reports**") as set out in the Appendix VI to the Circular;

LETTER FROM THE INDEPENDENT FINANCIAL ADVISER

- (vi) the financial statements of the Target Companies (the “**Target Companies Financial Statements**”) as set out in the Appendix II to the Circular;
- (vii) the Circular; and
- (viii) other information as set out in the Circular.

We have relied on the truth, accuracy and completeness of the statements, information, opinions and representations contained or referred to in the Circular and the information and representations made to us by the Company, the Directors and the management of the Group (collectively, the “**Management**”). We have assumed that all information and representations contained or referred to in the Circular and provided to us by the Management, for which they are solely and wholly responsible, are true, accurate and complete in all material respects and not misleading or deceptive at the time when they were provided or made and will continue to be so up to the Latest Practicable Date. Shareholders will be notified of material changes as soon as possible, if any, to the information and representations provided and made to us after the Latest Practicable Date and up to and including the date of the EGM.

We have also assumed that all statements of belief, opinion, expectation and intention made by the Management in the Circular were reasonably made after due enquiries and careful consideration and there are no other facts not contained in the Circular, the omission of which make any such statement contained in the Circular misleading. We have no reason to suspect that any relevant information has been withheld, or to doubt the truth, accuracy and completeness of the information and facts contained in the Circular, or the reasonableness of the opinions expressed by the Management, which have been provided to us.

We consider that we have been provided with sufficient information to reach an informed view and to provide a reasonable basis for our opinion. However, we have not carried out any independent verification of the information provided by the Management, nor have we conducted any independent investigation into the business, financial conditions and affairs of the Group or its future prospects.

The Directors jointly and severally accept full responsibility for the accuracy of the information disclosed and confirm, having made all reasonable enquiries that to the best of their knowledge and belief, there are no other facts not contained in this letter, the omission of which would make any statement herein misleading.

This letter is issued to the Independent Board Committee and the Independent Shareholders solely in connection for their consideration of the terms of the Parking Spaces Transfer Framework Agreements and the Equity Transfer Agreement, and the transactions contemplated thereunder, and except for its inclusion in the Circular, is not to be quoted or referred to, in whole or in part, nor shall this letter be used for any other purposes without our prior written consent.

LETTER FROM THE INDEPENDENT FINANCIAL ADVISER

PRINCIPAL FACTORS AND REASONS CONSIDERED

In arriving at our opinion in respect of the Parking Spaces Transfer Framework Agreement, Equity Transfer Agreements and the transactions contemplated thereunder, we have taken into consideration the following principal factors and reasons:

1. Information of the Group

The Company is a well-recognized comprehensive community service provider in Jiangsu province, China, with balanced property management abilities in the management of residential and commercial properties. The Company provides a wide range of property management services to property owners, residents and tenants, value-added services to non-property owners, primarily property developers, and other property management companies, and community value-added services to residential property owners and residents. The Company is indirectly controlled by Mr. Zeng Huansha.

Set out in Table 1 below is certain financial information of the Group for three years ended 31 December 2024 as extracted from the 2024 Annual Results Announcement and the 2023 Annual Report.

Table 1: Financial information of the Group

	FY2024	Audited	
	(RMB'000)	FY2023	FY2022
		(RMB'000)	(RMB'000)
Revenue	1,026,678	1,063,634	1,103,122
– Property management services	822,738	840,174	834,730
– Value-added services to non-property owners	42,697	66,857	124,612
– Community value-added services	161,243	156,603	143,780

LETTER FROM THE INDEPENDENT FINANCIAL ADVISER

FY2024 vs FY2023

For FY2024, the Group's revenue amounted to approximately RMB1,026.7 million, representing a slight decrease of approximately 3.6% from approximately RMB1,063.6 million for FY2023. The decrease was mainly attributable to the decrease in the Group's revenue from providing value-added services to non-property owners. From the segment perspective, the Group's revenue from providing property management services amounted to RMB822.8 million, representing a decrease of 2.1% from RMB840.2 million for the corresponding period in 2023. This was mainly attributable to the decrease in revenue from commercial property management services as a result of the Group's withdrawal from certain commercial property management projects. The Group's revenue from value-added services to non-property owners amounted to approximately RMB42.7 million for FY2024, representing a decrease of approximately 36.2% from approximately RMB66.9 million for FY2023. This was mainly attributable to the decrease of sales venue projects caused by the real estate projects being delivered one after another. The Group's revenue from community value-added services achieved substantial growth, amounting to RMB161.2 million, representing an increase of 2.9% from RMB156.6 million for FY2023. During FY2024, the increase in revenue from community value-added services was mainly attributable to the increase in revenue from project common area resource. Overall, the profit attributable to equity shareholders of the Company for FY2024 was approximately RMB14.4 million, representing an increase of approximately 32.1% from approximately RMB10.9 million for FY2023. Such increase in the profit attributable to equity shareholders of the Company for FY2024 was mainly due to the Group's net impairment losses on financial assets significantly narrowed from approximately RMB119.0 million in FY2023 to approximately RMB62.5 million in FY2024, offsetting by the decrease in the gross profit of the Group from approximately RMB252.4 million in FY2023 to approximately RMB199.6 million in FY2024.

FY2023 vs FY2022

During FY2023, the Group's revenue amounted to approximately RMB1,063.6 million, representing a decrease of approximately 3.6% from approximately RMB1,103.1 million for FY 2022. The decrease was mainly attributable to the decrease in the Group's revenue from providing value-added services to non-property owners. From the segment perspective, the Group's revenue from providing property management services amounted to RMB840.2 million for FY2023, representing an increase of approximately 0.7% from approximately RMB834.7 million for FY2022. This was mainly attributable to the rapid increase in total GFA under management in line with the Group's business expansion. The Group's revenue from value-added services to non-property owners amounted to approximately RMB66.9 million for FY2023, representing a decrease of approximately 46.3% from approximately RMB124.6 million for FY2022. Such decrease was mainly attributable to the decrease of sales venue projects caused by the real estate projects being delivered one after another. Meanwhile, the Group's revenue from community value-added services achieved substantial growth, amounting to approximately RMB156.6 million for FY2023, representing an increase of approximately 8.9% from approximately RMB143.8 million for FY2022. During FY2023, the profit attributable to the equity shareholders of the Company amounted to approximately RMB10.9 million, representing a decrease of approximately 88.2% as compared to FY2022, mainly attributable to the increase in impairment allowance for receivables from related parties as affected by the market environment of the real estate industry, as well as the decrease in demand for property development project services and the decrease in revenue from value-added services to non-property owners.

LETTER FROM THE INDEPENDENT FINANCIAL ADVISER

Set out in Table 2 below is certain financial position information of the Group as at 30 June 2024 and 31 December 2023 which were extracted from the 2024 Annual Results Announcement.

Table 2: Financial positions of the Group

	Audited	
	As at 31 December 2024 (RMB'000)	As at 31 December 2023 (RMB'000)
Non-current assets	283,121	287,338
Current assets	1,375,200	1,406,548
Current liabilities	719,008	747,421
Non-current liabilities	30,235	47,893
Equity attributable to equity shareholders of the Company	898,058	883,672

Source: The 2024 Annual Results Announcement

The non-current assets of the Group amounted approximately RMB283.1 million as at 31 December 2024, representing a slight decrease of approximately 1.5% from RMB287.3 million as at 31 December 2023. The current assets of the Group as at 31 December 2024 were approximately RMB1,375.2 million, representing a slight decrease of approximately 2.2% from RMB1,406.5 million as at 31 December 2023. The current liabilities of the Group were recorded approximately RMB719.0 million as at 31 December 2024, which shown a decrease of approximately 3.8% from approximately RMB747.4 million as at 31 December 2023. The non-current liabilities recorded an obvious decrease of approximately 36.9% from approximately RMB47.9 million as at 31 December 2023 to approximately RMB30.2 million as at 31 December 2024.

Based on the above, the equity attributable to the equity shareholders of the Company as at 31 December 2024 amounted to approximately RMB898.1 million, representing an increase of approximately 1.6% from approximately RMB883.7 million as at 31 December 2023.

2. Information of the Target Parking Spaces

5. Reasons for and benefits of the Acquisitions

5.1 Acquisition of the Target Parking Spaces

The PRC Automobile and Parking Space Industry

The Company provides community value added services to residential property owners and residents to improve their living experiences, whereby provision of sales and leasing of parking spaces constitute a major of the services. According to the Management, the Company is of the view that the demand for sales and leasing of parking spaces sales in the PRC will remain positive in the foreseeable future. In conducting our independent analysis, we have primarily focused on assessing the future demand for automobiles in the PRC, which shall in turn drive the future demand for the sales and leasing of car parking spaces in the PRC.

LETTER FROM THE INDEPENDENT FINANCIAL ADVISER

With reference to the statistics published by the National Bureau of Statistics of the PRC (the “**Statistics Bureau**”) (<http://www.stats.gov.cn/>), the gross domestic product (the “**GDP**”) in the PRC for 2024 exceeded RMB130 billion for the first time and reached approximately RMB134.9 billion, representing an increase of approximately 5.0% over the previous year at constant prices. In addition, the retail sales value of automobiles in the PRC has exhibited year-on-year growths of approximately 3.5% in 2024. Furthermore, the number of automobile ownership for civilian use in the PRC have exhibited year-on-year growths of approximately 6.0% in 2022 and approximately 5.5% in 2023, indicating a stable growth in the number of automobiles ownership for civilian use in the PRC. According to “Economic and Financial Outlook Report 2025” which was published by Bank of China Research Institute in November 2024, the gross domestic product growth rate is expected to be approximately 5% for 2025, while consumption will be the main engine of economic growth, which will benefit the retail sales of social consumer goods. At the same time, as forecasted by the China Association of Automobile Manufacturers (“**中國汽車工業協會**”), the total automobile sales in the PRC are expected to reach 32.9 million units with a year-on-year increase of 4.7% in 2025, which is driven by the favorable factors such as the continued releases of macro supporting and consumer goods upgrade policies, and the continuation of tax exemption policy for the purchases of the new energy vehicles.

On the policy side, the PRC government has been implementing policies and measures to continuously stimulate the consumption of automobile in the PRC in the recent years. On 20 July 2023, the National Development and Reform Commission (<https://www.ndrc.gov.cn/>) and the relevant departments jointly formulated and released 《關於促進汽車消費的若干措施》 (“**Several Measures of Promoting the Automobile Consumption**”) (the “**Measures**”), which aims to promote automobile consumption, improve and support the sustainable development of the automotive market in the PRC. The Measures, among others, promote the replacement of aging vehicles, reduce the purchase and usage cost of new energy vehicles and encourage local governments to expand the supply of parking spaces. All regions and relevant departments are urged to promptly introduce supporting policies and measures to ensure the effective implementation of the Measures. Meanwhile, we also note from the Official Website of China Government (“**中華人民共和國政府網**”) that the policy for reduction in automobile purchase tax for new energy automobiles would be extended to the end of 2027. In details, automobiles purchase tax will be fully exempted for purchases of new energy automobiles in 2024 and 2025, whilst purchases of new energy automobiles in 2026 and 2027 enjoy 50% reduction in the automobiles purchase tax. This policy is aimed to, among others, extend the policy for reduction in automobiles purchase tax, improve market environment, further stimulate the potential consumption and enhancing the development of new energy automobile industry.

Moreover, we have also conducted independently research on the demand of parking space in PRC. According to《全國停車場分析報告》 (“**The Analysis Report on the National Parking Lots***”) jointly published in January 2022 by AutoNavi Software Co., Ltd. (<http://www.autonavi.com>), a Chinese web mapping, navigation and location-based services provider founded in 2001, and the Transportation Research Institute of Tsinghua University, while more than one million parking lots had been built in the PRC, there was still a shortage of parking spaces with a demand gap of 80 million parking spaces due to the significant increase in the number of automobiles in the PRC.

LETTER FROM THE INDEPENDENT FINANCIAL ADVISER

Taking into consideration of the above statistics and policies, we concur with the Management that the demand for sales and leasing of parking spaces sales in the PRC will remain positive in the foreseeable future.

Extensive experience in parking spaces

As stated in the Letter from the Board, the Company has extensive experience in managing and leasing parking spaces as part of its community value-added services. Based on the discussion with the Management, we understand that asset management team of the Company (the “**Asset Management Team**”) is responsible for the sales, leasing and management of parking spaces of the Group. Based on the information provided by the Company, we note that the Asset Management Team (i) established in 2021 and currently has more than 300 sales and management personnel, with average related experience of more than six years; (ii) operates five subsidiaries of the Group and is managing sales and leasing of parking space projects of the Group in more than 30 cities in the PRC, in particular covering the cities where the Target Parking Spaces are located; (iii) has completed sales and leasing of more than 4,000 parking spaces during the three years ended 31 December 2024; and (iv) has provided management services to more than 36,000 parking spaces during the three years ended 31 December 2024. And we concur with the Management that the Company has extensive experience in sales, leasing and management of parking spaces in the PRC.

Enhancement and diversification of income stream

As mentioned in the Letter from the Board, the Company will offer both leasing and sales services for the Target Parking Spaces. The Target Parking Spaces have not yet been made available for sale or lease and the Company will primarily focus on sales and those unsold ones will be leased. In addition, the Company may explore additional revenue opportunities, such as generating advertising income from the Target Parking Spaces. The Company intends to utilize certain parking lot areas, such as walls and ground surfaces, for advertising displays, which may generate additional advertising income for the Company from potential customers with advertising needs.

Based on our understanding with the Management, we note that, apart from the revenue generated from property management services, income derived from sales, leasing and management of parking space is one of the important sources of revenue of the Group. And we concur with the Management that the acquisition contemplated under the Parking Spaces Transfer Framework Agreement (the “**Packing Space Acquisition**”) could enable the Group to enhance its source of income from packing spaces and further diversify its revenue stream, and is in line with the Group’s long-term revenue diversification strategy.

LETTER FROM THE INDEPENDENT FINANCIAL ADVISER

5.2 Acquisition of the Target Companies

As disclosed in the Letter from the Board, the Company's primary focus remains on property management services, and the Acquisition of the Target Companies (the "**Target Companies Acquisition**") provides an opportunity to enhance its service offerings, recover the Outstanding Receivables, and potentially realize returns from the Target Companies' assets without the intention of becoming directly involved in property development activities.

Realization of potential return without directly involve in property development activities

Based on the discussion with the Management, we understand that, in assessing the potential return on the assets of the Target Companies, the Company has, among other factors, considered (i) the market value of the properties and the Land held by the Target Companies (the "**Target Companies Properties**") as at the Valuation Date as set out in the Valuation Reports (the "**Properties Market Values**"), as compared to the respective carrying amounts of the Target Companies Properties (the "**Properties Carrying Amounts**") as at 28 February 2025; and (ii) whether the Target Companies Properties are in normal operational status. In this regard, we have reviewed the Target Companies Financial Statements and the Valuation Reports and, and noted that (i) the Properties Market Values were above or at the Properties Carrying Amounts as at 31 December 2024 in the Target Companies Financial Statements. In addition, we have checked the operating status of the Target Companies through the National Enterprise Credit Information Publicity System and noted that all the Target Companies were not in the list of enterprise with abnormal operations and untrustworthy enterprises with serious violations.

Moreover, as stated in the Letter from the Board and according to the Management, direct acquisition of property projects or interests will incur higher taxes and transaction costs.

In relation to the intention of no involvement in property development activities by the Group, we have discussed with the Management and understand that (i) the development of the Target Company A Project has been completed; (ii) the first two phases of the Target Company B Project have been delivered, whilst the third phase is still under construction and the Company confirmed that it has not, and will not, involve in the project development of the Target Company B Project; and (iii) as at the date of the Circular, there is no concrete development plan on the Land and the Company confirmed that it will not involve in any of the project development activities of the Land, should there be any, in the future.

In light of the above, we concur with the Management that the Target Companies Acquisition could offer potential return to the Group without direct involvement in property development activities.

LETTER FROM THE INDEPENDENT FINANCIAL ADVISER

Enhancement of income stream

As stated in the Letter from the Board and based on the discussion with the Management, we understand that, after the Target Companies Acquisition, the Group plans to (i) sell the remaining inventory units of the Target Company A Project; (ii) provide property management services to Target Company A Project; (iii) sell the residential and commercial units of the Target Company Project B upon completion of the development; and (iv) consider to dispose of the Land when suitable opportunity arises. It is expected that the Group could generate potential sales proceeds and/or management fee from the Target Companies Properties. As such, we concur with the Management that the Target Companies Acquisition enables the Group to broaden and further diversify its revenue stream, and is in line with the Group's long-term revenue diversification strategy.

Outstanding Receivables

As disclosed in the Letter from the Board, the Outstanding Receivables, particularly the refundable deposits related to parking spaces sales agency services that mostly consist of receivables aged at least one year, the Company sought to expedite the recovery of these selected Outstanding Receivables by entering into the Equity Transfer Agreements. We have discussed with the Management and understand that (i) the Company has been paying close attention to the liquidity position of the Seller and regularly requesting for collection of the Outstanding Receivables, including holding of monthly meetings with the Seller; (ii) due to the Seller's current liquidity position, the likelihood of recovering the Outstanding Receivables in cash could be limited; (iii) the Outstanding Receivables are interest-free; and (iv) the considerations for the Target Companies Acquisition under the Equity Transfer Agreements (the "**Target Companies Considerations**") shall be offset against an equal amount of the Outstanding Receivables on a dollar-for-dollar basis. As discussed in the above section headed "5.2 Acquisition of the Target Companies – Enhancement income stream", it is expected that the Group could generate potential sales proceeds and/or management fee from the Target Companies Properties. Therefore, considering the Outstanding Receivables are interest-free and the likelihood of recovering the Outstanding Receivables in cash could be limited, the Target Companies Acquisition would offer an easy and reliable opportunity for the Group to recover the Outstanding Receivables on a dollar-for-dollar basis and enhance its cash flow position.

LETTER FROM THE INDEPENDENT FINANCIAL ADVISER

5.3 Section conclusion

Having considered the above, in particular (i) the demand for sales and leasing of parking spaces sales in the PRC will remain positive in the foreseeable future; (ii) the Company has extensive experience in sales, leasing and management of parking spaces in the PRC; (iii) both the Parking Space Acquisition and Target Companies Acquisition could enable the Group to enhance and further diversify its revenue stream, and is in line with the Group's long-term revenue diversification strategy; (iv) the Target Companies Acquisition could offer potential return to the Group without direct involvement in property development activities; and (v) considering the Outstanding Receivables are interest-free and the likelihood of recovering the Outstanding Receivables in cash could be limited, the Target Companies Acquisition would offer an easy and reliable opportunity for the Group to recover the Outstanding Receivables on a dollar-for-dollar basis and enhance its cash flow position, we are of the view that the Acquisitions are in the interests of the Company and the Independent Shareholders as a whole.

6. Principal terms of the Parking Spaces Transfer Framework Agreement

Pursuant to the Letter from the Board, the total consideration is expected to be approximately RMB229.37 million and will be settled by cash. The consideration was determined after arm's length negotiations between the parties with reference to:

- (i) the book value of the Target Parking Spaces as at February 28, 2025 of RMB238.07 million;
- (ii) the appraised value of the Target Parking Spaces as at February 28, 2025, with a market value of approximately RMB113.76 million for those with title and an investment value of approximately RMB115.61 million for those without title, based on an independent valuation by the Independent Valuer on Target Parking Spaces as at February 28, 2025. For further information on the valuation of the Target Parking Spaces, please refer to Appendix VI to this circular;
- (iii) the prevailing property market conditions;
- (iv) the expected administrative cost of the Company to realize the acquired assets; and
- (v) the reasons and benefits as particularized in the paragraphs headed "Reasons for and Benefits of the Acquisitions" in the Letter from the Board

For details of the principal terms of the Parking Spaces Transfer Framework Agreement, please refer to the section headed "THE PARKING SPACES TRANSFER FRAMEWORK AGREEMENT" in the Letter from the Board.

In assessing the fairness and reasonableness of the terms of the Parking Spaces Transfer Framework Agreement, we have primarily reviewed the Valuation Reports and conducted interviews with the Independent Valuer in relation to the Valuation Reports, details of our analysis of which are set out below.

LETTER FROM THE INDEPENDENT FINANCIAL ADVISER

6.1 Expertise and experience of the Independent Valuer

In assessing the fairness and reasonableness of the determination of the market values of the Target Parking Spaces as at the Valuation Date (the “**Target Parking Spaces Market Values**”), we have reviewed the Valuation Reports and conducted interviews with the Independent Valuer regarding, among others, their relevant qualifications and experiences, independence and principal bases and assumptions adopted in the Valuation Reports. According to the relevant information provided by the Independent Valuer and our independent research conducted in the public domain, the Independent Valuer, Colliers International Group Inc. (NASDAQ, TSX: CIGI) is a leading global diversified professional services and investment management firm with more than 23,300 professionals, specializing in commercial real estate, engineering project management and investment management. Its valuation and consulting services division comprises of experts in valuation, market research, financial analysis and other areas and has extensive experience in providing valuation consulting services for its clients. In relation to the experiences of the Independent Valuer, we have interviewed with the Independent Valuer and were given to understand that Mr. James Woo is the person-in-charge of the valuation on the Target Parking Spaces (the “**Target Parking Spaces Valuation**”) and the Target Companies Properties (the “**Target Properties Valuation**”). Mr. Woo is the executive director and co-head of the valuation and advisory services division at Colliers International in China responsible for valuation work for real estate, distressed assets, plant & machinery, intangible asset, intellectual property, stocks, financial instruments and business valuation across mainland China. He is a fellow member of the Royal Institution of Chartered Surveyors (RICS registration number: 0837243) and has more than 27 years experiences in valuation and advisory services for properties and assets. The Independent Valuer confirmed that it was an independent third party to the Group, each of the Sellers and their respective connected persons as at the Latest Practicable Date. Upon review of the engagement letter between the Company and the Independent Valuer in respect of the Target Parking Spaces Valuation and Target Properties Valuation, we noted that the scope of work is appropriate to the opinion required to be given, and we are not aware of any limitation on the scope of work which might have an adverse impact on the degree of assurance given by the Independent Valuer in the Valuation Reports. Further, during the course of our review of the Target Parking Spaces Valuation and Target Properties Valuation and the discussions with the Independent Valuer, we were not aware of any material facts that would cause us to cast doubts on the experience and expertise of the Independent Valuer in conducting the Target Parking Spaces Valuation and Target Properties Valuation.

6.2 Valuation methodology

Market comparison approach

According to the Valuation Reports, the Independent Valuer adopted the market comparison approach in the valuation of the Target Parking Spaces with title ship that can be freely traded or without title ship but has a history of usage rights transactions, and where the land transfer fees have been fully paid (the “**Type I Parking Spaces**”). Such approach assumes sales of each Type I Parking Spaces in its existing state with the benefit of vacant possession by making reference to comparable sales transactions as available in the market, subject to appropriate adjustments including but not limited to conditions, location, time and other relevant factors. As advised by the Independent Valuer, having considered that comparable sales transactions for parking spaces are frequent and information about such sales are readily available, it is a normal market practice to conduct the valuation of the Type I Parking Spaces based on the market comparison approach. Based on the information provided by the Independent Valuer, number of Type I Parking Spaces constituted approximately 53.6% of the total number of the Target Parking Spaces.

Income capitalization approach

According to the Valuation Reports, the Independent Valuer adopted the income capitalization approach in the valuation of the Target Parking Spaces lacking complete ownership and where there has been no sale of usage rights, or if there are issues with the payment of land transfer fees or civil defence project (the “**Type II Packing Spaces**”). This approach capitalizes the existing rental income from all leasehold units over the remaining lease term, while vacant units are assumed to be rented at the market rate as of the valuation date. Upon the expiration of existing leases, each unit is assumed to be rented at the market rate on the valuation date and capitalized based on the remaining use term. The market value of the property or property interests thus equal to the sum of the capitalized value of the income from the leased units during their lease term, the appropriately deferred capitalized value of the income from the leased units (i.e., market rental income) and the capitalized value of the vacant units. As advised by the Independent Valuer, taking into consideration (i) the lack of title ship of the Type II Parking Spaces; (ii) there has been no sales of usage rights use of right or if there are issues with the payment of land transfer fees or civil defence project for the Type II Parking Spaces; and (iii) the capability of the Type II Parking Spaces to generate income, it is a normal market practise to adopt the income capitalization approach in valuation of such kind of parking spaces in the PRC. Based on the information provided by the Independent Valuer, number of Type II Parking Spaces constituted approximately 46.4% of the total number of the Target Parking Spaces.

LETTER FROM THE INDEPENDENT FINANCIAL ADVISER

6.3 Key assumptions and valuation bases

Key assumptions

During our review, we noted that the Target Parking Spaces Valuation were conducted based on the key assumptions that, among others, as at the Valuation Date, (i) the target property or property interests exclude an estimated price inflated or deflated by special terms or circumstances such as atypical financing, sale and leaseback arrangement, special considerations or concessions granted by anyone associated with the sale, or any element of value available only to a specific owner or purchaser.; (ii) the property is free from contamination and the ground conditions are satisfactory; (iii) the full and proper ownership title of the property have been obtained, and all payable land premium or land-use rights fees have been fully settled; (iv) the Type II Packing Spaces have been granted for a land use term of 20 years since the Valuation Date.; (v) all required approvals and certificates necessary for occupation and use of the property has been duly obtained and are in full force and effect; (vi) the property can be freely transferred, mortgaged, sublet or otherwise disposed of in the market. and (vii) no allowance has been made in our valuations for any charges, mortgages or amounts owing on the property interests valued nor for any expenses or taxation which may be incurred in effecting a sale. Unless otherwise stated, it is assumed that all properties are free of any encumbrances, restrictions and outgoings of an onerous nature which could affect their values. We have discussed with the Independent Valuer regarding the adoption of the above-mentioned assumptions and were given to understand that these assumptions are in line with the general market practice for valuation based on the market comparison approach.

Valuation bases for the Type I Parking Spaces

As advised by the Independent Valuer, in assessing the market values of the Type I Parking Spaces, the Independent Valuer has adopted market comparison approach by making reference to historical sale and purchase prices of comparable car parking spaces (the “**Type I Parking Spaces Comparables**”). Considering that the Type I Parking Spaces are located at different property developments in various provinces over the PRC, when identifying the corresponding Type I Parking Spaces Comparables, the Independent Valuer has included the criteria of (i) the underlying parking spaces were located in the same development or district to the corresponding Type I Parking Spaces; (ii) the underlying parking spaces were of the same nature as the corresponding Type I Parking Spaces in terms of being either commercial or residential, as the case maybe; (iii) all underlying parking spaces were designated areas for car parking as the corresponding Type I Parking Spaces; and (iv) the relevant transactions which had been completed during the 24 months preceding the Valuation Date and/or the relevant listings which had remained effective as at the Valuation Date. In addition, we noted that when determining the market value of the Type I Parking Spaces, the Independent Valuer has taken into account the adjustment factors (the “**Adjustment Factors**”) including but not limit to amenities, size, building quality for each of the Type I Parking Spaces. Having considered the substantial number of the underlying parking spaces being acquired under the Target Parking Spaces Acquisition, the Independent Valuer has also applied a bulk purchase discount (the “**Bulk Purchase Discount**”) to the historical transaction prices of the Type I Parking Spaces Comparables when appraising the market value of the Type I Parking Spaces. As confirmed by the Independent Valuer, the adoption of the Adjustment Factors and the Bulk Purchase Discount in valuing the Type I Parking Spaces is in line with the industry practice. We have randomly obtained and reviewed 15 Type I Parking Spaces Comparables and note that the historical transaction prices of the Type I Parking Spaces Comparables, after taking into consideration of the Bulk Purchase Discount, are in line with the market values the corresponding Type I Parking Spaces as appraised by the Independent Valuer.

LETTER FROM THE INDEPENDENT FINANCIAL ADVISER

As confirmed by the Independent Valuer, during the course of the valuations on the Type I Parking Spaces, these valuations have been carried out in accordance with the Royal Institution of Chartered Surveyors (RICS) Global Valuation Professional Standards, incorporating the International Valuation Standards of the International Valuation Standards Council (IVSC), and the requirements met out in Chapter 5 and Practice Note 12 of the Listing Rules.

Valuation Bases for the Type II Parking Spaces

Based on our discussion with the Independent Valuer, we understand that the market values of the Type II Parking Spaces as at the Valuation Date was derived based on (i) the estimated future rental income attributable to the Type II Parking Spaces (the “**Rental Income**”) for the period from 31 December 2024 up to and including 31 December 2044 (the “**Forecast Period**”); and (ii) the Rental Income to be discounted at corresponding discount rate (the “**Discount Rate**”), which accounts for the time value of money and reflects the rate of return required by a third-party investor for an investment of similar type, to arrive at their respective present values as at 31 December 2024, being the Valuation Date. The Independent Valuer has confirmed that the above calculation methodology for evaluating the market values of the Type II Parking Spaces is in line with the industry practice.

The Rental Income

As advised by the Independent Valuer, the Rental Income of Type II Parking Spaces is estimated with reference to historical rental transactions of comparable car parking spaces (the “**Type II Parking Spaces Comparables**”). When identifying the Type II Parking Spaces Comparables, the Independent Valuer has included the criteria of (i) the underlying parking spaces were located in vicinity or same district to the corresponding Type II Parking Spaces; (ii) the underlying parking spaces were of the same nature as the corresponding Type II Parking Spaces in terms of being either commercial or residential, as the case maybe; (iii) all underlying parking spaces were designated areas for car parking as the corresponding Type II Parking Spaces; (iv) the relevant transactions which had been completed during the 24 months preceding the Valuation Date and/or the relevant listings which had remained effective as at the Valuation Date; and (iv) assume the Type II Parking Spaces have been granted for a land use term of 20 years since the valuation date. It is noted that the Independent Valuer mainly relied on 58同城 (“**58 Tongcheng**”) (<https://about.58.com/>) and 貝殼找房 (“**Ke.com**”) (<https://m.ke.com>) as the source of information for the Reference Transaction Prices and Reference Rental. According to our independent research, 58 Tongcheng established in 2005 and is a well-established life services platform in China. 58 Tongcheng’s real estate platform offers a comprehensive feature designed to streamline the property search process, provides extensive property listings for sales and leasing of both residential and commercial properties and enables users to filter real estate listings or transactions by location, price, size, and other criteria. Additionally, 58.com offers virtual property tours for remote viewing and provides valuable market insights and trends to help users better understand the real estate market. Meanwhile, Ke.com established in 2017 and is a leading integrated online and offline platform for housing transactions and services in the PRC. With the mission to redefine the real estate industry through technology and innovation, Ke.com provides a comprehensive suite of services, including residential property sales, rentals, home renovation, and financial solutions. In light of the foregoing, we are of the view that the sources of information for the Reference Transaction Prices and Reference Rental are reliable.

LETTER FROM THE INDEPENDENT FINANCIAL ADVISER

The Forecasted Period

According to the Valuation Reports, the Type II Parking Spaces comprise parking spaces lacking complete ownership (the “**Type II-B Parking Spaces**”) and civil air defence parking spaces (the “**Type II-C Parking Spaces**”). We understand from the Independent Valuer that the Forecasted Period of the Type II-B Parking Spaces was derived based on the (i) underground construction land use right of 50 years; minus (ii) the number of dates since the acquisition of the land use right of the property development of which the respective Type II-B Parking Spaces are located. The Independent Valuer advised that having considered the underground construction land use right for parking spaces is generally 50 years in the PRC, they assumed the Type II-B Parking Spaces has been granted a land use term of 50 years from the commencement date of the land use right of the respective property development. For the Type II-C Parking Spaces, we noted that the Forecasted Period is 20 years and is set based on the maximum effective lease term for leasing agreement of 20 years as stipulated under 《中華人民共和國民法典》 (Civil Code of the PRC). We were advised by the Independent Valuer that it is a normal market practice of adopting the above-mentioned assumptions on the Forecasted Period for the valuation of similar parking spaces in the PRC using the income capitalization approach.

The Discount Rates

As advised by the Independent Valuer, the Discount Rates ranged from approximately 4.5% to 5.25% have been adopted for the valuation of the Type II Parking Spaces. In estimating the Discount Rates for each of the Type II Parking Spaces, the Independent Valuer has made reference to the historical transaction prices (the “**Reference Transaction Prices**”) and rentals (the “**Reference Rental**”) of parking spaces of the same nature and in the vicinity to the corresponding Type II Parking Spaces during the 24 months preceding the Valuation Date. It is noted that the Independent Valuer mainly relied on 58 Tongcheng and Ke.com as the source of information for the Reference Transaction Prices and Reference Rental.

The Discount Rates were derived by discounting the Reference Transactions Prices (after applying the Bulk Purchase Discount) with the Reference Rental for 20 years, subject to appropriate adjustments made for factors such as location, grade and size. The Independent Valuer confirmed that it is a normal market practice to derive the Discount Rate for the purpose of valuation of Type II Parking Spaces using the above-mentioned methodology. We have randomly obtained and reviewed 5 samples of calculation of the Discount Rates (the “**Discount Rate Samples**”), and noted that the Discount Rates under the Discount Rate Samples were derived based on the above-mentioned methodology.

As confirmed by the Independent Valuer, during the course of the valuations of the Type II Parking Spaces, these valuations have been carried out in accordance with the Royal Institution of Chartered Surveyors (RICS) Global Valuation Professional Standards, incorporating the International Valuation Standards of the International Valuation Standards Council (IVSC), and the requirements set out in Chapter 5 and Practice Note 12 of the Listing Rules.

Taking into account of the above, we consider that the valuation assumptions and bases adopted by the Independent Valuer in the Target Parking Spaces Valuation are fair and reasonable. Nevertheless, the Independent Shareholders should note that the valuation on the Target Parking Spaces involved certain valuation assumptions and therefore their respective market values may not reflect the exact transaction value of the Target Parking Spaces should they be sold in the market.

LETTER FROM THE INDEPENDENT FINANCIAL ADVISER

6.4 Section conclusion

According to the Valuation Reports, the market value of the Target Packing Spaces as at 31 December 2024 amounted to RMB229.37 million (the “**Target Packing Spaces Market Value**”). Considering that the consideration for the Target Packing Spaces Acquisition was set at the level of the Target Packing Spaces Market Value, we are of the view that the terms of the Parking Spaces Transfer Framework Agreement and the transactions contemplated thereunder are fair and reasonable.

7. Principal terms of the Equity Transfer Agreements

Pursuant to the Letter from the Board, the respective Target Companies Considerations is approximately RMB109.49 million for Target Company A, RMB68.13 million for Target Company B and RMB41.02 million for Target Company C. Such Target Companies Considerations shall be offset against an equal amount of Outstanding Receivables from refundable deposits related to parking space sales agency services on a dollar-for-dollar basis, with older balances being settled first. No separate cash payment will be made by the Group to the Seller Group.

Such final considerations are adjusted as compared with the considerations disclosed in the Letter from the Board based on the relevant audit of the accounts of the Target Companies, as agreed upon by the parties in writing.

Pursuant to the Letter from the Board, the Target Companies Considerations were determined after arm’s length negotiations between the parties with reference to:

- (i) the adjusted gross net asset value¹ of Target Company A, Target Company B and Target Company C as at December 31, 2024, amounted to RMB176.97 million, RMB204.16 million and negative RMB105.53 million, respectively
- (ii) the outstanding payables due to Target Company A from the Seller Group, as recorded in the management accounts of Target Company A as at December 31, 2024, amounted to RMB14.39 million;
- (iii) the outstanding receivables due from Target Company B and Target Company C to the Seller Group, as recorded in their respective management accounts as at December 31, 2024, amounted to RMB27.29 million and RMB61.07 million, respectively;
- (iv) the expected administrative cost of the Group to realize the acquired assets; and
- (v) the reasons and benefits as particularized in the paragraphs headed “Reasons for and Benefits of the Acquisitions” in the Letter from the Board.

¹ The adjusted gross net asset value is calculated based on the net asset value of the Target Companies as at December 31, 2024 in the respective accountants’ report plus the market value minus the carrying amounts of properties of the respective Target Companies as at February 28, 2025. The carrying amounts of the relevant properties for Target Company A, Target Company B and Target Company C as at February 28, 2025 were approximately RMB228.0 million, RMB718.3 million and RMB204.0 million, respectively, whereas their market value were approximately RMB253.2 million, RMB852.2 million and RMB204.0 million, respectively, based on an independent valuation by the Independent Valuer as at February 28, 2025. For further information on the valuation of the relevant property interests, please refer to Appendix VI to the Circular.

LETTER FROM THE INDEPENDENT FINANCIAL ADVISER

In particular, the consideration was arrived taking into account of the following:

Target Company A

The adjusted gross net asset value of Target Company A as at December 31, 2024 was RMB176.97 million. With a 70% equity interest being acquired, this amounts to RMB123.88 million. After deducting RMB14.39 million in payables owed to Target Company A by the Seller Group, the obligations of which will be transferred to and assumed by Nanjing Hong Life in their entirety upon completion of the Equity Transfer, the net consideration for the 70% equity interest in Target Company A shall be RMB109.49 million.

Target Company B

The adjusted gross net asset value of Target Company B as at December 31, 2024 was RMB204.16 million. With a 20% equity interest being acquired, this amounts to RMB40.83 million. Adding RMB27.29 million in receivables owed to the Seller Group by Target Company B, the rights to which will be transferred to and acquired by Nanjing Hong Life in their entirety upon completion of the Equity Transfer, the net consideration for the 20% equity interest in Target Company B is RMB68.13 million.

Target Company C

The adjusted gross net asset value of Target Company C as at December 31, 2024 was negative RMB105.53 million. With a 19% equity interest being acquired, this amounts to negative RMB20.05 million. Adding RMB61.07 million in receivables owed to the Seller Group by Target Company C, the rights to which will be transferred to and acquired by Nanjing Hong Life in their entirety upon completion of the Equity Transfer, the net consideration for the 19% equity interest in Target Company C is RMB41.02 million.

For details of the principal terms of the Equity Transfer Agreement, please refer to the section headed “THE EQUITY TRANSFER AGREEMENTS” in the Letter from the Board.

In assessing the fairness and reasonableness of the terms of Equity Transfer Agreements, we have primarily reviewed the Valuation Reports, conducted interviews with the Independent Valuer in relation to the Valuation Reports and assessed the basis and calculation of the Target Companies Considerations, details of our analysis of which are set out below.

7.1 Expertise and experience of the Independent Valuer

For details of the expertise and experience of and our relevant due diligence work and analysis on the Independent Valuer, please refer to the sub-section headed “6.1 Expertise and experience of the Independent Valuer” above of this letter.

LETTER FROM THE INDEPENDENT FINANCIAL ADVISER

7.2 Valuation methodology

According to the Valuation Reports, the Independent Valuer adopted the market comparison approach in the valuation of the Target Company A Project, the completed properties of the Target Company B Project (together “**Completed Properties**”) and the Land (collectively “**Type I Properties**”), for details of the Land, please refer to the above section headed “Information of the Target Companies – Target Company C”. The market comparison approach provides an indication of value by comparing the subject asset with identical or similar assets for which price information is available. By analyzing such sales, which qualify as ‘arms-length’ transactions, between willing buyers and sellers, adjustments are made for size, location, time, amenities and other relevant factors when comparing such sales prices to assess the value of the subject asset. As advised by the Independent Valuer, having considered the availability of reliable sales evidence of similar nature to the Type I Properties, it is a normal market practice to conduct valuation of the Type I Properties based on the market comparison approach.

Meanwhile, in appraising the market values of the properties under development of the Target Company B Project (the “**Type II Properties**”), the Independent Valuer have adopted the market comparison approach by making reference to comparable sales transactions as available in the market and also taken into account the costs that will be expended to complete the developments. As advised by the Independent Valuer, it is a normal market practice to conduct valuation of property under development in the PRC based on the market comparison approach with the above-mentioned cost adjustments. In respect of other valuation approaches such as the income capitalization approach, as advised by the Independent Valuer, given the parameters required under the income capitalization approach including but not limited to the future selling prices of residential and commercial units and discount rate may not be easily verified or reasonably justified for property under construction, income capitalization approach is considered to be inappropriate for the purpose of the valuations of the Type II Properties. Also, given there is lack of sufficient market data for property under development projects which is comparable to the Type II Properties, market comparison approach without the above-mentioned cost adjustments are also considered to be inappropriate. Furthermore, cost approach is considered to be inappropriate as it estimates the value of a property by calculating the cost of reproducing or replacing it, whereas it is less effective to capture the income-generating potential of the Type II Property which contributes significantly to its overall market value.

Furthermore, the Independent Valuer adopted the income capitalization approach in the valuation of parking spaces held by the Target Company A, which lack complete ownership and where there has been no sale of usage rights, or if there are issues with the payment of land transfer fees or civil defence project (the “**Type III Properties**”). As advised by the Independent Valuer, the income capitalization approach adopted for the Type III Properties and for the Type II Packing Spaces are the same. Please refer to the above section headed “6.2 Valuation methodology – Income capitalization approach” for details of the valuation methodology of the income capitalization approach.

LETTER FROM THE INDEPENDENT FINANCIAL ADVISER

7.3 Key assumptions and Valuation bases

Key assumptions

During our review on the Valuation Reports, we noted that the valuations of the Type I Properties, the Type II Properties and the Type III Properties as at the Valuation Date were conducted based on the key assumptions that, among others, (i) the target property or property interests exclude an estimated price inflated or deflated by special terms or circumstances such as atypical financing, sale and leaseback arrangement, special considerations or concessions granted by anyone associated with the sale, or any element of value available only to a specific owner or purchaser.; (ii) the properties are free from contamination and the ground conditions are satisfactory; (iii) the full and proper ownership title of the properties have been obtained, and all payable land premium or land-use rights fees have been fully settled; (iv) all required approvals and certificates necessary for the development and occupation and use of the properties have been duly obtained and are in full force and effect; (v) the properties can be freely transferred, mortgaged, sublet or otherwise disposed of in the market; (vi) no allowances have been made in our valuations for any charges, mortgages or amounts owing on the properties nor any expenses or taxation which may be incurred in effecting a sale; and (vii) the property or property interests are free from encumbrances, restrictions and outgoings of any onerous nature which could affect their values. We have discussed with the Independent Valuer regarding the adoption of the above-mentioned assumptions and were given to understand that those assumptions are in line with the general market practice for valuation based on the market comparison approach.

Valuation bases for the Type I Properties

As advised by the Independent Valuers, in assessing the market comparison values of the Completed Properties, the Independent Valuer has adopted market comparison approach by making reference to historical sale and purchase prices of comparable properties of the similar nature and in the same property development or in vicinity to the corresponding Completed Properties during the 24 months preceding the Valuation Date (the “**Completed Properties Comparables**”). Given the Completed Properties comprises residential units, commercial units and parking spaces, we have randomly obtained and reviewed 12, 3, 5 Completed Properties Comparables for residential units, commercial units and parking spaces respectively. We noted that the historical transaction prices of the Completed Properties Comparables are in line with the market values of the corresponding residential unit, commercial units and parking spaces of the Completed Properties. Meanwhile, when assessing the market value of the Land, the Independent Valuer has made reference to historical sale and purchase prices of the comparable land transactions located in vicinity to the Land during 24 months preceding the Valuation Date (the “**Comparables Lands**”). We were further advised that the Independent Valuer has relied on the transaction information from the CREIS 中指數據庫 (<https://www.cih-index.com/product/zhdatabase>) published by China Index Holdings Ltd (“**CIHL**”) as the sources of information for the Comparables Lands. Based on our independent research, CIHL (NASDAQ: CIH) was established in 2007 and is committed to empower the PRC real estate market with big data and innovative technologies. It has around 1,000 data research and development and professional analysts, and has branches in over 30 major cities in the PRC. Whilst, CREIS 中指數據庫 is a professional database on real estate industry and transaction with substantial amount of first-hand market data and has been designated by the National Development and Reform Commission and the National Bureau of Statistics as a reliable source of market data. CREIS 中指數據庫 contains, among others, transaction data and information on more than 2.2 million pieces of land, 400,000 residential projects and 50,000 commercial properties in over 2,000 cities in the PRC. In light of the foregoing, we are of the view that the sources of information on the Comparable Lands are reliable.

LETTER FROM THE INDEPENDENT FINANCIAL ADVISER

Valuation bases for the Type II Properties

As advised by the Independent Valuer, the market value of the Type II Properties was assessed by (i) estimating the gross development value of the Type II Properties (the “**Gross Development Value**”); (ii) deducting the outstanding development costs of the Type II Properties (the “**Outstanding Development Costs**”); (iii) adjusting with the potential profit margins of the Type II Properties (the “**Potential Profit Margins**”); and (iv) discount by a discount rate (the “**Discount Rate II**”) to arrive at the present value as at the Valuation Date, of the Type II Properties.

The Gross Development Value

According to the Valuation Reports, the Gross Development Value is being assessed based on market comparison approach by making reference to sales price of comparable properties located in the same district with similar condition, size and tenure, etc and during the 24 months preceding the Valuation Date (the “**Type II Properties Comparables**”). As advised by the Independent Valuer, they have relied on (i) the historical transaction prices of property units sold in the previous development phases of the Type II Properties; and (ii) 58 Tongcheng, as the source of information for the Type II Properties Comparables. We have randomly obtained from the Company and reviewed 9 historical sales and purchase agreements for residential units and 1 historical sales and purchase agreement for commercial unit of the previous development phases of the Type II Properties (the “**Type II Properties Comparable**”). We noted that the historical transaction prices under the Type II Properties Comparable are in line with the corresponding estimated gross development values of the respective property units of the Type II Properties, which form part of the Gross Development Value. For our assessment on the reliability of 58 Tongcheng as the source of information, please refer to the above section headed “5.3 Key assumptions and valuation bases – Valuation bases for the Type I Parking Spaces” for details.

The Outstanding Development Costs

It is noted that the Outstanding Development Cost is computed through subtracting the total budget construction cost (the “**Total Budget Construction Cost**”) by the paid-up construction cost (the “**Pain-Up Construction Cost**”) of the Type II Properties.

The Potential Profit Margins

According to the Independent Valuer, the Potential Profit Margins is derived based on (i) the industry average profit margin level of projects under development of similar nature to the Type II Properties (the “**Average Profit Margin Level**”) pursuant to the market information available to the Independent Valuer; (ii) adjustment on percentage of completion of the Type II Properties, which is calculated by dividing the Total Budget Construction Cost by the Paid-Up Construction Cost; and (iii) appropriate adjustments made for factors such as location, size, grade and other relevant factors to the Type II Properties. The Independent Valuer confirmed that (i) the Average Profit Margin Level being adopted for the valuation of the Type II Properties is in line with market level of average profit margin for valuation of similar properties under construction projects; and (iii) it is a normal market practice to adopted the above-mentioned adjustments.

LETTER FROM THE INDEPENDENT FINANCIAL ADVISER

The Discount Rate II

Based on the information provided by the Independent Valuer, the Discount Rate II of approximately 3.1% was being adopted for the valuation of the Type II Properties, which accounts for the time value of money and reflects the rate of return required by a third-party investor for an investment of similar type. We were given the understanding that, having considered that the Type II Properties are expected to be completed by the year end of 2025, the Discount Rate II was set by reference to the one-year loan prime rate published by the People's Bank of China on 20 December 2024.

Valuation bases for the Type III Properties

As advised by the Independent Valuer, the market values of the Type III Properties as at the Valuation Date was derived based on (i) the estimated future rental income attributable to the Type III Properties (the “**Properties Rental Income**”) for the Forecast Period; and (ii) the Properties Rental Income to be discounted at the corresponding Discount Rate.

The Properties Rental Income

We understand from the Independent Valuer that, in assessing the Properties Rental Income, the Independent Valuer has made reference to historical rental transactions of comparable car parking spaces (the “**Type III Properties Comparables**”). When identifying the Type III Properties Comparables, the Independent Valuer has adopted the same selection criteria as the Type II Parking Spaces Comparables and relied on 58 Tongcheng and Ke.com as the source of information. For details of the selection criteria and reliability of 58 Tongcheng and Ke.com as the source of information, which please refer to the above section headed “6.3 Key assumptions and valuation bases – The Rental Income”.

The Forecasted Period

Please refer to the above section headed “6.3 Key assumptions and valuation bases – The Forecasted Period” for basis and details of the Forecasted Period.

The Discount Rate

As advised by the Independent Valuer, the Discount Rates of approximately 5.25% has been adopted for the valuation of the Type III Properties. For the estimation of, sources of information for and our independent assessments on the Discount Rate, please refer to the above section headed “6.3 Key assumptions and valuation bases – The Discount Rate” for details.

As confirmed by the Independent Valuer, the Target Properties Valuation has been carried out in accordance with the Royal Institution of Chartered Surveyors (RICS) Global Valuation Professional Standards, incorporating the International Valuation Standards of the International Valuation Standards Council (IVSC), and the requirements met out in Chapter 5 and Practice Note 12 of the Listing Rules. During our review of the Valuation Reports and discussions with the Independent Valuer, we have not identified any major factors that cause us to doubt the fairness and reasonableness of the principal bases and assumptions adopted in arriving at the Target Properties Valuation.

LETTER FROM THE INDEPENDENT FINANCIAL ADVISER

Taking into account of the above, we consider that the valuation assumptions and bases adopted by the Independent Valuer in the Target Properties Valuations are fair and reasonable. Nevertheless, the Independent Shareholders should note that the Target Properties Valuation involved certain valuation assumptions and therefore their respective market values may not reflect the exact transaction value of the Target Companies Properties should they be sold in the market.

7.4 The Target Companies Consideration

We have discussed with the Management and assessed the components of each of the Target Companies Considerations. It is noted the Target Companies Considerations are determined based on the adjusted proportionate NAVs of each of the Target Companies as at 31 December 2024 (the “Adjusted Proportionate NAVs”) minus the Outstanding Amounts. The Adjusted Proportionate NAVs are calculated based on the NAVs of the Target Companies as at 31 December 2024 (the “Target Companies NAVs”) and adjusted for (i) the market values of the Properties Market Values as set out in the Valuation Reports; and (ii) the Corresponding Equity Interests. Set out below is the calculation of the Target Companies Considerations.

Table 3: Calculation of the Target Companies Considerations

	Target Company A <i>RMB million</i>	Target Company B <i>RMB million</i>	Target Company C <i>RMB million</i>
The Target Companies NAVs	151.7	70.2	-105.5
Less: The Properties Carrying Amounts	228.0	718.3	204.0
Add: The Properties Market Values	253.2	852.2	204.0
Adjusted gross NAVs	176.9	204.1	-105.5
The Corresponding Equity Interests	70%	20%	19%
The Adjusted Proportionate NAVs	123.9	40.8	-20.1
Less: The Outstanding Amounts Target Companies	14.4	-27.3	-61.1
Considerations	109.5	68.1	41.0

For our independent due diligence purpose, we have reviewed the Target Companies Financial Statements and, together with the Valuation Reports, have checked against the respective Target Companies NAVs, Properties Carrying Amounts and Outstanding Amounts and recomputed the calculation of the Target Companies Considerations. Given that the Target Companies Considerations are determined based on the Adjusted Proportionate NAVs, which reflect the Properties Market Value, the Corresponding Equity Interests and the Outstanding Amounts, and shall be offset against an equal amount of the Outstanding Receivables on a dollar-for-dollar basis, we are of the view that the basis for determining the Target Companies Considerations is fair and reasonable.

LETTER FROM THE INDEPENDENT FINANCIAL ADVISER

7.5 Section conclusion

Having considered the valuation methodologies of the valuations on the Target Companies Properties, together with the assumptions and bases adopted therein, and the basis for the Target Companies Considerations, we are of the view that the terms of the Equity Transfer Agreements are on normal commercial terms, are fair and reasonable and in the interest of the Company and the Independent Shareholders as a whole.

8. Financial effects of the Acquisitions

When assessing the financial impacts of the Acquisitions, we have primarily taken into account the following aspects:

Upon completion of the Equity Transfer, Nanjing Hong Life will be interested in 70% of equity interest in Target Company A. Therefore, Target Company A will become an indirect non-wholly-owned subsidiary of the Company and its financial results will be consolidated into the Company's consolidated financial statements. Target Company B and Target Company C will be accounted for as an associate and a joint venture of the Company, respectively. Therefore, their financial results will not be consolidated into the Company's consolidated financial statement but both will be accounted for under the equity method.

The Earnings

As disclosed in the Letter from the Board, following completion of the Acquisitions, no gain or loss will be recorded. According to the unaudited pro forma financial information of the enlarged Group as set out in the Appendix III to the Circular (the "**Pro Forma Information**"), assuming the Acquisitions had been completed on 31 December 2024, the profit of the Company for FY2024 would represent a decrease of approximately RMB16.76 million. Based on our discussion with the Management, we understand that such decrease in the pro forma profit attributable to the equity shareholders of the Company was mainly caused by, among other things, the one-off impairment losses recorded by Target Company B and Target Company C. In light of the above and having considered that (i) the Target Companies Acquisition enables the Group to broaden and further diversify its revenue stream, and is in line with the Group's long-term revenue diversification strategy, as discussed in the section headed "5.2 Acquisition of the Target Companies"; and (ii) the demand for parking spaces in the PRC will generally remain positive in the future as analysed in the above section headed "The PRC Automobile and Parking Space Industry" in this letter, such decrease in the pro forma profit attributable to the equity shareholders of the Company for FY2024 is acceptable.

Assets and Liabilities

Assuming the Acquisitions had been completed on December 31, 2024, the assets and the liabilities as at December 31, 2024 would represent an increase of approximately RMB511.01 million and approximately RMB466.60 million, respectively. As a result, the NAV of the enlarged Group as at December 31, 2024 would increase by approximately RMB44.40 million to approximately RMB953.48 million.

Shareholders should note that the above analyses are for illustrative purpose only and do not purport to represent the financial position of the Group upon the Acquisitions.

2. STATEMENT OF INDEBTEDNESS

As at the close of business on February 28, 2025, being the latest practicable date for the purpose of preparing this statement of indebtedness prior to the date of this circular, the indebtedness of the Group was as follows:

(i) Borrowings

As at February 28, 2025, the Group had outstanding secured bank borrowings of approximately RMB27,603,000 which is secured by mortgages over 80% equity of Wuhan Huidehang Jingying Property Management Co., Ltd. and guaranteed by Nanjing Hong Yang Property Management.

(ii) Lease liabilities

As at February 28, 2025, the Group did not have any lease liabilities.

(iii) Contingent liabilities

As at February 28, 2025, the Group did not have any contingent liabilities.

(iv) Pledge of assets

As at February 28, 2025, the Group did not have any pledge of assets.

Save as aforesaid and apart from intra-group liabilities and normal trade, bills and other payables in the ordinary course of business of the Group, at the close of business on February 28, 2025, the Group had no other outstanding mortgages, charges, debentures or other loan capital or bank overdrafts or loans or other similar indebtedness, finance lease or hire purchase commitments, liabilities under acceptance or acceptance credits, debt securities, guarantees or other material contingent liabilities.

The Directors confirmed that there is no material change in the indebtedness and contingent liabilities of the Group since February 28, 2025 up to the Latest Practicable Date.

3. WORKING CAPITAL SUFFICIENCY OF THE ENLARGED GROUP

The Directors are of the opinion that, after due and careful enquiry, taking into account (i) the anticipated cash flows to be generated from the Enlarged Group's operations as well as the effect of Acquisition, (ii) the present internal financial resources to the Enlarged Group, and (iii) the banking facilities presently available, the Enlarged Group will have sufficient working capital to satisfy its requirements for at least the next twelve months following the date of this circular. The Company has obtained the relevant letter as required under Rule 14.66(12) of the Listing Rules.

4. MATERIAL ADVERSE CHANGE

As at the Latest Practicable Date, the Directors confirmed that there was no material adverse change in the financial or trading position of the Group since December 31, 2024, being the date to which the latest published audited financial statements of the Group were made up.

5. FINANCIAL AND TRADING PROSPECTS OF THE ENLARGED GROUP

Following the completion of the Acquisitions, the Group will actively implement various strategies to unlock the value of the Target Parking Spaces, including sales and leasing, to enhance asset liquidity. Target Company A and Target Company B will primarily generate profitability through property sales and inventory reduction, thereby distributing profits. Target Company C will realize returns mainly through equity sales.

The Acquisitions will not impact the Group's core business operations nor reduce its investment in core activities. From an industry-wide perspective, the property management sector is expected to continue expanding in scale in 2024, maintaining steady growth. However, due to ongoing pressure in the upstream real estate market, competition in the existing property management market is intensifying, and the sector's overall growth rate is projected to be lower than the actual GDP growth rate. Against this backdrop, property management companies are placing greater emphasis on balancing business scale and profitability while optimizing the structure of their managed project portfolios to enhance operational efficiency.

In terms of strategic expansion, in 2024, the Group will continue to reinforce its core strategy of "Deepening Presence in Jiangsu", further increasing its investment in the province. With Nanjing as the central hub, the Group will extend its reach to multiple cities, including Suzhou, Wuxi, Changzhou, Xuzhou, Zhenjiang, Taizhou, and Yangzhou. Concurrently, the Group will implement a regional expansion strategy under the theme of "Strengthening Core Cities", designating Nanjing, Shanghai, Suzhou, Wuxi, Changzhou, Nantong, Xuzhou, Hefei, Wuhan, and Chengdu as key development hubs. While deepening its presence in the Yangtze River Delta region, the Group will also explore new growth opportunities in economically strong second-tier cities in central and western China.

Looking ahead to 2025, the Group remains committed to its mission of "Enhancing Quality of Life with Warmth", actively listening to customer needs, adapting to evolving market conditions, and making timely adjustments to its development strategies. The Group will conduct a thorough evaluation of key performance indicators from previous strategic initiatives, refine its business direction with precision, and continue to deliver high-quality, stable, and customer-centric services. Simultaneously, the Group will further expand into new business avenues, strengthen its competitive advantages, and achieve a well-balanced synergy between business expansion and existing operations. Through a well-structured system and institutional framework, the Group aims to ensure the sustainable and high-quality growth of its business scale and profitability.

APPENDIX II FINANCIAL INFORMATION OF THE TARGET COMPANIES

NOTES TO THE HISTORICAL FINANCIAL INFORMATION

1. GENERAL

Chengdu Hong Sheng He Ding Real Estate Development Co., Ltd. (“成都弘勝和鼎房地產開發有限公司”) is a limited liability company incorporated in the People’s Republic of China (the “PRC”) in 2020. In the opinion of the directors of the Target Company (the “Directors”), the ultimate holding company and intermediate holding company of the Target Company are Hong Yang International Limited and Redun Properties Group Limited, which are incorporated in British Virgin Islands and Cayman Islands, respectively. The intermediate holding company is listed on the Main Board of The Stock Exchange of Hong Kong Limited. The address of its registered office and principal place of business is 四川省成都市彭州市天彭街道蟠龍西路38號1棟2單元1樓106號. The Target Company is principally engaged in property development in the PRC.

The Historical Financial Information is presented in RMB, which is also the functional currency of the Target Company.

Statutory financial statements of Target Company for each of the three years ended 31 December 2024 have not been audited.

Basis of preparation of Historical Financial Information

The Historical Financial Information has been prepared in accordance with IFRS Accounting Standards which comprise all IFRS Accounting Standards, International Accounting Standards (“IASs”) and Interpretations issued by the IASB. All IFRS Accounting Standards effective for the accounting period commencing from 1 January 2024, together with the relevant transitional provisions, have been early adopted by the Target Company in the preparation of the Historical Financial Information throughout the Relevant Periods. In addition, the Historical Financial Information includes applicable disclosures required by the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited and by the Hong Kong Companies Ordinance.

The Historical Financial Information has been prepared under the historical cost convention.

Going concern

As at 31 December 2024, the Target Company had net current liabilities of approximately RMB83,542,000 after excluding the completed properties held for sale of approximately RMB227,969,000. The Historical Financial Information have been prepared on a going concern basis, as subsequent to the end of the reporting period, the fellow subsidiaries have agreed not to demand for any repayment of amounts due to fellow subsidiaries of approximately RMB84,897,000 as at 31 December 2024, for at least the next twelve months, until the Target Company is in a financial position to do so.

The Directors consider that the Target Company will have sufficient working capital to finance its operations in the foreseeable future and accordingly are satisfied that it is appropriate to prepare the Historical Financial Information on a going concern basis.

2. NEW AND AMENDMENTS TO IFRS ACCOUNTING STANDARD IN ISSUE BUT NOT YET EFFECTIVE

The Target Company has not early applied the following new and amendments to IFRS Accounting Standards that have been issued but are not yet effective:

IFRS 18	Presentation and Disclosure in Financial Statements ³
IFRS 19	Subsidiaries without Public Accountability: Disclosures ³

APPENDIX II FINANCIAL INFORMATION OF THE TARGET COMPANIES

IFRS 18 Presentation and Disclosure in Financial Statements

IFRS 18 Presentation and Disclosure in Financial Statements, which sets out requirements on presentation and disclosures in financial statements, will replace IAS 1 Presentation of Financial Statements. This new IFRS Accounting Standard, while carrying forward many of the requirements in IAS 1, introduces new requirements to present specified categories and defined subtotals in the statement of profit or loss; provide disclosures on management-defined performance measures in the notes to the financial statements and improve aggregation and disaggregation of information to be disclosed in the financial statements. In addition, some IAS 1 paragraphs have been moved to IAS 8 and IFRS 7. Minor amendments to IAS 7 Statement of Cash Flows and IAS 33 Earnings per Share are also made.

IFRS 18, and amendments to other standards, will be effective for annual periods beginning on or after 1 January 2027, with early application permitted. The Directors are in the process of assessing the detailed impact of IFRS 18 on the Historical Financial Information of the Target Company.

The Directors anticipate that the application of all other new and amendments to IFRS Accounting Standards will have no material impact on the Historical Financial Information of the Target Company in the foreseeable future.

3. MATERIAL ACCOUNTING POLICY INFORMATION

Historical cost is generally based on the fair value of the consideration given in exchange for services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date regardless of whether that price is directly observable or estimated using another valuation technique.

The material accounting policies are set out below.

Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either in the principal market for the asset or liability, or in the absence of a principal market, in the most advantageous market for the asset or liability. The principal or the most advantageous market must be accessible by the Target Company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Target Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 – based on quoted prices (unadjusted) in active markets for identical assets or liabilities

Level 2 – based on valuation techniques for which the lowest level input that is significant to the fair value measurement is observable, either directly or indirectly

Level 3 – based on valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Target Company determines whether transfers have occurred between levels in the hierarchy by reassessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Impairment of non-financial assets

Where an indication of impairment exists, or when annual impairment testing for an asset is required (other than properties under development, completed properties held for sale, deferred tax assets, and financial assets), the asset's recoverable amount is estimated. An asset's recoverable amount is the higher of the asset's or cash-generating unit's value in use and its fair value less costs of disposal, and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets, in which case the recoverable amount is determined for the cash-generating unit to which the asset belongs.

An impairment loss is recognised only if the carrying amount of an asset exceeds its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. An impairment loss is charged to the statement of profit or loss in the period in which it arises in those expense categories consistent with the function of the impaired asset.

An assessment is made at the end of each reporting period as to whether there is an indication that previously recognised impairment losses may no longer exist or may have decreased. If such an indication exists, the recoverable amount is estimated. A previously recognised impairment loss of an asset other than goodwill is reversed only if there has been a change in the estimates used to determine the recoverable amount of that asset, but not to an amount higher than the carrying amount that would have been determined (net of any depreciation/amortisation) had no impairment loss been recognised for the asset in prior years. A reversal of such an impairment loss is credited to the statement of profit or loss in the period in which it arises.

Related parties

A party is considered to be related to the Target Company if:

- (a) the party is a person or a close member of that person's family and that person
 - (i) has control or joint control over the Target Company;
 - (ii) has significant influence over the Target Company; or
 - (iii) is a member of the key management personnel of the Target Company or of a parent of the Target Company;

or

- (b) the party is an entity where any of the following conditions applies:
 - (i) the entity and the Target Company are members of the same group;
 - (ii) one entity is an associate or joint venture of the other entity (or of a parent, subsidiary or fellow subsidiary of the other entity);
 - (iii) the entity and the Target Company are joint ventures of the same third party;
 - (iv) one entity is a joint venture of a third entity and the other entity is an associate of the third entity;
 - (v) the entity is a post-employment benefit plan for the benefit of employees of either the Target Company or an entity related to the Target Company;
 - (vi) the entity is controlled or jointly controlled by a person identified in (a);
 - (vii) a person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity); and
 - (viii) the entity, or any member of a group of which it is a part, provides key management personnel services to the Target Company or to the parent of the Target Company.

APPENDIX II FINANCIAL INFORMATION OF THE TARGET COMPANIES

Properties under development

Properties under development are intended to be held for sale after completion.

Properties under development are stated at the lower of cost comprising land costs, construction costs, borrowing costs, professional fees and other costs directly attributable to such properties incurred during the development period and net realisable value. Net realisable value represents the estimated selling price for the properties less estimated cost to completion and costs necessary to make the sales. Costs necessary to make the sale include incremental costs directly attributable to the sale and non-incremental costs which the Group must incur to make the sale.

Properties under development are classified as current assets unless those will not be realised in the normal operating cycle. On completion, the properties are transferred to completed properties held for sale.

Completed properties held for sale

Completed properties held for sale are stated in the statement of financial position at the lower of cost and net realisable value. Cost is determined by an apportionment of the total costs of land and buildings attributable to the unsold properties. Net realisable value takes into account the price ultimately expected to be realised, less estimated costs to be incurred in selling the properties.

Leases

The Target Company assesses at contract inception whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Target Company as a lessee

The Target Company applies a single recognition and measurement approach for all lease. The Target Company recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

At inception or on reassessment of a contract that contains a lease component and non-lease component(s), the Target Company adopts the practical expedient not to separate non-lease component(s) and to account for the lease component and the associated non-lease component(s) (e.g., property management services for leases of properties) as a single lease component.

(a) *Right-of-use assets*

Right-of-use assets are recognised at the commencement date of the lease (that is the date the underlying asset is available for use). Right-of-use assets are measured at cost, less accumulated depreciation and any impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Where applicable, the cost of a right-of-use asset also includes an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease terms and the estimated useful lives of the assets as follows:

Office buildings	2-3 years
------------------	-----------

If ownership of the leased asset transfers to the Target Company by the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

When the right-of-use assets relate to interests in leasehold land held as inventories, they are subsequently measured at the lower of cost and net realisable value in accordance with the Target Company's policy for "properties under development" or "completed properties held for sale".

(b) Lease liabilities

Lease liabilities are recognised at the commencement date of the lease at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Target Company and payments of penalties for termination of a lease, if the lease term reflects the Target Company exercising the option to terminate the lease. The variable lease payments that do not depend on an index or a rate are recognised as an expense in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Target Company uses its incremental borrowing rate (“**IBR**”) at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in lease payments (e.g., a change to future lease payments resulting from a change in an index or rate) or a change in assessment of an option to purchase the underlying asset.

Financial assets

Initial recognition and measurement

Financial assets are recognised in the statement of financial position when an entity becomes a party to the contractual provisions of the instrument.

The classification of financial assets at initial recognition depends on the financial asset’s contractual cash flow characteristics and the Target Company’s business model for managing them. The Target Company initially measures a financial asset at its fair value plus in the case of a financial asset not at fair value through profit or loss, transaction costs.

In order for a financial asset to be classified and measured at amortised cost, it needs to give rise to cash flows that are solely payments of principal and interest (“**SPPI**”) on the principal amount outstanding.

The Target Company’s business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both. Financial assets classified and measured at amortised cost are held within a business model with the objective to hold financial assets in order to collect contractual cash flows.

Purchases or sales of financial assets that require delivery of assets within the period generally established by regulation or convention in the marketplace are recognised on the trade date, that is, the date that the Target Company commits to purchase or sell the asset.

Subsequent measurement

The subsequent measurement of financial assets depends on their classification as follows:

Financial assets at amortised cost (debt instruments)

Financial assets at amortised cost are subsequently measured using the effective interest method and are subject to impairment. Gains and losses are recognised in the statement of profit or loss when the asset is derecognised, modified or impaired.

Derecognition of financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e., removed from the Target Company’s statement of financial position) when:

- the rights to receive cash flows from the asset have expired; or

APPENDIX II FINANCIAL INFORMATION OF THE TARGET COMPANIES

- the Target Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a “pass-through” arrangement; and either (a) the Target Company has transferred substantially all the risks and rewards of the asset, or (b) the Target Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Target Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if, and to what extent, it has retained the risk and rewards of ownership of the asset. When it has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the Target Company continues to recognise the transferred asset to the extent of the Target Company’s continuing involvement. In that case, the Target Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Target Company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Target Company could be required to repay.

Impairment of financial assets

The Target Company recognises an allowance for expected credit losses (“ECLs”) for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Target Company expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

General approach

ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12 months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

At the end of each of the Relevant Period, the Target Company assesses whether the credit risk on a financial instrument has increased significantly since initial recognition. When making the assessment, the Target Company compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition and considers reasonable and supportable information that is available without undue cost or effort, including historical and forward-looking information.

In certain cases, the Target Company may also consider a financial asset to be in default when internal or external information indicates that the Target Company is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Target Company. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

Financial assets at amortised cost are subject to impairment under the general approach and they are classified within the following stages for measurement of ECLs except for trade receivables which apply the simplified approach as detailed below.

- Stage 1 – Financial instruments for which credit risk has not increased significantly since initial recognition and for which the loss allowance is measured at an amount equal to 12-month ECLs
- Stage 2 – Financial instruments for which credit risk has increased significantly since initial recognition but that are not credit-impaired financial assets and for which the loss allowance is measured at an amount equal to lifetime ECLs
- Stage 3 – Financial assets that are credit-impaired at the reporting date (but that are not purchased or originated credit-impaired) and for which the loss allowance is measured at an amount equal to lifetime ECLs

APPENDIX II FINANCIAL INFORMATION OF THE TARGET COMPANIES

Simplified approach

Under the simplified approach, the Target Company does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at end of each of the Relevant Period. The Target Company has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

Financial liabilities

Initial recognition and measurement

All financial liabilities are recognised initially at fair value and, in the case of trade and bills payables and other payables and accruals, net of directly attributable transaction costs (if any).

The Target Company's financial liabilities include trade and bills payables, other payables and accruals, and amounts due to fellow subsidiaries and related companies.

Subsequent measurement

The subsequent measurement of financial liabilities depends on their classification as follows:

Financial liabilities at amortised cost

After initial recognition, trade and bills payables, other payables and accruals, and amounts due to fellow subsidiaries and related companies are subsequently measured at amortised cost, using the effective interest rate method unless the effect of discounting would be immaterial, in which case they are stated at cost. Gains and losses are recognised in the statement of profit or loss when the liabilities are derecognised as well as through the effective interest rate amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the effective interest rate. The effective interest rate amortisation is included in finance costs in the statement of profit or loss.

Derecognition of financial liabilities

A financial liability is derecognised when the obligation under the liability is discharged or cancelled, or expires.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and a recognition of a new liability, and the difference between the respective carrying amounts is recognised in the statement of profit or loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the statement of financial position if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

Cash and cash equivalents

Cash and cash equivalents in the statement of financial position comprise cash on hand and at banks, and short-term highly liquid deposits with a maturity of generally within three months that are readily convertible into known amounts of cash, subject to an insignificant risk of changes in value and held for the purpose of meeting short-term cash commitments.

For the purpose of the statement of cash flows, cash and cash equivalents comprise cash on hand and at banks, and short-term deposits as defined above, less bank overdrafts which are repayable on demand and form an integral part of the Target Company's cash management.

Provisions

A provision is recognised when a present obligation (legal or constructive) has arisen as a result of a past event and it is probable that a future outflow of resources will be required to settle the obligation, provided that a reliable estimate can be made of the amount of the obligation.

APPENDIX II FINANCIAL INFORMATION OF THE TARGET COMPANIES

When the Target Company expects some or all of a provision to be reimbursed, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of profit or loss net of any reimbursement.

When the effect of discounting is material, the amount recognised for a provision is the present value at the end of each of the Relevant Period of the future expenditures expected to be required to settle the obligation. The increase in the discounted present value amount arising from the passage of time is included in finance costs in the statement of profit or loss.

Income tax

Income tax comprises current and deferred tax. Income tax relating to items recognised outside profit or loss is recognised outside profit or loss, either in other comprehensive income or directly in equity.

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period, taking into consideration interpretations and practices prevailing in the countries in which the Target Company operates.

Deferred tax is provided, using the liability method, on all temporary differences at the end of each of the Relevant Period between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- when the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss and does not give rise to equal taxable and deductible temporary differences; and
- in respect of taxable temporary differences associated with investments in subsidiaries, associates and joint ventures, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised for all deductible temporary differences, and the carryforward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carryforward of unused tax credits and unused tax losses can be utilised, except:

- when the deferred tax asset relating to the deductible temporary differences arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss and does not give rise to equal taxable and deductible temporary differences; and
- in respect of deductible temporary differences associated with investments in subsidiaries, associates and joint ventures, deferred tax assets are only recognised to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised. In respect of deductible temporary differences associated with investments in subsidiaries, associates and joint ventures, deferred tax assets are only recognised to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at the end of each reporting period and are recognised to the extent that it has become probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

APPENDIX II FINANCIAL INFORMATION OF THE TARGET COMPANIES

Deferred tax assets and deferred tax liabilities are offset if and only if the Target Company has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities which intend either to settle current tax liabilities and assets on a net basis, or to realise the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

Revenue recognition

Revenue from contracts with customers

Revenue from contracts with customers is recognised when control of goods or services is transferred to the customers at an amount that reflects the consideration to which the Target Company expects to be entitled in exchange for those goods or services.

When the consideration in a contract includes a variable amount, the amount of consideration is estimated to which the Target Company will be entitled in exchange for transferring the goods or services to the customer.

When the contract contains a financing component which provides the customer with a significant benefit of financing the transfer of goods or services to the customer for more than one year, revenue is measured at the present value of the amount receivable, discounted using the discount rate that would be reflected in a separate financing transaction between the Target Company and the customer at contract inception. When the contract contains a financing component which provides the Target Company with a significant financial benefit for more than one year, revenue recognised under the contract includes the interest expense accreted on the contract liability under the effective interest method. For a contract where the period between the payment by the customer and the transfer of the promised goods or services is one year or less, the transaction price is not adjusted for the effects of a significant financing component, using the practical expedient in IFRS 15.

Sale of properties

Revenues are recognised when or as the control of the asset is transferred to the purchaser.

In determining the transaction price, the Target Company adjusts the promised amount of consideration for the effect of a financing component if it is significant.

Other income

Interest income is recognised on an accrual basis using the effective interest method by applying the rate that exactly discounts the estimated future cash receipts over the expected life of the financial instrument or a shorter period, when appropriate, to the net carrying amount of the financial asset.

Contract liabilities

A contract liability is recognised when a payment is received from a customer before the Target Company transfers the related goods or services. Contract liabilities are recognised as revenue when the Target Company performs under the contract (i.e., transfers control of the related goods or services to the customer).

Contract costs

Other than the costs which are capitalised as property under development for sale and property held for sale, costs incurred to fulfil a contract with a customer are capitalised as an asset if all of the following criteria are met:

- (a) The costs relate directly to a contract or to an anticipated contract that the entity can specifically identify.
- (b) The costs generate or enhance resources of the entity that will be used in satisfying (or in continuing to satisfy) performance obligations in the future.
- (c) The costs are expected to be recovered.

The capitalised contract costs are amortised and charged to the statement of profit or loss on a systematic basis that is consistent with the transfer to the customer of the goods or services to which the asset relates. Other contract costs are expensed as incurred.

Other employee benefits

The employees are required to participate in a central pension scheme operated by the local municipal government (the “**Defined Contribution Schemes**”) in Chinese Mainland. Target Company is required to contribute a certain portion of its payroll costs to the Central Pension Scheme. The contributions are charged to the statement of profit or loss as they become payable in accordance with the rules of the central pension scheme.

Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, i.e., assets that necessarily take a substantial period of time to get ready for their intended use or sale, are capitalised as part of the cost of those assets. The capitalisation of such borrowing costs ceases when the assets are substantially ready for their intended use or sale. All other borrowing costs are expensed in the period in which they are incurred. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

4. SIGNIFICANT ACCOUNTING ESTIMATES

The preparation of the Target Company’s Historical Financial Information requires management to make estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and their accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amounts of the assets or liabilities affected in the future.

Estimation uncertainty

The key assumptions concerning the future and other key sources of estimation uncertainty at the end of each of the Relevant Period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below.

Provision for properties under development and completed properties held for sale

The Target Company’s properties under development and completed properties held for sale are stated at the lower of cost and net realisable value. Based on the Target Company’s historical experience and the nature of the subject properties, the Target Company makes estimates of the selling prices, the costs of completion of properties under development, and the costs to be incurred in selling the properties based on prevailing market conditions.

If there is an increase in costs to completion or a decrease in net sales value, the net realisable value will decrease and this may result in a provision for properties under development and completed properties held for sale. Such provision requires the use of judgement and estimates. Where the expectation is different from the original estimate, the carrying value and provision for properties in the periods in which such estimate is changed will be adjusted accordingly.

APPENDIX II FINANCIAL INFORMATION OF THE TARGET COMPANIES

PRC land appreciation tax (“LAT”)

The Target Company is subject to LAT in the PRC. The provision for LAT is based on management’s best estimates according to the understanding of the requirements set forth in the relevant PRC tax laws and regulations. The actual LAT liabilities are subject to the determination by the tax authorities upon the completion of the property development projects. The Target Company has not finalised its LAT calculation and payments with the tax authorities for all its property development projects. The final outcome could be different from the amounts that were initially recorded, and any differences will impact on the LAT expenses and the related provision in the period in which the differences realise.

5. REVENUE, OTHER INCOME AND OTHER EXPENSE

During the Relevant Periods, the Target Company’s revenue represents amounts received from the sale of properties from the property development business.

An analysis of revenue is as follows:

	Years ended 31 December		
	2022	2023	2024
	RMB’000	RMB’000	RMB’000
Revenue from contracts with customers and recognised at a point in time			
Sale of properties	–	651,128	486,684

The following table shows the amount of revenue recognised in the Relevant Periods that was included in the contract liabilities at the beginning of the Relevant Periods:

	Years ended 31 December		
	2022	2023	2024
	RMB’000	RMB’000	RMB’000
Revenue recognised that was included in contract liabilities at the beginning of the Relevant Periods:			
Sale of properties	–	660,439	309,859

The performance obligation is satisfied upon delivery of the completed properties. Payment in advance from customers is normally required and the remaining balance is settled no later than the delivery date of the property.

The amounts of transaction prices allocated to the remaining performance obligations (unsatisfied or partially unsatisfied) as at the end of each of the Relevant Periods are as follows

	As at 31 December		
	2022	2023	2024
	RMB’000	RMB’000	RMB’000
Amounts expected to be recognised as revenue			
Within one year	651,128	309,859	29,434
In the second year	9,311	–	–

Cash and cash equivalents		<u>4,266</u>	<u>43,500</u>	<u>31,590</u>

(a) Pursuant to relevant regulations in the PRC, the Target Company is required to place certain amounts of cash in the designated bank accounts for a specified use.

As at the end of each of the Relevant Periods, the cash and bank balances are dominated in RMB.

The RMB is not freely convertible into other currencies, however, under Mainland China Foreign Exchange Control Regulations and Administration of Settlement, Sale and Payment of Foreign Exchange Regulations, the Target Company is permitted to exchange RMB for other currencies through banks authorised to conduct foreign exchange business.

Cash at banks earns interest at floating rates based on daily bank deposit rates. Short-term time deposits are made for varying periods of between one day and three months depending on the immediate cash requirements of the Target Company, and earn interest at the respective short term time deposit rates. The bank balances are deposited with creditworthy banks with no recent history of default.

As at the end of each of the Relevant Periods, the internal credit ratings of restricted cash and cash and cash equivalents were performing. The Target Company has assessed that the credit risk of the restricted cash and cash and cash equivalents has not increased significantly since initial recognition and measured the impairment based on 12-month expected credit losses, and has assessed that the expected credit losses are immaterial.

26. FAIR VALUE OF FINANCIAL INSTRUMENTS

Management has assessed that the fair values of cash and bank balances, amounts due from (to) fellow subsidiaries and related companies, trade and bills payables, financial assets included in prepayments, other receivables and other assets, financial liabilities included in other payables and accruals approximate to their carrying amounts largely due to the short-term maturities of these instruments.

27. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Target Company's principal financial instruments comprise amounts with fellow subsidiaries and related companies and advance from a non-controlling shareholder. The main purpose of these financial instruments is to raise finance for the Target Company's operations. The Target Company has various other financial assets and liabilities such as bank balances, financial assets included in prepayments, other receivables and other assets, trade and bills payables and financial liabilities included in other payables and accruals, which arise directly from its operations.

The main risks arising from the Target Company's financial instruments are interest rate risk, credit risk and liquidity risk. The Directors review and agree policies for managing each of these risks and they are summarized below.

(a) *Interest rate risk*

The Target Company was exposed to fair value interest rate risk in relation to interest-free deposit and fixed rate advance from a non-controlling shareholder.

The Target Company's exposure to cash flow interest rate risk in relation to bank balances is minimal as these balances have a short maturity period.

(b) *Credit risk*

The Target Company trades only with recognised and creditworthy third parties. It is the Target Company's policy that all customers who wish to trade on credit terms are subject to credit verification procedures. In addition, receivable balances are monitored on an ongoing basis and the Target Company's exposure to bad debts is not significant.

APPENDIX II FINANCIAL INFORMATION OF THE TARGET COMPANIES

Maximum exposure and year-end staging

The tables below show the credit quality and the maximum exposure to credit risk based on the Target Company's credit policy, which is mainly based on past due information unless other information is available without undue cost or effort, and year-end staging classification. Capital management

The primary objectives of the Target Company's capital management are to safeguard the Target Company's ability to continue as a going concern and to maintain healthy capital ratios in order to support its business and maximise shareholders' value.

The Target Company manages its capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Target Company may adjust the return capital to shareholders or issue new shares. The Target Company is not subject to any externally imposed capital requirements. No changes were made in the objectives, policies or processes for managing capital during the Relevant Periods.

APPENDIX II FINANCIAL INFORMATION OF THE TARGET COMPANIES

The Target Company monitors capital using a gearing ratio, which is net debt divided by the adjusted capital plus net debt. Net debt includes, trade and bills payables, other payables and accruals, lease liabilities and amounts due to fellow subsidiaries and related companies less cash and cash equivalents. Capital includes equity attributable to owners of the parent. The gearing ratios as at the end of the Relevant Periods were as follows:

	As at 31 December		
	2022	2023	2024
	<i>RMB'000</i>	<i>RMB'000</i>	<i>RMB'000</i>

Gearing ratio	<u>43.6%</u>	<u>52.8%</u>	<u>60.0%</u>

28. RETIREMENT BENEFIT SCHEMES

The employees of the Target Company's entities established in the PRC are members of a central pension scheme operated by the local municipal government. These entities are required to contribute certain percentage of the employees' basic salaries and wages to the central pension scheme to fund the retirement benefits. The local municipal government undertakes to assume the retirement benefits obligations of all existing and future retired employees of these entities. The only obligation of these entities with respect to the central pension scheme is to meet the required contributions under the scheme.

29. CONTINGENT LIABILITIES

The Target Company provided guarantees in respect of mortgage facilities granted by certain banks to the purchasers of the Target Company's completed properties held for sale. Pursuant to the terms of the guarantee arrangements, in case of default on mortgage payments by the purchasers, the Target Company is responsible for repaying the outstanding mortgage principals together with any accrued interest and penalties owed by the defaulted purchasers to those banks.

Under the above arrangement, the related properties were pledged to the banks as collateral for the mortgage loans, and upon default on mortgage repayments by these purchasers, the banks are entitled to take over the legal titles and will realise the pledged properties through open auction.

The Target Company's guarantee period starts from the dates of grant of the relevant mortgage loans and ends upon the issuance and registration of property ownership certificates to the purchasers, which will generally be available within one to two years after the purchasers take possession of the relevant properties.

The fair value of the guarantees at initial recognition and the ECL allowance is not significant as the Directors consider that in the event of default on payments, the net realisable value of the related properties can cover the repayment of the outstanding mortgage principal together with the accrued interest and penalties.

30. EVENT AFTER RELEVANT PERIOD

There was no material subsequent events undertaken by the Target Company at 31 December 2024.

31. SUBSEQUENT FINANCIAL STATEMENTS

No audited financial statements have been prepared by the Target Company in respect of any period subsequent to 31 December 2024.

APPENDIX II FINANCIAL INFORMATION OF THE TARGET COMPANIES

NOTES TO THE HISTORICAL FINANCIAL INFORMATION

1. GENERAL

Suqian Tong JinHong Real Estate Co., Ltd. is a limited liability company incorporated in the PRC in 2020. In the opinion of the directors of the Target Company (the “**Directors**”), the immediate holding company and ultimate controlling party of the Target Company are Yancheng Tongjia Enterprise Management Co., Ltd.* (鹽城通佳企業管理有限公司) which is incorporated in the PRC and Mr. Shi Weiwei (施為偉) who is an independent third party of the Company. The address of its registered office and principal place of business is 宿遷市宿豫區錦華名園一區商鋪17B-20B. The Target Company is principally engaged in property development in the PRC.

The Historical Financial Information is presented in RMB, which is also the functional currency of the Target Company.

Statutory financial statements of Target Company for each of the three years ended 31 December 2024 have not been audited.

Basis of preparation of Historical Financial Information

The Historical Financial Information has been prepared in accordance with IFRS Accounting Standards which comprise all IFRS Accounting Standards, International Accounting Standards (“**IASs**”) and Interpretations issued by the IASB. All IFRS Accounting Standards effective for the accounting period commencing from 1 January 2024, together with the relevant transitional provisions, have been early adopted by the Target Company in the preparation of the Historical Financial Information throughout the Relevant Periods. In addition, the Historical Financial Information includes applicable disclosures required by the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited and by the Hong Kong Companies Ordinance.

The Historical Financial Information has been prepared under the historical cost convention.

Going concern

As at 31 December 2024, the Target Company had net current liabilities of approximately RMB640,357,000 after excluding the properties under development and completed properties held for sale of approximately RMB487,289,000 and RMB204,158,000 respectively. The Historical Financial Information have been prepared on a going concern basis as the related companies have agreed not to demand for any repayment of amounts due to related companies of approximately RMB375,748,000 as at 31 December 2024 until the Target Company is in a financial position to do so. In additions, the current liabilities consisted of contract liabilities from customers of approximately RMB334,023,000, which will be settled by transferred of completed properties from the Target Company rather than settled by cash.

The Directors consider that the Target Company will have sufficient working capital to finance its operations in the foreseeable future and accordingly are satisfied that it is appropriate to prepare the Historical Financial Information on a going concern basis.

2. NEW AND AMENDMENTS TO IFRSs IN ISSUE BUT NOT YET EFFECTIVE

The Target Company has not early applied the following new and amendments to IFRSs that have been issued but are not yet effective:

IFRS 18	Presentation and Disclosure in Financial Statements ³
IFRS 19	Subsidiaries without Public Accountability: Disclosures ³
Amendments to IAS 21	Lack of Exchangeability ¹
Amendments to IFRS 9 and IFRS 7	Amendments to the Classification and Measurement of Financial Instruments ²
Amendments to IFRS Accounting Standards	Annual Improvements to IFRS Accounting Standards – Volume 11 ²
Amendments to IFRS 10 and IAS 28	Sale or Contribution of Assets between an Investor and its Associate or Joint Venture ⁴
Amendments to IFRS 9 and IFRS 7	Contracts Referencing Nature-dependent Electricity ²

¹ Effective for annual period beginning on or after 1 January 2025

² Effective for annual period beginning on or after 1 January 2026

³ Effective for annual period beginning on or after 1 January 2027

⁴ Effective for annual periods beginning on or after a date to be determined

The Directors anticipate that the application of all other new and amendments to IFRSs will have no material impact on the Historical Financial Information of the Target Company in the foreseeable future.

APPENDIX II FINANCIAL INFORMATION OF THE TARGET COMPANIES

IFRS 18 Presentation and Disclosure in Financial Statements

IFRS 18 Presentation and Disclosure in Financial Statements, which sets out requirements on presentation and disclosures in financial statements, will replace IAS 1 Presentation of Financial Statements. This new IFRS Accounting Standard, while carrying forward many of the requirements in IAS 1, introduces new requirements to present specified categories and defined subtotals in the statement of profit or loss; provide disclosures on management-defined performance measures in the notes to the financial statements and improve aggregation and disaggregation of information to be disclosed in the financial statements. In addition, some IAS 1 paragraphs have been moved to IAS 8 and IFRS 7. Minor amendments to IAS 7 Statement of Cash Flows and IAS 33 Earnings per Share are also made.

IFRS 18, and amendments to other standards, will be effective for annual periods beginning on or after 1 January 2027, with early application permitted. The Directors are in the process of assessing the detailed impact of IFRS 18 on the Historical Financial Information of the Target Company.

The Directors anticipate that the application of all other new and amendments to IFRS Accounting Standards will have no material impact on the Historical Financial Information of the Target Company in the foreseeable future.

3. MATERIAL ACCOUNTING POLICY INFORMATION

The Historical Financial Information has been prepared on the historical cost basis.

Historical cost is generally based on the fair value of the consideration given in exchange for services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date regardless of whether that price is directly observable or estimated using another valuation technique.

The material accounting policies are set out below.

Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either in the principal market for the asset or liability, or in the absence of a principal market, in the most advantageous market for the asset or liability. The principal or the most advantageous market must be accessible by the Target Company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Target Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 – based on quoted prices (unadjusted) in active markets for identical assets or liabilities

Level 2 – based on valuation techniques for which the lowest level input that is significant to the fair value measurement is observable, either directly or indirectly

Level 3 – based on valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Target Company determines whether transfers have occurred between levels in the hierarchy by reassessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each the reporting period.

Impairment of non-financial assets

Where an indication of impairment exists, or when annual impairment testing for an asset is required (other than properties under development, completed properties held for sale, deferred tax assets, and financial assets), the asset's recoverable amount is estimated. An asset's recoverable amount is the higher of the asset's or cash-generating unit's value in use and its fair value less costs of disposal, and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets, in which case the recoverable amount is determined for the cash-generating unit to which the asset belongs.

An impairment loss is recognised only if the carrying amount of an asset exceeds its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. An impairment loss is charged to the statement of profit or loss in the period in which it arises in those expense categories consistent with the function of the impaired asset.

An assessment is made at the end of each reporting period as to whether there is an indication that previously recognised impairment losses may no longer exist or may have decreased. If such an indication exists, the recoverable amount is estimated. A previously recognised impairment loss of an asset other than goodwill is reversed only if there has been a change in the estimates used to determine the recoverable amount of that asset, but not to an amount higher than the carrying amount that would have been determined (net of any depreciation/amortisation) had no impairment loss been recognised for the asset in prior years. A reversal of such an impairment loss is credited to the statement of profit or loss in the period in which it arises.

Related parties

A party is considered to be related to the Target Company if:

- (a) the party is a person or a close member of that person's family and that person
 - (i) has control or joint control over the Target Company;
 - (ii) has significant influence over the Target Company; or
 - (iii) is a member of the key management personnel of the Target Company or of a parent of the Target Company;

or

- (b) the party is an entity where any of the following conditions applies:
 - (i) the entity and the Target Company are members of the same group;
 - (ii) one entity is an associate or joint venture of the other entity (or of a parent, subsidiary or fellow subsidiary of the other entity);
 - (iii) the entity and the Target Company are joint ventures of the same third party;
 - (iv) one entity is a joint venture of a third entity and the other entity is an associate of the third entity;
 - (v) the entity is a post-employment benefit plan for the benefit of employees of either the Target Company or an entity related to the Target Company;
 - (vi) the entity is controlled or jointly controlled by a person identified in (a);
 - (vii) a person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity); and
 - (viii) the entity, or any member of a group of which it is a part, provides key management personnel services to the Target Company or to the parent of the Target Company.

Equipment

Equipment are stated at cost less accumulated depreciation and any impairment losses. The cost of an item of equipment comprises its purchase price and any directly attributable costs of bringing the asset to its working condition and location for its intended use.

Expenditure incurred after items of equipment have been put into operation, such as repairs and maintenance, is normally charged to the statement of profit or loss in the period in which it is incurred. In situations where the recognition criteria are satisfied, the expenditure for a major inspection is capitalised in the carrying amount of the asset as a replacement. Where significant parts of equipment are required to be replaced at intervals, the Target Company recognises such parts as individual assets with specific useful lives and depreciates them accordingly.

Depreciation is calculated on the straight-line basis to write-off the cost of each item of equipment to its residual value over its estimated useful life.

An item of equipment including any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss on disposal or retirement recognised in the statement of profit or loss in the year the asset is derecognised is the difference between the net sales proceeds and the carrying amount of the relevant asset.

Properties under development

Properties under development are intended to be held for sale after completion.

Properties under development are stated at the lower of cost comprising land costs, construction costs, borrowing costs, professional fees and other costs directly attributable to such properties incurred during the development period and net realisable value.

Properties under development are classified as current assets unless those will not be realised in the normal operating cycle. On completion, the properties are transferred to completed properties held for sale.

Completed properties held for sale

Completed properties held for sale are stated in the statement of financial position at the lower of cost and net realisable value. Cost is determined by an apportionment of the total costs of land and buildings attributable to the unsold properties. Net realisable value takes into account the price ultimately expected to be realised, less estimated costs to be incurred in selling the properties.

Financial assets

Initial recognition and measurement

Financial assets are recognised in the statement of financial position when an entity becomes a party to the contractual provisions of the instrument.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Target Company's business model for managing them. The Target Company initially measures a financial asset at its fair value plus in the case of a financial asset not at fair value through profit or loss, transaction costs.

In order for a financial asset to be classified and measured at amortised cost, it needs to give rise to cash flows that are solely payments of principal and interest ("SPPI") on the principal amount outstanding.

The Target Company's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both. Financial assets classified and measured at amortised cost are held within a business model with the objective to hold financial assets in order to collect contractual cash flows.

Purchases or sales of financial assets that require delivery of assets within the period generally established by regulation or convention in the marketplace are recognised on the trade date, that is, the date that the Target Company commits to purchase or sell the asset.

APPENDIX II FINANCIAL INFORMATION OF THE TARGET COMPANIES

Subsequent measurement

The subsequent measurement of financial assets depends on their classification as follows:

Financial assets at amortised cost (debt instruments)

Financial assets at amortised cost are subsequently measured using the effective interest method and are subject to impairment. Gains and losses are recognised in the statement of profit or loss when the asset is derecognised, modified or impaired.

Derecognition of financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e., removed from the Target Company's statement of financial position) when:

- the rights to receive cash flows from the asset have expired; or
- the Target Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a "pass-through" arrangement; and either (a) the Target Company has transferred substantially all the risks and rewards of the asset, or (b) the Target Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Target Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if, and to what extent, it has retained the risk and rewards of ownership of the asset. When it has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the Target Company continues to recognise the transferred asset to the extent of the Target Company's continuing involvement. In that case, the Target Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Target Company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Target Company could be required to repay.

Impairment of financial assets

The Target Company recognises an allowance for expected credit losses ("ECLs") for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Target Company expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

General approach

ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12 months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

At the end of each of the Relevant Periods, the Target Company assesses whether the credit risk on a financial instrument has increased significantly since initial recognition. When making the assessment, the Target Company compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition and considers reasonable and supportable information that is available without undue cost or effort, including historical and forward-looking information.

In certain cases, the Target Company may also consider a financial asset to be in default when internal or external information indicates that the Target Company is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Target Company. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

APPENDIX II FINANCIAL INFORMATION OF THE TARGET COMPANIES

Financial assets at amortised cost are subject to impairment under the general approach and they are classified within the following stages for measurement of ECLs as detailed below.

- Stage 1 – Financial instruments for which credit risk has not increased significantly since initial recognition and for which the loss allowance is measured at an amount equal to 12-month ECLs
- Stage 2 – Financial instruments for which credit risk has increased significantly since initial recognition but that are not credit-impaired financial assets and for which the loss allowance is measured at an amount equal to lifetime ECLs
- Stage 3 – Financial assets that are credit-impaired at the reporting date (but that are not purchased or originated credit-impaired) and for which the loss allowance is measured at an amount equal to lifetime ECLs

Financial liabilities

Initial recognition and measurement

All financial liabilities are recognised initially at fair value and, in the case of interest-bearing bank borrowings, trade payables, other payables and accruals, net of directly attributable transaction costs.

The Target Company's financial liabilities include interest-bearing bank borrowings, trade payables, other payables and accruals, and amounts due to shareholders and related companies.

Subsequent measurement

The subsequent measurement of financial liabilities depends on their classification as follows:

Financial liabilities at amortised cost

After initial recognition, interest-bearing bank borrowings, trade payables, other payables and accruals, and amounts due to shareholders and related companies are subsequently measured at amortised cost, using the effective interest rate method unless the effect of discounting would be immaterial, in which case they are stated at cost. Gains and losses are recognised in the statement of profit or loss when the liabilities are derecognised as well as through the effective interest rate amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the effective interest rate. The effective interest rate amortisation is included in finance costs in the statement of profit or loss.

Derecognition of financial liabilities

A financial liability is derecognised when the obligation under the liability is discharged or cancelled, or expires.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and a recognition of a new liability, and the difference between the respective carrying amounts is recognised in the statement of profit or loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the statement of financial position if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

APPENDIX II FINANCIAL INFORMATION OF THE TARGET COMPANIES

Cash and cash equivalents

Cash and cash equivalents in the statement of financial position comprise cash on hand and at banks, and short-term highly liquid deposits with a maturity of generally within three months that are readily convertible into known amounts of cash, subject to an insignificant risk of changes in value and held for the purpose of meeting short-term cash commitments.

For the purpose of the statement of cash flows, cash and cash equivalents comprise cash on hand and at banks, and short-term deposits as defined above, less bank overdrafts which are repayable on demand and form an integral part of the Target Company's cash management.

Provisions

A provision is recognised when a present obligation (legal or constructive) has arisen as a result of a past event and it is probable that a future outflow of resources will be required to settle the obligation, provided that a reliable estimate can be made of the amount of the obligation.

When the Target Company expects some or all of a provision to be reimbursed, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of profit or loss net of any reimbursement.

When the effect of discounting is material, the amount recognised for a provision is the present value at the end of each of the Relevant Periods of the future expenditures expected to be required to settle the obligation. The increase in the discounted present value amount arising from the passage of time is included in finance costs in the statement of profit or loss.

Income tax

Income tax comprises current and deferred tax. Income tax relating to items recognised outside profit or loss is recognised outside profit or loss, either in other comprehensive income or directly in equity.

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period, taking into consideration interpretations and practices prevailing in the countries in which the Target Company operates.

Deferred tax is provided, using the liability method, on all temporary differences at the end of each of the Relevant Periods between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognised for all taxable temporary differences.

Deferred tax assets are recognised for all deductible temporary differences, and the carryforward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carryforward of unused tax credits and unused tax losses can be utilised.

The carrying amount of deferred tax assets is reviewed at the end of each of the Relevant Periods and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at the end of each reporting period and are recognised to the extent that it has become probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax assets and deferred tax liabilities are offset if and only if the Target Company has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities which intend either to settle current tax liabilities and assets on a net basis, or to realise the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

Revenue recognition***Revenue from contracts with customers***

Revenue from contracts with customers is recognised when control of goods or services is transferred to the customers at an amount that reflects the consideration to which the Target Company expects to be entitled in exchange for those goods or services.

When the consideration in a contract includes a variable amount, the amount of consideration is estimated to which the Target Company will be entitled in exchange for transferring the goods or services to the customer.

When the contract contains a financing component which provides the customer with a significant benefit of financing the transfer of goods or services to the customer for more than one year, revenue is measured at the present value of the amount receivable, discounted using the discount rate that would be reflected in a separate financing transaction between the Target Company and the customer at contract inception.

When the contract contains a financing component which provides the Target Company with a significant financial benefit for more than one year, revenue recognised under the contract includes the interest expense accreted on the contract liability under the effective interest method. For a contract where the period between the payment by the customer and the transfer of the promised goods or services is one year or less, the transaction price is not adjusted for the effects of a significant financing component, using the practical expedient in IFRS 15.

Sale of properties

Revenues are recognised when or as the control of the asset is transferred to the purchaser.

In determining the transaction price, the Target Company adjusts the promised amount of consideration for the effect of a financing component if it is significant.

Other income

Interest income is recognised on an accrual basis using the effective interest method by applying the rate that exactly discounts the estimated future cash receipts over the expected life of the financial instrument or a shorter period, when appropriate, to the net carrying amount of the financial asset.

Contract liabilities

A contract liability is recognised when a payment is received from a customer before the Target Company transfers the related goods or services. Contract liabilities are recognised as revenue when the Target Company performs under the contract (i.e., transfers control of the related goods or services to the customer).

Contract costs

Other than the costs which are capitalised as property under development for sale and property held for sale, costs incurred to fulfil a contract with a customer are capitalised as an asset if all of the following criteria are met:

- (a) The costs relate directly to a contract or to an anticipated contract that the entity can specifically identify.
- (b) The costs generate or enhance resources of the entity that will be used in satisfying (or in continuing to satisfy) performance obligations in the future.
- (c) The costs are expected to be recovered.

The capitalised contract costs are amortised and charged to the statement of profit or loss on a systematic basis that is consistent with the transfer to the customer of the goods or services to which the asset relates. Other contract costs are expensed as incurred.

Other employee benefits

The employees are required to participate in a central pension scheme operated by the local municipal government (the “**Defined Contribution Schemes**”) in Mainland China. Target Company is required to contribute a certain portion of its payroll costs to the Central Pension Scheme. The contributions are charged to the statement of profit or loss as they become payable in accordance with the rules of the central pension scheme.

Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, i.e., assets that necessarily take a substantial period of time to get ready for their intended use or sale, are capitalised as part of the cost of those assets. The capitalisation of such borrowing costs ceases when the assets are substantially ready for their intended use or sale. All other borrowing costs are expensed in the period in which they are incurred. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

4. SIGNIFICANT ACCOUNTING ESTIMATES

The preparation of the Target Company’s Historical Financial Information requires management to make estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and their accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amounts of the assets or liabilities affected in the future.

Estimation uncertainty

The key assumptions concerning the future and other key sources of estimation uncertainty at the end of each of the Relevant Periods, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below.

Provision for properties under development and completed properties held for sale

The Target Company’s properties under development and completed properties held for sale are stated at the lower of cost and net realisable value. Based on the Target Company’s historical experience and the nature of the subject properties, the Target Company makes estimates of the selling prices, the costs of completion of properties under development, and the costs to be incurred in selling the properties based on prevailing market conditions.

If there is an increase in costs to completion or a decrease in net sales value, the net realisable value will decrease and this may result in a provision for properties under development and completed properties held for sale. Such provision requires the use of judgement and estimates. Where the expectation is different from the original estimate, the carrying value and provision for properties in the periods in which such estimate is changed will be adjusted accordingly.

PRC land appreciation tax (“LAT”)

The Target Company is subject to LAT in the PRC. The provision for LAT is based on management’s best estimates according to the understanding of the requirements set forth in the relevant PRC tax laws and regulations. The actual LAT liabilities are subject to the determination by the tax authorities upon the completion of the property development projects. The Target Company has not finalised its LAT calculation and payments with the tax authorities for all its property development projects. The final outcome could be different from the amounts that were initially recorded, and any differences will impact on the LAT expenses and the related provision in the period in which the differences realise.

5. REVENUE AND OTHER INCOME

During the Relevant Periods, the Target Company’s revenue represents amounts received from the sale of properties from the property development business.

APPENDIX II FINANCIAL INFORMATION OF THE TARGET COMPANIES

An analysis of revenue is as follows:

10. INCOME TAX (CREDIT) EXPENSE

Corporate Income Tax (the “CIT”) is provided on assessable profits of entities incorporated in the PRC at the rate of 25% during the Relevant Periods.

LAT is levied at progressive rates ranging from 30% to 60% on the appreciation of land value, being the proceeds from the sale of properties less deductible expenditures including land costs, borrowing costs and other property development expenditures. The Target Company has estimated, made and included in taxation a provision for LAT according to the requirements set forth in the relevant PRC tax laws and regulations. The LAT provision is subject to the final review and approval by the local tax bureau.

27. FAIR VALUE OF FINANCIAL INSTRUMENTS

Management has assessed that the fair values of cash and bank balances, due from (to) shareholders and related companies, financial assets included in prepayments, other receivables and other assets, trade payables, financial liabilities included in other payables and accruals and interest-bearing bank borrowings approximate to their carrying amounts largely due to the short-term maturities of these instruments.

28. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Target Company's principal financial instruments comprise amounts with shareholders and related companies and interest-bearing bank borrowings. The main purpose of these financial instruments is to raise finance for the Target Company's operations. The Target Company has various other financial assets and liabilities such as bank balances, financial assets included in prepayments, other receivables and other assets, trade payables and financial liabilities included in other payables and accruals which arise directly from its operations.

The main risks arising from the Target Company's financial instruments are interest rate risk, credit risk and liquidity risk. The Directors review and agree policies for managing each of these risks and they are summarized below.

(a) Interest rate risk

The Target Company was exposed to fair value interest rate risk in relation to interest-free deposit and fixed rate interest-bear by bank.

The Target Company's exposure to cash flow borrowings interest rate risk in related to bank balances is minimal as the balance have a short maturity period. The Target Company manages its interest rate exposures by assessing the potential impact arising from any interest rates movement based on interest rate level and outlook. The management will review the proportion of borrowings in fixed and floating rates and ensure they are within reasonable range.

APPENDIX II FINANCIAL INFORMATION OF THE TARGET COMPANIES

(b) Credit risk

The Target Company trades only with recognised and creditworthy third parties. It is the Target Company's policy that all customers who wish to trade on credit terms are subject to credit verification procedures. In addition, receivable balances are monitored on an ongoing basis and the Target Company's exposure to bad debts is not significant.

Maximum exposure and year-end staging

The tables below show the credit quality and the maximum exposure to credit risk based on the Target Company's credit policy, which is mainly based on past due information unless other information is available without undue cost or effort, and year-end staging classification. The amounts presented are gross carrying amounts for financial assets.

Capital management

The primary objectives of the Target Company's capital management are to safeguard the Target Company's ability to continue as a going concern and to maintain healthy capital ratios in order to support its business and maximise shareholders' value.

The Target Company manages its capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Target Company may adjust the return capital to shareholders or issue new shares. The Target Company is not subject to any externally imposed capital requirements. No changes were made in the objectives, policies or processes for managing capital during the Relevant Periods.

APPENDIX II FINANCIAL INFORMATION OF THE TARGET COMPANIES

The Target Company monitors capital using a gearing ratio, which is net debt divided by the adjusted capital plus net debt. Net debt includes, trade payables, other payables and accruals, interest-bearing bank borrowing and amounts due to shareholders and related companies less cash and cash equivalents. Capital includes equity attributable to owners of the parent. The gearing ratios as at the end of each of the Relevant Periods were as follows:

	As at 31 December		
	2022 RMB'000	2023 RMB'000	2024 RMB'000
Trade payables	9,679	26,773	278,978

Equity attributable to owners	23,048	140,543	70,248
Capital and net debt	238,637	451,941	715,522
Gearing ratio	90%	69%	90%

29. RETIREMENT BENEFIT SCHEMES

The employees of the Target Company's entities established in the PRC are members of a central pension scheme operated by the local municipal government. These entities are required to contribute certain percentage of the employees' basic salaries and wages to the central pension scheme to fund the retirement benefits. The local municipal government undertakes to assume the retirement benefits obligations of all existing and future retired employees of these entities. The only obligation of these entities with respect to the central pension scheme is to meet the required contributions under the scheme.

30. CONTINGENT LIABILITIES

The Target Company provided guarantees in respect of mortgage facilities granted by certain banks to the purchasers of the Target Company's completed properties held for sale. Pursuant to the terms of the guarantee arrangements, in case of default on mortgage payments by the purchasers, the Target Company is responsible for repaying the outstanding mortgage principals together with any accrued interest and penalties owed by the defaulted purchasers to those banks.

Under the above arrangement, the related properties were pledged to the banks as collateral for the mortgage loans, and upon default on mortgage repayments by these purchasers, the banks are entitled to take over the legal titles and will realise the pledged properties through open auction.

The Target Company's guarantee period starts from the dates of grant of the relevant mortgage loans and ends upon the issuance and registration of property ownership certificates to the purchasers, which will generally be available within one to two years after the purchasers take possession of the relevant properties.

The fair value of the guarantees at initial recognition and the ECL allowance is not significant as the Directors consider that in the event of default on payments, the net realisable value of the related properties can cover the repayment of the outstanding mortgage principal together with the accrued interest and penalties.

31. EVENT AFTER RELEVANT PERIOD

There was no material subsequent events undertaken by the Target Company at 31 December 2024.

32. SUBSEQUENT FINANCIAL STATEMENTS

No audited financial statements have been prepared by the Target Company in respect of any period subsequent to 31 December 2024.

APPENDIX II FINANCIAL INFORMATION OF THE TARGET COMPANIES

NOTES TO THE HISTORICAL FINANCIAL INFORMATION

1. GENERAL

Jurong Jin Jia Run Real Estate Development Co., Ltd. is a limited liability company incorporated in the People's Republic of China (the "PRC") in 2018. In the opinion of the directors of the Target Company (the "Directors"), there was no immediate holding company and ultimate holding company of the Target Company. The address of its registered office and principal place of business is 句容市開發區甯杭北路118號正陽汽配商城S-2幢. The Target Company is principally engaged in property development in the PRC.

The Historical Financial Information is presented in RMB, which is also the functional currency of the Target Company.

Statutory financial statements of Target Company for each of the three years ended 31 December 2024 have not been audited.

Basis of preparation of Historical Financial Information

The Historical Financial Information has been prepared in accordance with IFRS Accounting Standards which comprise all IFRS Accounting Standards, International Accounting Standards ("IASs") and Interpretations issued by the IASB. All IFRS Accounting Standards effective for the accounting period commencing from 1 January 2024, together with the relevant transitional provisions, have been early adopted by the Target Company in the preparation of the Historical Financial Information throughout the Relevant Periods. In addition, the Historical Financial Information includes applicable disclosures required by the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited and by the Hong Kong Companies Ordinance.

The Historical Financial Information has been prepared under the historical cost convention.

Going concern

As at 31 December 2024, the Target Company had net current liabilities and net liabilities of approximately RMB105,529,000. The Historical Financial Information have been prepared on a going concern basis, as subsequent to the end of the reporting period, the shareholders and related companies have agreed not to demand for any repayment of amounts due to shareholders and related companies of approximately RMB204,793,000 and RMB104,926,000, respectively as at 31 December 2024, for at least the next twelve months, until the Target Company is in a financial position to do so.

The Directors consider that the Target Company will have sufficient working capital to finance its operations in the foreseeable future and accordingly are satisfied that it is appropriate to prepare the Historical Financial Information on a going concern basis.

2. NEW AND AMENDMENTS TO IFRS ACCOUNTING STANDARDS IN ISSUE BUT NOT YET EFFECTIVE

The Target Company has not early applied the following new and amendments to IFRS Accounting Standards that have been issued but are not yet effective:

IFRS 18	Presentation and Disclosure in Financial Statements ³

³ Effective for annual period beginning on or after 1 January 2027

⁴ Effective for annual periods beginning on or after a date to be determined

APPENDIX II FINANCIAL INFORMATION OF THE TARGET COMPANIES

IFRS 18 Presentation and Disclosure in Financial Statements

IFRS 18 Presentation and Disclosure in Financial Statements, which sets out requirements on presentation and disclosures in financial statements, will replace IAS 1 Presentation of Financial Statements. This new IFRS Accounting Standard, while carrying forward many of the requirements in IAS 1, introduces new requirements to present specified categories and defined subtotals in the statement of profit or loss; provide disclosures on management-defined performance measures in the notes to the financial statements and improve aggregation and disaggregation of information to be disclosed in the financial statements. In addition, some IAS 1 paragraphs have been moved to IAS 8 and IFRS 7. Minor amendments to IAS 7 Statement of Cash Flows and IAS 33 Earnings per Share are also made.

IFRS 18, and amendments to other standards, will be effective for annual periods beginning on or after 1 January 2027, with early application permitted. The application of the new standard is expected to affect the presentation of the statement of profit or loss and disclosures in further financial statements. The Directors are in the process of assessing the detailed impact of IFRS 18 on the Historical Financial Information of the Target Company.

The Directors anticipate that the application of all other new and amendments to IFRS Accounting Standards will have no material impact on the Historical Financial Information of the Target Company in the foreseeable future.

3. MATERIAL ACCOUNTING POLICY INFORMATION

Historical cost is generally based on the fair value of the consideration given in exchange for services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date regardless of whether that price is directly observable or estimated using another valuation technique.

The material accounting policies are set out below.

Impairment of non-financial assets

Where an indication of impairment exists, or when annual impairment testing for an asset is required, the asset's recoverable amount is estimated. An asset's recoverable amount is the higher of the asset's or cash-generating unit's value in use and its fair value less costs of disposal, and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets, in which case the recoverable amount is determined for the cash-generating unit to which the asset belongs.

An impairment loss is recognised only if the carrying amount of an asset exceeds its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. An impairment loss is charged to the statement of profit or loss in the period in which it arises in those expense categories consistent with the function of the impaired asset.

An assessment is made at the end of each reporting period as to whether there is an indication that previously recognised impairment losses may no longer exist or may have decreased. If such an indication exists, the recoverable amount is estimated. A previously recognised impairment loss of an asset other than goodwill is reversed only if there has been a change in the estimates used to determine the recoverable amount of that asset, but not to an amount higher than the carrying amount that would have been determined (net of any depreciation/amortisation) had no impairment loss been recognised for the asset in prior years. A reversal of such an impairment loss is credited to the statement of profit or loss in the period in which it arises.

Related parties

A party is considered to be related to the Target Company if:

- (a) the party is a person or a close member of that person's family and that person
 - (i) has control or joint control over the Target Company;
 - (ii) has significant influence over the Target Company; or
 - (iii) is a member of the key management personnel of the Target Company or of a parent of the Target Company;

or

APPENDIX II FINANCIAL INFORMATION OF THE TARGET COMPANIES

- (b) the party is an entity where any of the following conditions applies:
- (i) the entity and the Target Company are members of the same group;
 - (ii) one entity is an associate or joint venture of the other entity (or of a parent, subsidiary or fellow subsidiary of the other entity);
 - (iii) the entity and the Target Company are joint ventures of the same third party;
 - (iv) one entity is a joint venture of a third entity and the other entity is an associate of the third entity;
 - (v) the entity is a post-employment benefit plan for the benefit of employees of either the Target Company or an entity related to the Target Company;
 - (vi) the entity is controlled or jointly controlled by a person identified in (a);
 - (vii) a person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity); and
 - (viii) the entity, or any member of a group of which it is a part, provides key management personnel services to the Target Company or to the parent of the Target Company.

Properties under development

Properties under development are intended to be held for sale after completion.

Properties under development are stated at the lower of cost comprising land costs, construction costs, borrowing costs, professional fees and other costs directly attributable to such properties incurred during the development period and net realisable value. Net realisable value represents the estimated selling price for the properties less estimated cost to completion and costs necessary to make the sales. Costs necessary to make the sale include incremental costs directly attributable to the sale and non-incremental costs which the Group must incur to make the sale.

Properties under development are classified as current assets unless those will not be realised in the normal operating cycle. On completion, the properties are transferred to completed properties held for sale.

Financial assets

Initial recognition and measurement

Financial assets are recognised in the statement of financial position when an entity becomes a party to the contractual provisions of the instrument.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Target Company's business model for managing them. The Target Company initially measures a financial asset at its fair value plus in the case of a financial asset not at fair value through profit or loss, transaction costs.

In order for a financial asset to be classified and measured at amortised cost, it needs to give rise to cash flows that are solely payments of principal and interest ("SPPI") on the principal amount outstanding.

The Target Company's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both. Financial assets classified and measured at amortised cost are held within a business model with the objective to hold financial assets in order to collect contractual cash flows.

Purchases or sales of financial assets that require delivery of assets within the period generally established by regulation or convention in the marketplace are recognised on the trade date, that is, the date that the Target Company commits to purchase or sell the asset.

APPENDIX II FINANCIAL INFORMATION OF THE TARGET COMPANIES

Subsequent measurement

The subsequent measurement of financial assets depends on their classification as follows:

Financial assets at amortised cost (debt instruments)

Financial assets at amortised cost are subsequently measured using the effective interest method and are subject to impairment. Gains and losses are recognised in the statements of profit or loss when the asset is derecognised, modified or impaired.

Derecognition of financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e., removed from the Target Company's statements of financial position) when:

- the rights to receive cash flows from the asset have expired; or
- the Target Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a "pass-through" arrangement; and either (a) the Target Company has transferred substantially all the risks and rewards of the asset, or (b) the Target Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Target Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if, and to what extent, it has retained the risk and rewards of ownership of the asset. When it has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the Target Company continues to recognise the transferred asset to the extent of the Target Company's continuing involvement. In that case, the Target Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Target Company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Target Company could be required to repay.

Impairment of financial assets

The Target Company recognises an allowance for expected credit losses ("ECLs") for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Target Company expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

General approach

ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12 months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

At the end of each of the Relevant Periods, the Target Company assesses whether the credit risk on a financial instrument has increased significantly since initial recognition. When making the assessment, the Target Company compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition and considers reasonable and supportable information that is available without undue cost or effort, including historical and forward-looking information.

In certain cases, the Target Company may also consider a financial asset to be in default when internal or external information indicates that the Target Company is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Target Company. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

APPENDIX II FINANCIAL INFORMATION OF THE TARGET COMPANIES

Financial assets at amortised cost are subject to impairment under the general approach and they are classified within the following stages for measurement of ECLs as detailed below.

- Stage 1 – Financial instruments for which credit risk has not increased significantly since initial recognition and for which the loss allowance is measured at an amount equal to 12-month ECLs
- Stage 2 – Financial instruments for which credit risk has increased significantly since initial recognition but that are not credit-impaired financial assets and for which the loss allowance is measured at an amount equal to lifetime ECLs
- Stage 3 – Financial assets that are credit-impaired at the reporting date (but that are not purchased or originated credit-impaired) and for which the loss allowance is measured at an amount equal to lifetime ECLs

Financial liabilities

Initial recognition and measurement

All financial liabilities are recognised initially at fair value and, in the case of payables and accruals, net of directly attributable transaction costs.

The Target Company's financial liabilities include other payables and accruals, and amounts due to shareholders and related companies.

Subsequent measurement

The subsequent measurement of financial liabilities depends on their classification as follows:

Financial liabilities at amortised cost (other payables and accruals)

After initial recognition, other payables and accruals are subsequently measured at amortised cost, using the effective interest rate method unless the effect of discounting would be immaterial, in which case they are stated at cost. Gains and losses are recognised in the statements of profit or loss when the liabilities are derecognised as well as through the effective interest rate amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the effective interest rate. The effective interest rate amortisation is included in finance costs in the statements of profit or loss.

Derecognition of financial liabilities

A financial liability is derecognised when the obligation under the liability is discharged or cancelled, or expires.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and a recognition of a new liability, and the difference between the respective carrying amounts is recognised in the statements of profit or loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the statements of financial position if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

APPENDIX II FINANCIAL INFORMATION OF THE TARGET COMPANIES

Cash and cash equivalents

Cash and cash equivalents in the statements of financial position comprise cash on hand and at banks, and short-term highly liquid deposits with a maturity of generally within three months that are readily convertible into known amounts of cash, subject to an insignificant risk of changes in value and held for the purpose of meeting short-term cash commitments.

For the purpose of the statements of cash flows, cash and cash equivalents comprise cash on hand and at banks, and short-term deposits as defined above, less bank overdrafts which are repayable on demand and form an integral part of the Target Company's cash management.

Provisions

A provision is recognised when a present obligation (legal or constructive) has arisen as a result of a past event and it is probable that a future outflow of resources will be required to settle the obligation, provided that a reliable estimate can be made of the amount of the obligation.

When the Target Company expects some or all of a provision to be reimbursed, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statements of profit or loss net of any reimbursement.

When the effect of discounting is material, the amount recognised for a provision is the present value at the end of each of the Relevant Periods of the future expenditures expected to be required to settle the obligation. The increase in the discounted present value amount arising from the passage of time is included in finance costs in the statements of profit or loss.

Income tax

Income tax comprises current and deferred tax. Income tax relating to items recognised outside profit or loss is recognised outside profit or loss, either in other comprehensive income or directly in equity.

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period, taking into consideration interpretations and practices prevailing in the countries in which the Target Company operates.

Deferred tax is provided, using the liability method, on all temporary differences at the end of each of the Relevant Periods between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognised for all taxable temporary differences.

Deferred tax assets are recognised for all deductible temporary differences, and the carryforward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carryforward of unused tax credits and unused tax losses can be utilised.

The carrying amount of deferred tax assets is reviewed at the end of each of the Relevant Periods and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at the end of each reporting period and are recognised to the extent that it has become probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax assets and deferred tax liabilities are offset if and only if the Target Company has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities which intend either to settle current tax liabilities and assets on a net basis, or to realise the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

APPENDIX II FINANCIAL INFORMATION OF THE TARGET COMPANIES

4. SIGNIFICANT ACCOUNTING ESTIMATES

The preparation of the Target Company's Historical Financial Information requires management to make estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and their accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amounts of the assets or liabilities affected in the future.

Estimation uncertainty

The key assumptions concerning the future and other key sources of estimation uncertainty at the end of each of the Relevant Periods, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below.

Provision for properties under development

The Target Company's properties under development are stated at the lower of cost and net realisable value. Based on the Target Company's historical experience and the nature of the subject properties, the Target Company makes estimates of the selling prices, the costs of completion of properties under development, and the costs to be incurred in selling the properties, based on prevailing market conditions.

If there is an increase in costs to completion or a decrease in net sales value, the net realisable value will decrease and this may result in a provision for properties under development and completed properties held for sale. Such provision requires the use of judgement and estimates. Where the expectation is different from the original estimate, the carrying value and provision for properties in the periods in which such estimate is changed will be adjusted accordingly.

5. REVENUE

During the Relevant Periods, the Target Company did not generate revenue.

6. LOSS BEFORE TAX

The Target Company's loss before tax during the Relevant Periods is arrived at after charging:

	2022 RMB'000	2023 RMB'000	2024 RMB'000
Auditor's remuneration	—	—	—

7. DIRECTORS' REMUNERATION

The directors and supervisors of the Target Company did not receive any fee or other emoluments in respect of their service provided to the Target Company during the Relevant Periods.

8. FIVE HIGHEST PAID EMPLOYEES

During the Relevant Periods, the Target Company did not have the employees and incur the staff costs to the five highest paid employees.

APPENDIX II FINANCIAL INFORMATION OF THE TARGET COMPANIES

9. INCOME TAX EXPENSE

Corporate Income Tax (the “CIT”) is provided on assessable profits of entities incorporated in the PRC at the rate of 25% during the Relevant Periods.

Tax expense	<u><u>–</u></u>	<u><u>–</u></u>	<u><u>–</u></u>

* less than RMB1,000

At the end of each of the Relevant Periods, the Target Company has unused tax losses expired in the next five years of approximately RMB1,532,000, RMB1,533,000 and RMB1,534,000 available for offset against future profits and deductible temporary differences of approximately RMB103,995,000, RMB103,995,000 and RMB103,995,000. No deferred tax asset has been recognised in respect of the unused tax losses and deductible temporary differences due to the unpredictability of future profit streams.

10. DIVIDEND

No dividend has been paid or declared by the Target Company during the Relevant Periods.

At the end of each of the Relevant Periods, the cash and bank balances are dominated in RMB.

The RMB is not freely convertible into other currencies, however, under Mainland China Foreign Exchange Control Regulations and Administration of Settlement, Sale and Payment of Foreign Exchange Regulations, the Target Company is permitted to exchange RMB for other currencies through banks authorised to conduct foreign exchange business.

APPENDIX II FINANCIAL INFORMATION OF THE TARGET COMPANIES

Cash at banks earns interest at floating rates based on daily bank deposit rates. Short-term time deposits are made for varying periods of between one day and three months depending on the immediate cash requirements of the Target Company, and earn interest at the respective short term time deposit rates. The bank balances are deposited with creditworthy banks with no recent history of default.

At the end of each of the Relevant Periods, the internal credit ratings of cash and cash equivalents were performing. The Target Company has assessed that the credit risk of the restricted cash and cash and cash equivalents has not increased significantly since initial recognition and measured the impairment based on 12-month expected credit losses, and has assessed that the expected credit losses are immaterial.

	<u>311,053</u>	<u>311,053</u>	<u>311,053</u>

18. FAIR VALUE OF FINANCIAL INSTRUMENTS

Management has assessed that the fair value of cash and bank balances, financial assets included in other receivables, financial liabilities included in other payables and accruals and due to shareholders and related companies approximate to their carrying amounts largely due to the short-term maturities of these instruments.

19. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Target Company's principal financial instruments comprise amounts with shareholders and related companies. The main purpose of these financial instruments is to raise finance for the Target Company's operations. The Target Company has various other financial assets and liabilities such as bank balances, other receivables and other payables and accruals which arise directly from its operations.

The main risks arising from the Target Company's financial instruments are interest rate risk, credit risk and liquidity risk. The Directors review and agree policies for managing each of these risks and they are summarised below.

(a) Interest rate risk

As at 31 December 2022, 2023 and 2024, the Target Company was exposed to fair value interest rate risk in relation to interest-free deposit. The Target Company's exposure to cash flow interest rate risk in relation to bank balances is minimal as these balance have a short maturity period. The Target Company manages its interest rate exposures by assessing the potential impact arising from any interest rates movement based on interest rate level and outlook.

APPENDIX II FINANCIAL INFORMATION OF THE TARGET COMPANIES

(b) Credit risk

The Target Company trades only with recognised and creditworthy third parties. It is the Target Company's policy that all customers who wish to trade on credit terms are subject to credit verification procedures. In addition, receivable balances are monitored on an ongoing basis and the Target Company's exposure to bad debts is not significant.

Maximum exposure and year-end staging

The tables below show the credit quality and the maximum exposure to credit risk based on the Target Company's credit policy, which is mainly based on past due information unless other information is available without undue cost or effort, and year-end staging classification. The amounts presented are gross carrying amounts for financial assets.

	2022 RMB'000	2023 RMB'000	2024 RMB'000
Financial assets included in other receivables*	523	523	523
Cash and bank balances	35	34	33
Financial assets subject to the 12-month ECLs	558	557	556

* The credit quality of the financial assets is considered to be "normal" when they are not past due, there is no information indicating that the financial assets had a significant increase in credit risk since initial recognition.

(c) Liquidity risk

The Target Company's objective is to maintain a balance between continuity of funding and flexibility through the use of other payables and accruals, amounts due to shareholders and related companies. Cash flows are being closely monitored on an ongoing basis.

The Target Company is exposed to liquidity risk as at 31 December 2024 as the Company had net current liabilities and capital deficiency of approximately RMB105,529,000. As detailed in Note 1, the Directors are of the opinion that the Target Company will be able to finance its future working capital and to fulfill its financial obligation when they fall due.

The Target Company's contractual maturity for all its non-derivative financial liabilities and the undiscounted cash flows of financial liabilities are within one year or on demand as at the end of each of the Relevant Periods.

Capital management

The primary objectives of the Target Company's capital management are to safeguard the Target Company's ability to continue as a going concern and to maintain healthy capital ratios in order to support its business and maximise shareholders' value.

The Target Company manages its capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Target Company may adjust the return capital to shareholders or issue new shares. The Target Company is not subject to any externally imposed capital requirements. No changes were made in the objectives, policies or processes for managing capital during the Relevant Periods.

APPENDIX II FINANCIAL INFORMATION OF THE TARGET COMPANIES

The Target Company monitors capital using a gearing ratio, which is net debt divided by the adjusted capital plus net debt. Net debt includes, other payables and accruals and amounts due to shareholders and related companies less cash and cash equivalents. Capital includes equity attributable to owners of the parent. The gearing ratios as at the end of each of the Relevant Periods were as follows:

	As at 31 December

A. UNAUDITED PRO FORMA FINANCIAL INFORMATION**Introduction**

The following unaudited pro forma financial information has been prepared by Redsun Services Group Limited (the “**Company**”) in accordance with Paragraph 4.29 of the Listing Rules and is a summary of illustrative unaudited pro forma consolidated statement of financial position, unaudited pro forma consolidated statement of profit or loss and other comprehensive income, and the unaudited pro forma consolidated statement of cash flows and the related notes (collectively referred to as the “**Unaudited Pro Forma Financial Information**”), in connection with the (i) proposed acquisition of 70% equity interests in Chengdu Hong Yang Jin Xing Real Estate Development Co., Ltd (the “**Target Company A**”) (“**Proposed Acquisition A**”) (ii) proposed acquisition of 20% equity interests in Suqian Tong Jin Hong Real Estate Co., Ltd (the “**Target Company B**”) (“**Proposed Acquisition B**”) (iii) proposed acquisition of 19% of equity interests in Jurong Jin Jia Run Real Estate Development Co., Ltd (the “**Target Company C**”) (“**Proposed Acquisition C**”) and (iv) acquisition of parking spaces (the “**Target Parking Spaces**”) (“**Proposed Acquisition of Parking Spaces**”) (the Company and its subsidiaries together with the Target Company A, Target Company B and Target Company C, hereinafter collectively referred to as the “**Enlarged Group**”).

The Unaudited Pro Forma Financial Information is for illustrating the financial position as at 31 December 2024 of the Enlarged Group as if the Proposed Acquisition A, B, C and the Target Parking Spaces had been completed on 31 December 2024; and the financial performance and cash flows of the Enlarged Group for the year ended 31 December 2024 as if the Proposed Acquisition A, B and C and the Target Parking Spaces had been completed on 1 January 2024.

The Unaudited Pro Forma Financial Information is prepared based upon (i) the Group’s audited consolidated statement of financial position as at 31 December 2024, the audited consolidated statement of profit or loss and other comprehensive income and consolidated statement of cash flows of the Group for the year ended 31 December 2024; as extracted from the Group’s published annual report for the year ended 31 December 2024; (ii) the Target Company A’s audited statements of financial position as at 31 December 2024, the audited statements of profit or loss and other comprehensive income and statements of cash flows of the Target Company A for the year ended 31 December 2024 as extracted from the accountants’ report set out in Appendix II to this Circular; (iii) the Target Company B’s audited statements of financial position as at 31 December 2024, the audited statements of profit or loss and other comprehensive income and statements of cash flows of the Group for the year ended 31 December 2024 as extracted from the accountants’ report set out in Appendix II to this Circular; and (iv) the Target Company C’s audited statements of financial position as at 31 December 2024, the audited statements of profit or loss and other comprehensive income and statements of cash flows of the Group for the year ended 31 December 2024 as extracted from the accountants’ report set out in Appendix II to this Circular and adjusted on a pro forma basis to reflect the effects of Proposed Acquisition of A, B, C, and Parking Spaces.

The Unaudited Pro Forma Financial Information is based on a number of assumptions, estimates and currently available information. Because of its hypothetical nature, it may not give a true picture of the financial position of the Enlarged Group had the Proposed Acquisition A, B, C and the Target Parking Spaces been completed as at 31 December 2024 to or at any future dates, and it may not give a true picture of the financial performance or cash flows of the Enlarged Group had the Acquisition A,B and C and the Target Parking Spaces been completed as at 1 January 2024 or for any future periods, whichever are applicable.

The Unaudited Pro Forma Financial Information should be read in conjunction with the consolidated financial statements of the Group as set out in the published annual report of the Company for the year ended 31 December 2024, the accountants report of consolidated financial information of Target Company A, B and C as set forth in the Appendix II to this Circular respectively and other information included elsewhere in this Circular.

8. The adjustment represent the estimated professional fees and transaction costs of approximately RMB1,110,000 payable by the Company in connection with the Proposed Acquisition A,B,C and Parking Spaces, which are subject to change and assumed to be due upon completion.
9. The above adjustments are not expected to have a continuing effect on the unaudited pro forma consolidated statement of profit or loss and other comprehensive income and unaudited pro forma consolidated statement of cash flows of the Enlarged Group.

The following is the text of a report received from the reporting accountants of the Company, CCTH CPA Limited, Certified Public Accountants, Hong Kong, prepare for the purpose of incorporation in this circular, in respect of the unaudited pro forma financial information of the Enlarged Group.

INDEPENDENT REPORTING ACCOUNTANTS' ASSURANCE REPORT ON THE COMPILATION OF PRO FORMA FINANCIAL INFORMATION

To the Directors of Redsun Services Group Limited

We have completed our assurance engagement to report on the compilation of pro forma financial information of Redsun Services Group Limited (the “**Company**”) and its subsidiaries (hereinafter collectively referred to as the “**Group**”) by the directors of the Company (the “**Directors**”) for illustrative purposes only. The pro forma financial information consists of the pro forma consolidated statement of financial position as at 31 December 2024, the pro forma statement of profit or loss and other comprehensive income for the year ended 31 December 2024, the pro forma statement of cash flows for the year ended 31 December 2024 and related notes as set out on pages III-1 to III-9 of the circular dated 30 April 2025 (the “**Circular**”) issued by the Company (the “**Unaudited Pro Forma Financial Information**”) in connection with the proposed mandate in relation to the proposed very substantial acquisitions (the “**Proposed Acquisitions**”). The applicable criteria on the basis of which the Directors have compiled the pro forma financial information are described on Appendix III of the Circular.

The Unaudited Pro Forma Financial Information has been compiled by the Directors to illustrate the impact of the Proposed Acquisitions on the Group’s financial position as at 31 December 2024 as if the Proposed Acquisitions had taken place on 31 December 2024 and the Group’s financial performance and cash flows for the year ended 31 December 2024 as if the Proposed Acquisitions had taken place at 1 January 2024. As part of this process, information about the Group’s financial position as at 31 December 2024, Group’s financial performance and cash flows for the year ended 31 December 2024 has been extracted by the Directors from the Group’s 2024 annual report has been published, which included the financial statements for the year ended 31 December 2024.

Directors’ Responsibilities for the Unaudited Pro Forma Financial Information

The Directors are responsible for compiling the Unaudited Pro Forma Financial Information in accordance with paragraph 4.29 of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the “**Listing Rules**”) and with reference to Accounting Guideline 7 “Preparation of Pro Forma Financial Information for Inclusion in Investment Circulars” (“**AG 7**”) issued by the Hong Kong Institute of Certified Public Accountants (the “**HKICPA**”).

Our Independence and Quality Management

We have complied with the independence and other ethical requirements of the “Code of Ethics for Professional Accountants” issued by the HKICPA, which is founded on fundamental principles of integrity, objectivity, professional competence and due care, confidentiality and professional behavior.

Our firm applies Hong Kong Standard on Quality Management 1 “Quality Management for Firms that Perform Audits and Reviews of Financial Statements, and Other Assurance and Related Services Engagements” which requires the firm to design, implement and operate a system of quality management including policies or procedures regarding compliance with ethical requirements, professional standards and applicable legal and regulatory requirements.

Reporting Accountants’ Responsibilities

Our responsibility is to express an opinion, as required by paragraph 4.29(7) of the Listing Rules, on the Unaudited Pro Forma Financial Information and to report our opinion to you. We do not accept any responsibility for any reports previously given by us on any financial information used in the compilation of the Unaudited Pro Forma Financial Information beyond that owed to those to whom those reports were addressed by us at the dates of their issue.

We conducted our engagement in accordance with Hong Kong Standard on Assurance Engagements 3420 “Assurance Engagements to Report on the Compilation of Pro Forma Financial Information Included in a Prospectus” issued by the HKICPA. This standard requires that the reporting accountants plan and perform procedures to obtain reasonable assurance about whether the Directors have compiled the Unaudited Pro Forma Financial Information in accordance with paragraph 4.29 of the Listing Rules and with reference to AG 7 issued by the HKICPA.

For purposes of this engagement, we are not responsible for updating or reissuing any reports or opinions on any historical financial information used in compiling the Unaudited Pro Forma Financial Information, nor have we, in the course of this engagement, performed an audit or review of the financial information used in compiling the Unaudited Pro Forma Financial Information.

The purpose of Unaudited Pro Forma Financial Information included in the Circular is solely to illustrate the impact of the Proposed Acquisitions on unadjusted financial information of the Group as if the Proposed Acquisitions had been undertaken at an earlier date selected for purposes of the illustration. Accordingly, we do not provide any assurance that the actual outcome of the Proposed Acquisitions would have been as presented.

A reasonable assurance engagement to report on whether the Unaudited Pro Forma Financial Information has been properly compiled on the basis of the applicable criteria involves performing procedures to assess whether the applicable criteria used by the Directors in the compilation of the Unaudited Pro Forma Financial Information provide a reasonable basis for presenting the significant effects directly attributable to the Proposed Acquisitions, and to obtain sufficient appropriate evidence about whether:

- the related pro forma adjustments give appropriate effect to those criteria; and
- the Unaudited Pro Forma Financial Information reflects the proper application of those adjustments to the unadjusted financial information.

The procedures selected depend on the reporting accountants' judgment, having regard to the reporting accountants' understanding of the nature of the Group, the Proposed Acquisitions in respect of which the Unaudited Pro Forma Financial Information has been compiled, and other relevant engagement circumstances.

The engagement also involves evaluating the overall presentation of the Unaudited Pro Forma Financial Information.

We believe that the evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Opinion

In our opinion:

- (a) the Unaudited Pro Forma Financial Information has been properly compiled on the basis stated;
- (b) such basis is consistent with the accounting policies of the Group; and
- (c) the adjustments are appropriate for the purposes of the Unaudited Pro Forma Financial Information as disclosed pursuant to paragraph 4.29(1) of the Listing Rules.

FINANCIAL REVIEW

Revenue

During the Reporting Period, the Group's revenue amounted to RMB1,103.1 million, representing a decrease of 2.4% from RMB1,130.0 million for the corresponding period in 2021. The decrease was mainly attributable to the decrease in the Group's revenue from providing value-added services to non-property owners and community value-added services.

Property management services

During the Reporting Period, the Group's revenue from providing property management services amounted to RMB834.7 million, representing an increase of 10.8% from RMB753.6 million for the corresponding period in 2021. This was mainly attributable to the rapid increase in total GFA under management in line with the Group's business expansion.

Value-added services to non-property owners

During the Reporting Period, the Group's revenue from value-added services to non-property owners amounted to RMB124.6 million, representing a decrease of 30.9% from RMB180.3 million for the corresponding period in 2021. The decrease in revenue from value-added services to non-property owners was mainly attributable to the decrease of sales venue projects served by the Group.

Community value-added services

During the Reporting Period, the Group's revenue from community value-added services amounted to RMB143.8 million, representing a decrease of 26.7% from RMB196.1 million for the corresponding period in 2021. During the Reporting Period, the decrease in revenue from community value-added services was mainly attributable to the decrease in revenue from sales of parking spaces.

Cost of sales and services

During the Reporting Period, the Group's cost of sales and services amounted to RMB846.8 million, representing an increase of approximately 4.6% from RMB809.6 million for the corresponding period in 2021. This was mainly attributable to the increase in sub-contracting cost as a result of the expansion of operation scale.

Gross profit

As a result of the aforementioned key factors, the Group's gross profit decreased by approximately 20.0% from RMB320.4 million for the year ended 31 December 2021 to RMB256.4 million for the year ended 31 December 2022. The decrease was mainly attributable to a decrease in revenue from providing value-added services to non-property owners and community value-added services.

The Group's gross profit margin by business lines is set forth below:

	For the year ended 31 December	
	2022	2021
Property management services	22.2%	25.6%
Value-added services to non-property owners	16.6%	20.4%
Community value-added services	35.0%	46.4%
Total	23.2%	28.4%

During the Reporting Period, the Group's gross profit margin was 23.2%, representing a decrease of 5.2 percentage points from 28.4% for the corresponding period in 2021. This was mainly attributable to the decrease in the gross profit margin of value-added services to non-property owners and community value-added services.

The gross profit margin of property management services was 22.2%, representing a decrease of 3.4 percentage points from 25.6% for the corresponding period in 2021. The number of projects under management by the Group continued to increase, and the gross profit margin of the period decreased due to the large investment in the costs of the new projects in the early stage of taking over.

The gross profit margin of value-added services to non-property owners was 16.6%, representing a decrease of 3.8 percentage points from 20.4% for the corresponding period in 2021. This was mainly attributable to the decrease in the gross profit margin of sales assistance services provided to property developers due to the impact of the real estate industry.

The gross profit margin of community value-added services was 35.0%, representing a decrease of 11.4 percentage points from 46.4% for the corresponding period in 2021. This was mainly attributable to the decrease in revenue from sales of parking spaces, which was a business with relatively higher gross profit margin, during the Reporting Period.

Other income and other net income

During the Reporting Period, the Group's other income and other net income amounted to RMB16.8 million, compared to RMB11.2 million for the corresponding period in 2021, mainly attributable to the increase in government grants received in the period.

Administrative expenses

During the Reporting Period, the Group's administrative expenses amounted to RMB132.7 million, representing a decrease of approximately 1.6% from RMB134.9 million for the corresponding period in 2021. This was mainly attributable to the upgrade of management system and reinforcement of cost control by the Group.

Net impairment losses on financial assets

The Group's net impairment losses on financial assets primarily included the impairment allowance for trade receivables and other receivables in accordance with the accounting policy. During the Reporting Period, the Group's net impairment losses on financial assets amounted to RMB7.9 million, as compared to RMB2.9 million for the corresponding period in 2021, which was mainly due to the increased trade receivables as a result of the increase in business scale.

Profit before income tax expense

During the Reporting Period, the Group's profit before income tax expense amounted to RMB127.9 million, representing a decrease of approximately 31.6% from RMB186.9 million for the corresponding period in 2021.

Income tax expenses

During the Reporting Period, the Group's income tax expense amounted to RMB34.1 million, representing a decrease of approximately 29.9% from RMB48.6 million for the corresponding period in 2021, which was mainly due to the decrease in profit before tax.

Liquidity, reserves and capital structure

The Group maintained a solid financial position during the Reporting Period. As at 31 December 2022, the current assets amounted to RMB1,295.3 million, representing an increase as compared to RMB975.5 million as at 31 December 2021. The Group's cash and cash equivalents were mainly denominated in RMB and amounted to RMB545.3 million, representing a decrease of 21.8% from RMB697.6 million as at 31 December 2021.

As at 31 December 2022, the Group's total equity amounted to RMB890.2 million, representing an increase of 9.6% from RMB812.3 million as at 31 December 2021, which was mainly due to the growth resulting from operating profit.

The Group actively reviews and manages its capital structure on a regular basis to maintain a balance between the relatively high returns to the owners of the Group and possible high level of borrowings and maintains the advantages and security of a sound capital position. The Group also makes adjustments to the capital structure in light of changes in economic conditions.

Trade receivables

The Group's trade receivables primarily include receivables from customers for property management services and community value-added services. As at 31 December 2022, the Group's trade receivables amounted to RMB191.0 million, representing an increase of approximately 56.3% from RMB122.2 million as at 31 December 2021, which was mainly due to increase in the number of projects under management by the Group and the lower overall collection rate of newly taken-over projects.

Prepayments, other receivables and other assets

The Group's prepayments, other receivables and other assets primarily consist of prepayments on behalf of customers to utility suppliers, consideration receivables from disposal of subsidiaries, other deposits, amounts due from third parties and other tax recoverable. As at 31 December 2022, the Group's prepayments, deposits and other receivables amounted to RMB110.1 million, representing an increase of approximately 97.0% from RMB55.9 million as at 31 December 2021, primarily due to the increase of RMB30.18 million in consideration receivables resulting from the disposals of Gaoli Property and Jiangsu Gaoli Meijia Property and the increase in prepayments on behalf of customers to utility suppliers resulting from the increase in the number of projects under management.

Trade payables

The Group's trade payables mainly comprise amounts due to subcontractors of property management services. As at 31 December 2022, the Group's trade payables amounted to RMB151.1 million, representing an increase of approximately 101.5% from RMB75.0 million as at 31 December 2021, which was mainly due to the increase in the number of projects under management by the Group, resulting in an expansion of the corresponding outsourcing scale, and the increased credit periods of suppliers.

Contract liabilities

The Group's contract liabilities mainly represent the advance payments made by customers while our underlying services are yet to be provided. As at 31 December 2022, the Group's contract liabilities amounted to RMB227.5 million, representing an increase of approximately 25.8% from RMB180.9 million as at 31 December 2021, which was mainly due to the continuous growth in the number of property projects under management as a result of the Group's business expansion.

Other payables and accruals

The Group's other payables and accruals primarily comprise payroll and welfare payable to our employees, receipts on behalf of community residents for utilities, business tax and surcharges, and other payables. As at 31 December 2022, the Group's other payables and accruals amounted to RMB179.3 million, representing a decrease of approximately 10.3% from RMB200.0 million as at 31 December 2021, which was mainly due to the adoption of a series of cost reduction and efficiency enhancement measures as well as continuous improvement in management efficiency per capita by the Group.

Contingent liabilities

As at 31 December 2022, the Group did not have material contingent liabilities or guarantees.

Exposure to Foreign Exchange Risk

The Group primarily operates in the PRC and the majority of transactions were denominated and settled in RMB. The Group will continue to monitor foreign exchange activities and safeguard the cash value of the Group with its best efforts.

Material Investments, Acquisitions and Disposals

On 25 July 2022, Hong Life Property Services Management Co., Ltd. ("**Hong Life Property Management**", an indirect wholly-owned subsidiary of the Company), Gaoli Holdings Group Co., Ltd. ("**Gaoli Holdings**") and Nanjing Gaoli Property Management Co., Ltd. ("**Gaoli Property**") and Jiangsu Gaoli Meijia Property Co., Ltd. ("**Jiangsu Gaoli Meijia**") entered into an equity transfer agreement, pursuant to which Gaoli Holdings agreed to acquire, and Hong Life Property Management agreed to dispose of, 80% of the equity interest in each of Gaoli Property and Jiangsu Gaoli Meijia for a consideration of RMB73,536,000. Please refer to the announcement of the Company dated 25 July 2022 for further details.

Save as the aforementioned, there was no other material investment, acquisition and disposal of subsidiaries, associates or joint ventures by the Group during the Reporting Period.

Employment and Remuneration Policies

As of 31 December 2022, the Group had 3,446 employees in total, of which 2,796 employees were engaged in property management and related services for residential properties, 328 employees were engaged in property management and related services for commercial properties and 322 employees were engaged in property management and related services for public construction properties. The emolument of the employees of the Group is mainly determined based on their duties, performance and the prevailing market level in the respective regions. The Group has formulated a systematic and market-competitive employee incentive plan and a comprehensive talent cultivation scheme based on its business to attract and retain talents through offering competitive salary packages, comprehensive talent training strategies, internal promotion system and a caring corporate culture.

In addition, focusing on the entire process of talent cultivation and development, the Group has also formulated the systematic “five-talent scheme”, for enhancing the quality of talents and broadening its pool of talents. The Group has designed the “leadership scheme”, “brigadier scheme”, “new manager”, “excellent manager” and “management trainee programme” for the key talents, as well as established “service capability nurturing center” to cultivate “Hong Elite”, “Redsun Housekeeper” and “Hong Master” for enhancing capabilities of the Company’s customer services, in which systematic arrangements are implemented to provide the employees of the Group with clear development path and secure the demand for talents in different business segments and levels.

The Group believes that talent cultivation scheme of the Group will enhance team building, improve team capability, and provide talent pipelines for the business development of the Group.

For the year ended December 31, 2023

FINANCIAL REVIEW

Revenue

During the Reporting Period, the Group's revenue amounted to RMB1,063.6 million, representing a decrease of 3.6% from RMB1,103.1 million for the corresponding period in 2022. The decrease was mainly attributable to the decrease in the Group's revenue from providing value-added services to non-property owners.

Property management services

During the Reporting Period, the Group's revenue from providing property management services amounted to RMB840.2 million, representing an increase of 0.7% from RMB834.7 million for the corresponding period in 2022. This was mainly attributable to the rapid increase in total GFA under management in line with the Group's business expansion.

Value-added services to non-property owners

During the Reporting Period, the Group's revenue from value-added services to non-property owners amounted to RMB66.9 million, representing a decrease of 46.3% from RMB124.6 million for the corresponding period in 2022. The decrease in revenue from value-added services to non-property owners was mainly attributable to the decrease of sales venue projects caused by the real estate projects being delivered one after another.

Community value-added services

During the Reporting Period, the Group's revenue from community value-added services achieved substantial growth, amounting to RMB156.6 million, representing an increase of 8.9% from RMB143.8 million for the corresponding period in 2022. During the Reporting Period, the increase in revenue from community value-added services was mainly attributable to the increase in revenue from project common area resource.

Cost of sales and services

During the Reporting Period, the Group's cost of sales and services amounted to RMB811.2 million, representing a decrease of approximately 4.2% from RMB846.8 million for the corresponding period in 2022. This was mainly attributable to the decrease in staff cost and sub-contracting cost.

Gross profit

As a result of the aforementioned key factors, the Group's gross profit decreased by approximately 1.6% from RMB256.4 million for the year ended 31 December 2022 to RMB252.4 million for the year ended 31 December 2023. The decrease was mainly attributable to a decrease in revenue from providing value-added services to non-property owners.

The Group's gross profit margin by business lines is set forth below:

	For the year ended 31 December	
	2023	2022
Property management services	22.3%	22.2%
Value-added services to non-property owners	15.8%	16.6%
Community value-added services	35.1%	35.0%
	<hr/>	<hr/>
Total	<u>23.7%</u>	<u>23.2%</u>

During the Reporting Period, the Group's gross profit margin was 23.7%, representing an increase of 0.5 percentage point from 23.2% for the corresponding period in 2022. This was mainly attributable to the increase in the gross profit margin of property management services and community value-added services.

The gross profit margin of property management services was 22.3%, representing an increase of 0.1 percentage point from 22.2% for the corresponding period in 2022. This was mainly attributable to the gross profit margin of the period increased due to the decrease in costs of project outsourcing and energy consumption during the Reporting Period.

The gross profit margin of value-added services to non-property owners was 15.8%, representing a decrease of 0.8 percentage point from 16.6% for the corresponding period in 2022. This was mainly attributable to the decrease in the gross profit margin of sales assistance services provided to property developers by the Group due to the impact of the real estate industry.

The gross profit margin of community value-added services was 35.1%, representing an increase of 0.1 percentage point from 35.0% for the corresponding period in 2022. This was mainly attributable to the increase in the gross profit margin due to the decrease of costs in parking spaces sales business of the Group during the Reporting Period.

Other income and other net income

During the Reporting Period, the Group's other income and other net income amounted to RMB9.7 million, compared to RMB16.8 million for the corresponding period in 2022, mainly attributable to the decrease in government grants received in the Reporting Period.

Administrative expenses

During the Reporting Period, the Group's administrative expenses amounted to RMB99.9 million, representing a decrease of approximately 24.7% from RMB132.7 million for the corresponding period in 2022. This was mainly attributable to the upgrade of management system and reinforcement of cost control by the Group.

Net impairment losses on financial assets

The Group's net impairment losses on financial assets primarily included the impairment allowance for trade receivables and other receivables in accordance with the accounting policy. During the Reporting Period, the Group's net impairment losses on financial assets amounted to RMB119.0 million, as compared to RMB7.9 million for the corresponding period in 2022, which was mainly due to the increase in impairment allowance for receivables from related parties during the period.

Profit before income tax expense

During the Reporting Period, the Group's profit before income tax expense amounted to RMB38.9 million, representing a decrease of approximately 69.6% from RMB127.9 million for the corresponding period in 2022.

Income tax expenses

During the Reporting Period, the Group's income tax expense amounted to RMB24.7 million, representing a decrease of approximately 27.6% from RMB34.1 million for the corresponding period in 2022, which was mainly due to the decrease in profit before tax.

Liquidity, reserves and capital structure

The Group maintained a solid financial position during the Reporting Period. As at 31 December 2023, the current assets amounted to RMB1,406.5 million, representing an increase as compared to RMB1,295.3 million as at 31 December 2022. The Group's cash and cash equivalents were mainly denominated in RMB and amounted to RMB637.8 million as at 31 December 2023, representing an increase of 16.9% from RMB545.3 million as at 31 December 2022. The current ratio (current assets divided by current liabilities) of the Group as at 31 December 2023 was 1.88, representing a slight decrease from 2.07 as at 31 December 2022. The gearing ratio (total liabilities divided by total assets) as at 31 December 2023 was 47.0%, representing an increase of 3.3 percentage points from 43.7% as at 31 December 2022.

As at 31 December 2023, the Group's total equity amounted to RMB898.6 million, representing an increase of 0.9% from RMB890.2 million as at 31 December 2022, which was mainly due to the growth in operating profit.

As at 31 December 2023, the Group's interest-bearing bank borrowings amounted to RMB44.9 million, representing a decrease of 23.4% as compared to RMB58.6 million as at 31 December 2022.

The Group's total borrowings were repayable as follows:

	2023	2022
	<i>RMB'000</i>	<i>RMB'000</i>
Bank loans repayable:		
Within one year or on demand	13,791	13,822
In the second year	13,822	13,820
In the third to fifth years, inclusive	17,241	30,915
	<u>44,854</u>	<u>58,557</u>
Total	<u>44,854</u>	<u>58,557</u>

The Group's bank loans are secured by mortgages over 80% equity of Wuhan Huidehang Jingying Property Management Co., Ltd (an indirectly non-wholly owned subsidiary of the Company) and guaranteed by Nanjing Hong Yang Property Management Co., Ltd (an indirectly wholly-owned subsidiary of the Company).

As at 31 December 2023, all of the Group's bank borrowings bear interest at fixed interest rates.

The Group actively reviews and manages its capital structure on a regular basis to maintain a balance between the relatively high returns to the owners of the Group and possible high level of borrowings and maintains the advantages and security of a sound capital position. The Group also makes adjustments to the capital structure in light of changes in economic conditions.

Trade receivables

The Group's trade receivables primarily include receivables from customers for property management services and community value-added services. As at 31 December 2023, the Group's trade receivables amounted to RMB254.6 million, representing an increase of approximately 33.3% from RMB191.0 million as at 31 December 2022, which was mainly due to increase in the number of projects under management by the Group and the lower overall collection rate of newly taken-over projects.

Prepayments, other receivables and other assets

The Group's prepayments, other receivables and other assets primarily consist of prepayments on behalf of customers to utility suppliers, other deposits, amounts due from third parties and other tax recoverable. As at 31 December 2023, the Group's prepayments, deposits and other receivables amounted to RMB123.4 million, representing an increase of 12.0% from RMB110.1 million as at 31 December 2022, primarily due to the increase in prepayments on behalf of customers to utility suppliers resulting from the increase in the number of projects under management.

Trade payables

The Group's trade payables mainly comprise amounts due to subcontractors of property management services. As at 31 December 2023, the Group's trade payables amounted to RMB195.9 million, representing an increase of approximately 29.6% from RMB151.1 million as at 31 December 2022, which was mainly due to the increase in the number of projects under management by the Group, resulting in an expansion of the corresponding outsourcing scale.

Contract liabilities

The Group's contract liabilities mainly represent the advance payments made by customers while our underlying services are yet to be provided. As at 31 December 2023, the Group's contract liabilities amounted to RMB252.6 million, representing an increase of approximately 11.0% from RMB227.5 million as at 31 December 2022, which was mainly due to the continuous growth in the number of property projects under management as a result of the Group's business expansion.

Other payables and accruals

The Group's other payables and accruals primarily comprise payroll and welfare payable to our employees, receipts on behalf of community residents for utilities, business tax and surcharges, and other payables. As at 31 December 2023, the Group's other payables and accruals amounted to RMB204.7 million, representing an increase of approximately 14.2% from RMB179.3 million as at 31 December 2022, which was mainly due to the increase in receipts in advance on behalf of utility suppliers from customers resulting from the increase in the number of projects under management.

Contingent liabilities

As at 31 December 2023, the Group did not have material contingent liabilities or guarantees.

Exposure to Foreign Exchange Risk

The Group primarily operates in the PRC and the majority of transactions were denominated and settled in RMB. As at the date of this announcement, the Group has not entered into any hedging transactions to mitigate the exposure to foreign exchange risk. The Group will continue to monitor foreign exchange activities and safeguard the cash value of the Group with its best efforts.

Material Investments, Acquisitions and Disposals

There was no other material investment, acquisition and disposal of subsidiaries, associates or joint ventures by the Group during the Reporting Period.

Employment and Remuneration Policies

FINANCIAL REVIEW

Revenue

During the Reporting Period, the Group's revenue amounted to RMB1,026.7 million, representing a decrease of 3.6% from RMB1,063.6 million for the corresponding period in 2023. The decrease was mainly attributable to the decrease in the Group's revenue from providing value-added services to non-property owners.

Property management services

During the Reporting Period, the Group's revenue from providing property management services amounted to RMB822.7 million, representing a decrease of 2.1% from RMB840.2 million for the corresponding period in 2023. This was mainly attributable to the decrease in revenue from commercial property management services as a result of the Group's withdrawal from certain commercial property management projects.

Value-added services to non-property owners

During the Reporting Period, the Group's revenue from value-added services to non-property owners amounted to RMB42.7 million, representing a decrease of 36.2% from RMB66.9 million for the corresponding period in 2023. The decrease in revenue from value-added services to non-property owners was mainly attributable to the decrease of sales venue projects caused by the real estate projects being delivered one after another.

Community value-added services

During the Reporting Period, the Group's revenue from community value-added services achieved substantial growth, amounting to RMB161.2 million, representing an increase of 2.9% from RMB156.6 million for the corresponding period in 2023. During the Reporting Period, the increase in revenue from community value-added services was mainly attributable to the increase in revenue from project common area resource.

Cost of sales and services

During the Reporting Period, the Group's cost of sales and services amounted to RMB827.1 million, representing an increase of approximately 2.0% from RMB811.2 million for the corresponding period in 2023. This was mainly attributable to the increase in the number of projects under management of the Group and the increase in staff cost and sub-contracting cost.

Gross profit

As a result of the aforementioned key factors, the Group's gross profit decreased by approximately 20.9% from RMB252.4 million for the year ended 31 December 2023 to RMB199.6 million for the year ended 31 December 2024. The decrease was mainly attributable to a decrease in revenue from providing value-added services to non-property owners and the increase in the cost of property management services.

The Group's gross profit margin by business lines is set forth below:

	For the year ended 31 December	
	2024	2023
Property management services	17.8%	22.3%
Value-added services to non-property owners	10.9%	15.8%
Community value-added services	30.3%	35.1%
Total	19.4%	23.7%

During the Reporting Period, the Group's gross profit margin was 19.4%, representing a decrease of 4.3% from 23.7% for the corresponding period in 2023. This was mainly attributable to the withdrawal from certain commercial property management projects and the increase in staff cost and sub-contracting cost.

The gross profit margin of property management services was 17.8%, representing a decrease of 4.5% from 22.3% for the corresponding period in 2023. This was mainly attributable to the withdrawal from certain commercial property management projects and the increase in staff cost and sub-contracting cost during the Reporting Period.

The gross profit margin of value-added services to non-property owners was 10.9%, representing a decrease of 4.9% from 15.8% for the corresponding period in 2023. This was mainly attributable to the decrease in the gross profit margin of sales assistance services provided to property developers by the Group due to the impact of the real estate industry.

The gross profit margin of community value-added services was 30.3%, representing a decrease of 4.8% from 35.1% for the corresponding period in 2023. This was mainly attributable to the decrease in the gross profit margin due to the increase of costs in parking spaces sales business of the Group during the Reporting Period.

Other income and gains and losses

During the Reporting Period, the Group's other income and other net income amounted to RMB7.2 million, as compared to RMB9.7 million for the corresponding period in 2023, mainly attributable to the decrease in government grants received in the Reporting Period.

Administrative expenses

During the Reporting Period, the Group's administrative expenses amounted to RMB104.3 million, representing an increase of approximately 4.4% from RMB99.9 million for the corresponding period in 2023. This was mainly attributable to the increase of property management projects of the Group.

Net impairment losses on financial assets

The Group's net impairment losses on financial assets primarily include the impairment allowance for trade receivables and other receivables in accordance with the accounting policy. During the Reporting Period, the Group's net impairment losses on financial assets amounted to RMB62.5 million, as compared to RMB119.0 million for the corresponding period in 2023, which was mainly due to the decrease in impairment allowance for receivables from related parties during the period.

Profit before income tax expense

During the Reporting Period, the Group's profit before income tax expense amounted to RMB36.5 million, representing a decrease of approximately 6.2% from RMB38.9 million for the corresponding period in 2023.

Income tax expenses

During the Reporting Period, the Group's income tax expense amounted to RMB21.4 million, representing a decrease of approximately 13.4% from RMB24.7 million for the corresponding period in 2023, which was mainly due to the decrease in profit before tax.

Liquidity, reserves and capital structure

The Group maintained a solid financial position during the Reporting Period. As at 31 December 2024, the current assets amounted to RMB1,375.2 million, representing a decrease of 2.3% as compared to RMB1,406.5 million as at 31 December 2023. The Group's cash and cash equivalents were mainly denominated in RMB and amounted to RMB559.1 million as at 31 December 2024, representing a decrease of 12.3% from RMB637.8 million as at 31 December 2023. The current ratio (current assets divided by current liabilities) of the Group as at 31 December 2024 was 1.91, representing an increase from 1.88 as at 31 December 2023. The gearing ratio (total liabilities divided by total assets) as at 31 December 2024 was 45.2%, representing a decrease of 1.8% from 47.0% as at 31 December 2023.

As at 31 December 2024, the Group's total equity amounted to RMB909.1 million, representing an increase of 1.2% from RMB898.6 million as at 31 December 2023, which was mainly due to the growth in operating profit.

As at 31 December 2024, the Group's interest-bearing bank borrowings amounted to RMB31.1 million, representing a decrease of 30.7% as compared to RMB44.9 million as at 31 December 2023.

The Group's total borrowings were repayable as follows:

	2024	2023
	<i>RMB'000</i>	<i>RMB'000</i>
Bank loans repayable:		
Within one year or on demand	13,831	13,791
In the second year	17,235	13,822
In the third to fifth years, inclusive	—	17,241
	<hr/>	<hr/>
Total	<u>31,066</u>	<u>44,854</u>

The Group's bank loans are secured by mortgages over 80% equity of Wuhan Huidehang Jingying Property Management Co., Ltd. (an indirectly non-wholly owned subsidiary of the Company) and guaranteed by Nanjing Hong Yang Property Management Co., Ltd. (an indirectly wholly-owned subsidiary of the Company).

As at 31 December 2024, all of the Group's bank borrowings bear interest at fixed interest rates.

The Group actively reviews and manages its capital structure on a regular basis to maintain a balance between the relatively high returns to the owners of the Group and possible high level of borrowings and maintains the advantages and security of a sound capital position. The Group also makes adjustments to the capital structure in light of changes in economic conditions.

Trade receivables

The Group's trade receivables primarily include receivables from customers for property management services and community value-added services. As at 31 December 2024, the Group's trade receivables amounted to RMB289.9 million, representing an increase of approximately 13.9% from RMB254.6 million as at 31 December 2023, which was mainly due to the increase in the number of projects under management of the Group and the lower overall collection rate of newly taken-over projects.

Prepayments, other receivables and other assets

The Group's prepayments, other receivables and other assets primarily consist of prepayments on behalf of customers to utility suppliers, other deposits, amounts due from third parties and other tax recoverable. As at 31 December 2024, the Group's prepayments, deposits and other receivables amounted to RMB133.0 million, representing an increase of 7.8% from RMB123.4 million as at 31 December 2023, primarily due to the increase in prepayments on behalf of customers to utility suppliers resulting from the increase in the number of projects under management.

Trade payables

The Group's trade payables mainly comprise amounts due to subcontractors of property management services. As at 31 December 2024, the Group's trade payables amounted to RMB183.8 million, representing a decrease of approximately 6.2% from RMB195.9 million as at 31 December 2023, which was mainly due to the Group has shortened the account period of the contracted payables to improve the service quality of the project.

Contract liabilities

The Group's contract liabilities mainly represent the advance payments made by customers while our underlying services are yet to be provided. As at 31 December 2024, the Group's contract liabilities amounted to RMB258.6 million, representing an increase of approximately 2.4% from RMB252.6 million as at 31 December 2023, which was mainly due to the continuous growth in the number of property projects under management as a result of the Group's business expansion.

Other payables and accruals

The Group's other payables and accruals primarily comprise payroll and welfare payable to our employees, receipts on behalf of community residents for utilities, business tax and surcharges, and other payables. As at 31 December 2024, the Group's other payables and accruals amounted to RMB177.7 million, representing a decrease of approximately 13.2% from RMB204.7 million as at 31 December 2023, which was mainly due to the decrease in the number of employees and the balance of the payroll payable as a result of the Group upgrading the management system.

Contingent liabilities

As at 31 December 2024, the Group did not have material contingent liabilities or guarantees.

Exposure to Foreign Exchange Risk

The Group primarily operates in the PRC and the majority of transactions were denominated and settled in RMB. As at the date of this report, the Group has not entered into any hedging transactions to mitigate the exposure to foreign exchange risk. The Group will continue to monitor foreign exchange activities and safeguard the cash value of the Group with its best efforts.

Material Investments, Acquisitions and Disposals

There was no material investment, acquisition and disposal of subsidiaries, associates or joint ventures by the Group during the Reporting Period.

Employment and Remuneration Policies

As at 31 December 2024, the Group had 2,878 employees in total, of which 2,264 employees were engaged in property management and related services for residential properties, 251 employees were engaged in property management and related services for commercial properties and 363 employees were engaged in property management and related services for public construction properties.

The emolument of the employees of the Group is mainly determined based on their duties, performance and the prevailing market level in the respective regions. The Group has formulated a systematic and market-competitive employee incentive plan and a comprehensive talent cultivation scheme based on its business to attract and retain talents through offering competitive salary packages, comprehensive talent training strategies, internal promotion system and a caring corporate culture. In addition, focusing on the entire process of talent cultivation and development, the Group has also formulated the systematic talent cultivation scheme, for enhancing the quality of talents and broadening its pool of talents. The Group has designed three-tier talent team training projects, namely the “Brigadier Scheme (準將計劃)”, “Hong Elite Scheme (弘精英計劃)”, and “Hong Yao Scheme (弘耀計劃)” for the key talents which focused on individual development and practical courses, and assisted individuals in formulating development plans, and were conducted in conjunction with the “offline training + classes for the front line (線下集訓+送課去一線)” in an orderly manner. At the same time, we cultivated city companies “Hong Elite”, “Redsun Housekeeper” and “Hong Master” for enhancing capabilities of the Company’s customer services, in which systematic arrangements are implemented to provide the employees of the Group with clear development path and secure the demand for talents in different business segments and levels.

The Group believes that talent cultivation scheme of the Group will enhance team building, improve team capability, and provide talent pipelines for the business development of the Group.

The following sets forth the management discussion and analysis of Target Companies for the three years ended 2022, 2023 and 2024 (the “**Track Record Period**”) based on the financial information of the Target Companies contained in Appendix II to this circular.

Target Company A – Chengdu Hong Sheng He Ding Real Estate Development Co., Ltd.* (成都弘勝和鼎房地產開發有限公司)

BUSINESS AND FINANCIAL REVIEW

Target Company A is primarily engaged in real estate development and operation business in Pengzhou City, Sichuan Province, China. The names of the construction projects of Target Company A are Shangcheng Phase I and Shangcheng Phase II. The construction scale of the Shangcheng Phase I project is approximately 113,257 sq.m., mainly constructing 11 buildings of 4-18 floors of foreign-style houses and high-rise commodity housing and one level of basement. The construction scale of the Shangcheng Phase II project is approximately 101,682 sq.m., mainly constructing approximately 10 buildings of 4-18 floors of commodity housing and one level of basement. The final acceptance of Phase I was completed in September 2023, and a large number of houses were delivered in the same year, thus revenue from property sales was recognized starting in 2023. The final acceptance of Phase II was completed in October 2024, and the sold portion of the houses was delivered in the same year. As of 31 December 2024, Target Company A’s inventory of properties held for sale includes approximately 12,613 sq.m. of residential properties and 1,215 parking spaces, with a total appraised value of approximately RMB263 million, of which the appraised value of residential properties is approximately RMB186 million.

During the Track Record Period, Target Company A’s revenue primarily originated from proceeds of property sales. In 2022, 2023 and 2024, Target Company A’s revenue was RMB0, RMB651,128,000 and RMB486,684,000, respectively. Due to the delivery of a large number of houses in the Phase I in 2023, revenue recognition has begun. In 2024, due to the overall downturn in the real estate market, the area of transferred sales houses decreased, leading to a decline in revenue 25.3%.

Target Company A recorded net losses of RMB18,802,000, RMB9,586,000 and RMB17,371,000 in 2022, 2023 and 2024, respectively. The continuous loss was primarily due to the combined impact of the following factors:

- (i) Due to the overall downturn in the real estate market, the revenue from property sales was lower, resulting in less gross profit. The gross profits in 2022, 2023 and 2024 were RMB0, RMB56,221,000 and RMB34,520,000, respectively.
- (ii) The marketing expenses incurred to enhance property sales revenue were relatively high, amounting to RMB10,306,000, RMB23,184,000 and RMB10,991,000 in 2022, 2023 and 2024, respectively.
- (iii) The management expenses were relatively high, amounting to RMB14,812,000, RMB9,279,000 and RMB7,514,000 in 2022, 2023 and 2024, respectively; and

- (iv) Due to market influences, continuous impairment provisions on inventory reduced the profit amounts for 2022, 2023 and 2024 by RMB0, RMB7,782,000 and RMB17,721,000, respectively; and
- (v) The tax expenses were relatively high, amounting to RMB25,785,000 and RMB15,784,000 for 2023 and 2024, respectively.

LIQUIDITY, FINANCIAL RESOURCES AND CAPITAL STRUCTURE

Target Company A's principal financial instruments comprise amounts with fellow subsidiaries and related companies and advance from a non-controlling shareholder. The main purpose of these financial instruments is to raise finance for Target Company A's operations. Target Company A has various other financial assets and liabilities such as bank balances, financial assets included in prepayments, other receivables and other assets, trade and bills payables and financial liabilities included in other payables and accruals, which arise directly from its operations. As at 31 December 2022, 2023 and 2024, Target Company A recorded net current assets of approximately RMB167,603,000, RMB157,549,000 and RMB144,427,000, respectively. The decrease in net current assets was primarily due to a reduction in inventory.

The primary objectives of Target Company A's capital management are to safeguard its ability to continue as a going concern and to maintain healthy capital ratios in order to support its business and maximise shareholders' value. Target Company A monitors capital using a gearing ratio, which is net debt divided by the adjusted capital plus net debt. Net debt includes, trade and bills payables, other payables and accruals, lease liabilities and amounts due to fellow subsidiaries and related companies less cash and cash equivalents. Capital includes equity attributable to owners of the parent. The gearing ratios as at the end of the Relevant Periods were as follows:

	As at 31 December		
	2022	2023	2024
	<i>RMB'000</i>	<i>RMB'000</i>	<i>RMB'000</i>
Trade and bills payables	10,972	115,662	169,865

Capital and net debt	<u>316,772</u>	<u>358,291</u>	<u>379,076</u>
Gearing ratio	<u>43.6%</u>	<u>52.8%</u>	<u>60.0%</u>

CONTINGENT LIABILITIES

Target Company A provided guarantees in respect of mortgage facilities granted by certain banks to the purchasers of Target Company A's completed properties held for sale. Pursuant to the terms of the guarantee arrangements, in case of default on mortgage payments by the purchasers, Target Company A is responsible for repaying the outstanding mortgage principals together with any accrued interest and penalties owed by the defaulted purchasers to those banks.

Under the above arrangement, the related properties were pledged to the banks as collateral for the mortgage loans, and upon default on mortgage repayments by these purchasers, the banks are entitled to take over the legal titles and will realise the pledged properties through open auction.

Target Company A's guarantee period starts from the dates of grant of the relevant mortgage loans and ends upon the issuance and registration of property ownership certificates to the purchasers, which will generally be available within one to two years after the purchasers take possession of the relevant properties.

The fair value of the guarantees at initial recognition and the ECL allowance is not significant as the directors consider that in the event of default on payments, the net realisable value of the related properties can cover the repayment of the outstanding mortgage principal together with the accrued interest and penalties.

PLEDGE OF ASSETS

Interest-bearing bank borrowing was secured by Chongqing Bojing Mingxia Property Co., Ltd. (重慶柏景銘廈置業有限公司) and Target Company A's properties under development, during the year ended 31 December 2022, Target Company A has repaid the outstanding balance and the pledged assets are released.

As of 31 December 2024, Target Company A has no assets pledged.

EXPOSURE TO FLUCTUATIONS IN EXCHANGE RATES AND RELATED HEDGES

Target Company A primarily operates in China, therefore most of its revenue and expenses are denominated in Renminbi. The exchange of foreign currency for Renminbi is subject to the foreign exchange control rules and regulations promulgated by the Chinese government. Target Company A faces minimal exchange rate fluctuation risk. No financial instruments were used for hedging purposes.

MATERIAL INVESTMENT, ACQUISITION AND DISPOSAL

During the Track Record Period, Target Company A had no material investment, acquisition or disposal.

Target Company B – Suqian Tong Jin Hong Real Estate Co., Ltd.* (宿遷市通金弘置業有限公司)

BUSINESS AND FINANCIAL REVIEW

Target Company B is primarily engaged in real estate development and operation in Suqian City, Jiangsu Province, China. The name of Target Company B's construction project is Heyue Garden (和樾花園), with a total construction area of 461,441.7 sq.m., primarily constructing residential, commercial, and public building facilities, including a residential area of 344,503 square meters and a commercial building area of 2,500 sq.m. The project is developed in three phases, with construction areas of approximately 151,489 sq.m., 143,076 sq.m. and 163,938 sq.m., respectively. The final acceptance of Phase I and Phase II of the project were completed in July 2023 and July 2024, respectively. The Phase III of the project is currently under ongoing development. As of 31 December 2024, Target Company B held properties for sale including approximately 4,664 sq.m. of residential and commercial space and 906 parking spaces, with a total appraised value of approximately RMB85.17 million, of which the residential and commercial appraised value is approximately RMB39.60 million. Target Company B held properties under development with an appraised value of approximately RMB747 million.

During the Track Record Period, Target Company B's revenue primarily originated from proceeds of property sales. In 2022, 2023 and 2024, Target Company B's revenue was RMB0, RMB1,091,499,000 and RMB837,798,000, respectively. Due to the delivery of a large number of houses in Phase I of the project in 2023, revenue recognition has begun. In 2024, due to the overall downturn of the real estate market, the area of transferred sales housing decreased, leading to a decline in revenue 23.2%.

Target Company B's net profit in the financial statements in 2022, 2023 and 2024 were RMB-10,239,000, RMB117,495,000 and RMB-70,295,000, respectively. The change in net profit was primarily due to the combined impact of the following factors:

- (i) In 2022, the marketing expenses incurred to enhance property sales proceeds were relatively high, amounting to RMB10,972,000, resulting in a loss for the year.

- (ii) In 2023, due to the delivery of a large number of houses in Phase I, a substantial amount of revenue was recognized for the year, resulting in a high gross profit amounting to RMB167,564,000. After deducting tax expenses, the net profit in the financial statements increased significantly.
- (iii) In 2024, affected by the market, Target Company B's gross profit margin on property sales decreased significantly, achieving a gross profit of only RMB33,396,000. At the same time, an impairment provision for inventories amounting to RMB84,206,000 was made, resulting in a loss for the year.

LIQUIDITY, FINANCIAL RESOURCES AND CAPITAL STRUCTURE

Target Company B's principal financial instruments comprise amounts with shareholders and related companies and internal bearing bank borrowings. The main purpose of these financial instruments is to raise finance for Target Company B's operations. REDSUN PROPERTIES GROUP LIMITED
REDSUN SERVICES GROUP LIMITED

30 APRIL 2025

Dear Sir or Madam,

RE: VALUATION OF VARIOUS CAR PARKING SPACES (“CPS”) HELD BY REDSUN PROPERTIES GROUP LIMITED AND ITS SUBSIDIARIES, LOCATED IN THE PEOPLE’S REPUBLIC OF CHINA (THE “PROPERTY”)

INSTRUCTIONS

We refer to your instructions for us to value the property/property interests located in the People’s Republic of China (the “**PRC**”) to be held by REDSUN PROPERTIES GROUP LIMITED (the “**Company**”) and its subsidiaries (hereafter together referred to as the “**Group**”). We confirm that we have carried out inspections, made relevant enquires and searches and obtained such further information as we consider necessary for the purpose of providing you with our opinion of the market value of the property interests as at 28 February 2025 (the “**Valuation Date**”), for the purpose of incorporating in the document.

BASIS OF VALUATIONS

Our valuations are provided on the basis of market value and investment value.

Market value we would define as “the estimated amount for which an asset or liability should exchange on the valuation date between a willing buyer and a willing seller in an arm’s-length transaction after proper marketing and where the parties had each acted knowledgeably, prudently and without compulsion”.

Market value is understood as the value of an asset or liability estimated without regard to costs of sale or purchase (or transaction) and without offset for any associated taxes or potential taxes.

This estimate specifically excludes an estimated price inflated or deflated by special considerations or concessions granted by anyone associated with the sale, or any element of special value.

Investment value is understood as the value of an asset to a particular owner or prospective owner for individual investment or operational objectives. The investment value is a value specially designed for individual entities, reflecting the benefits obtained by the entity from holding assets (such as rental income), and therefore may not involve hypothetical transactions.

VALUATION STANDARDS

In valuing the property/property interests, we have fully complied with the latest edition of the Royal Institution of Chartered Surveyors (RICS) Global Valuation Professional Standards, incorporating the International Valuation Standards of the International Valuation Standards Council (IVSC), and the requirements met out in Chapter 5 and Practice Note 12 of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited.

QUALIFICATIONS OF THE VALUER

This valuation has been prepared by Kin Ming Woo James (James Woo) (RICS Registration No.: 0837243). James Woo is a Fellow member of the Royal Institution of Chartered Surveyors. James is an Executive Director of Valuation and Advisory Services, China at Colliers. He is suitably qualified to carry out the valuation and has over 26 years' experience in the valuation of properties of this magnitude and nature in China.

James Woo is acting as an independent valuer as defined in the latest "RICS Global Valuation Standards" published by the RICS, which incorporates with the IVS.

Neither the valuer nor Colliers are aware of any pecuniary interest or conflict that could reasonably be regarded as being capable of affecting the ability to give an unbiased and objective, opinion of the value of the property interests.

VALUATION APPROACHES

When valuing the property/property interests, we have valued by select appropriate methods based on the asset type, current conditions, ownership specifics outlined in PRC legal opinions.

In valuing the Property, we have categorized the CPS into three types according to their title ship described in the PRC legal opinion. CPS-A, CPS-B and CPS-C. CPS-A is defined as parking spaces with title ship that can be freely traded, CPS-B is defined as parking spaces lacking complete ownership, CPS-C is defined as Civil air defense parking spaces.

For CPS-A which with titleship that can be freely traded, the preferred valuation method is the market comparison approach assuming sale of each of these property/property interests in its existing state with the benefit of vacant possession by making reference to comparable sales transactions as available in the relevant market, subject to appropriate adjustments including but not limited to conditions, location, time and other relevant factors. Given that the property/property interests are carpark spaces, comparable sales transactions are frequent and information about such sale is readily available. We are therefore used Market Comparison Method which is in line with the market practice.

In cases where the parking space does not have titleship but has a history of usage rights transactions, and where the land transfer fees have been fully paid, the market comparison method is also applicable.

For parking spaces lacking complete ownership and where there has been no sale of usage rights, or if there are issues with the payment of land transfer fees or civil defense project, the income capitalization approach is utilized. This method capitalizes the existing rental income from all leasehold units over the remaining lease term, while vacant units are assumed to be rented at the market rate as of the valuation date. Upon the expiration of existing leases, each unit is assumed to be rented at the market rate on the valuation date and capitalized based on the remaining use term. The market value of the property/property interests thus equal to the sum of the capitalized value of the income from the leased units during their lease term, the appropriately deferred capitalized value of the income from the leased units (i.e., market rental income), and the capitalized value of the vacant units.

SOURCES OF INFORMATION

Although we have made independent enquires as much as possible, we have relied to a very considerable extent on the information provided by the Company and its legal advisor in respect of the titles of the property interests in the PRC. We also have accepted such information given to us as being true and correct for valuation purposes. This has included such matters as ownership title, gross floor areas, statutory notices, easements, tenure, joint leasing agreements, the identification of the property interests and all other relevant matters.

We have also been advised by the Company that no material factors or information have been omitted or withheld from the information supplied and consider that we have been provided with sufficient information to reach an informed view. We believe that the assumptions used in preparing our valuation are reasonable and have had no reason to doubt the truth and accuracy of the information provided to us by the Company which is material to the valuation.

TITLE DOCUMENTS

We have been provided with copies or extracts of some title documents relating to the property/property interests and have made relevant enquires where possible. Due to the nature of the land registration system in the PRC, however, we have not examined the original documents to verify the existing titles to the property/property interests in the PRC or any material encumbrances that might be attached to the property/property interests or any lease amendments. We have made assumptions that the full and proper ownership title of the Property has been obtained and all payable land premium or land-use rights fees have been fully settled.

We have relied on the advice given by the Company's legal adviser, Sichuan Puyi Law Firm (四川朴易律師事務所), regarding the titles of the property/property interests in the PRC. We do not accept liability for any interpretation that we have placed on such information, which is more properly placed within the sphere of the legal adviser.

All legal documents disclosed in this letter, the summary of values and the summary reports are for reference only. No responsibility is assumed for any legal matters concerning the legal title to the property interests set out in this letter, the summary of values and the valuation summary reports.

ASSUMPTIONS AND CAVEATS

Our valuations of the target property/property interests exclude an estimated price inflated or deflated by special terms or circumstances such as atypical financing, sale and leaseback arrangement, special considerations or concessions granted by anyone associated with the sale, or any element of value available only to a specific owner or purchaser.

We have conducted the valuation assuming:

- the information as set out in the section headed "Sources of Information" above about the titles of the Property provided by the Company and the Company's legal advisor, Sichuan Puyi Law Firm (四川朴易律師事務所) is true and correct;
- the Property is free from contamination and the ground conditions are satisfactory;
- the full and proper ownership title of the Property have been obtained, and all payable land premium or land-use rights fees have been fully settled;
- For portion of CPS-A, the information, that area of each CPS is approximately 13.5 sqm, provided by the Company or Group is true and correct.
- For CPS-B, the information, that area of each CPS is approximately 13.5 sqm, provided by the Company or Group is true and correct. Since the grant term for underground construction land use rights is generally 50 years, we have assumed that CPS-B has been granted a land use term of 50 years from the commencement date of the land use right;
- For CPS-C we have assume they have been granted for a land use term of 20 years since valuation date; For portion of CPS-C, the information, that area of each CPS is approximately 13.5 sqm, provided by the Company or Group is true and correct.
- all required approvals and certificates necessary for occupation and use of the Property has been duly obtained and are in full force and effect; and
- the Property can be freely transferred, mortgaged, sublet or otherwise disposed of in the market.

No allowance has been made in our valuations for any charges, mortgages or amounts owing on the property interests valued nor for any expenses or taxation which may be incurred in effecting a sale. Unless otherwise stated, it is assumed that all Properties are free of any encumbrances, restrictions and outgoings of an onerous nature which could affect their values.

SITE MEASUREMENT

We have not carried out on-site measurements to verify the correctness of the site and gross floor areas in respect of the Property but have assumed that the areas provided by the Company to us are true and correct in all respects. All documents and contracts have been used as reference only and all dimensions, measurements and areas are approximations.

SITE INSPECTION

We have inspected the Property exterior and, where possible, the interior of the Property upon the instruction received. No structural surveys or environmental assessments have been made, but in the course of our inspections, we did not note any serious defects. We are not, however, able to report whether the properties are free of rot, infestation or any other structural defects. No tests were carried out on any of the services. We have assumed such are in good order for the purpose of valuation.

Please be advised we have not carried out investigations to determine the suitability of the ground conditions and the services etc. for any future development. Our valuation has been prepared on the assumption that these aspects are satisfactory.

Site inspections of the Properties were *carried out by James Woo between 3 March 2025 to 7 March 2025.*

ESG CONSIDERATION

Where our advice is based on International Valuation Standards (IVS), we have had regard to i) those significant environmental, social and governance (ESG) factors which were readily apparent to us from our inspection of the property and ii) which we consider significantly impact our advice. This is a requirement of the IVS. In our advice we have endeavoured to analyse whether any significant ESG factors affect the value assessed. For your acknowledge, currently, we do not explicitly adjust valuations for ESG factors.

CURRENCY

Unless otherwise stated, all monetary figures stated in this report are in Renminbi (RMB).

We hereby certify that we have neither present nor a prospective interest in the properties or the values reported.

Our summary of values and valuation summary reports are attached hereto.

Yours faithfully,

For and on behalf of

Colliers Appraisal and Advisory Services Co., Ltd. (“Colliers”)

- xiii) We have been provided with a legal opinion on the Property prepared by the Client's PRC legal advisor, which contains, inter alia, the following information:

1. According to the confirmation from FoShan Hongsheng, the external promotional name of the Development is Benevolence Lake No.1 (博愛湖一號);
2. FoShan Hongsheng has obtained the Realty Title Certificate related to the land of the Benevolence Lake No.1 (博愛湖一號) project;
3. FoShan Hongsheng has obtained the necessary construction permits in accordance with the actual progress of development Benevolence Lake No.1 (博愛湖一號);
4. FoShan Hongsheng is entitled to pre-sell the in-progress buildings of Benevolence Lake No.1 (博愛湖一號) within the pre-sale scope specified in the "Pre-sale Permit".
5. According to the confirmation from FoShan Hongsheng, based on the current progress of the Benevolence Lake No.1 (博愛湖一號) project, it has not involved matters related to environmental impact assessment approval, civil air defense projects, fire safety approval and construction, and the corresponding approval and construction certificate documents have not been obtained.
6. Upon completion of construction in accordance with the approved construction documents and obtaining the full acceptance certificate as required by law, FoShan Hongsheng will apply for the relevant property rights documents in accordance with the relevant laws and regulations. Upon acceptance by the competent authority, there are no substantial legal obstacles to obtaining the corresponding property ownership certificates.
7. Regarding the CPS, as part of the Development, the titleship of CPS-A is clear, and no sealing or mortgage has been found. Foshan Hongsheng has the right to dispose of the parking space but should conform to the legal regulation that "community parking spaces should first meet the needs of owners" when disposing based on Article 276 of the Civil Code of the People's Republic of China and Article 54 of the Property Management Regulations of Guangdong Province.
8. Civil air defense parking spaces: As the project developer and investor, Foshan Hongsheng can obtain the usufructuary right to use civil air defense parking spaces. However, when disposing of such parking space usage rights, attention should be paid to completing the corresponding procedures.

According to our market research, the yield of comparable parking spaces in the vicinity ranges from 4.5% to 5.5%. As the CPS-C was vacant on the valuation date, we have capitalized the estimated rent that will be generated during the remaining period. In our valuation, we have adopted an average market rent of RMB321 per parking space and a capitalization rate of 5.0%. For tandem parking lots, the market rent mentioned above require an additional adjustment for the parking space size, which is 1.8 and for parking lots located on B2, the market rent mentioned above require an additional adjustment for the parking space location, which is 0.98.

- xi) Copies of instruments in respect of the status of title and grant of major approvals and licenses of the Property provided to us are as follows:

- xii) We have been provided with a legal opinion on the Property prepared by the Client's PRC legal advisor, which contains, inter alia, the following information:

1. According to the confirmation from Foshan Hongjian, the external promotional name of the Development is Hongyang Shan Xin Garden (弘陽山馨花園);
2. Foshan Hongjian has obtained the Realty Title Certificate related to the land of the Hongyang Shan Xin Garden (弘陽山馨花園) project;
3. Foshan Hongjian has obtained the necessary construction permits in accordance with the actual progress of development Hongyang Shan Xin Garden (弘陽山馨花園);
4. Foshan Hongjian is entitled to pre-sell the in-progress buildings of Hongyang Shan Xin Garden (弘陽山馨花園) within the pre-sale scope specified in the "Pre-sale Permit".
5. According to the confirmation from Foshan Hongjian based on the current progress of the Hongyang Shan Xin Garden (弘陽山馨花園) project, it has not involved matters related to environmental impact assessment approval, civil air defense projects, fire safety approval and construction, and the corresponding approval and construction certificate documents have not been obtained.
6. Upon completion of construction in accordance with the approved construction documents and obtaining the full acceptance certificate as required by law, Foshan Hongjian will apply for the relevant property rights documents in accordance with the relevant laws and regulations. Upon acceptance by the competent authority, there are no substantial legal obstacles to obtaining the corresponding property ownership certificates.
7. Regarding the CPS, as part of the Development, the titleship of CPS-A is clear, and no sealing or mortgage has been found. Foshan Hongjian has the right to dispose the parking space, but should conform to the legal regulation that "community parking spaces first meet the needs of owners" when disposing.
8. CPS-C: As the project developer and investor, Foshan Hongjian can obtain the right to use civil air defense parking spaces based on the nature of usufructuary rights. However, when disposing of such parking space use rights, attention should be paid to completing the corresponding procedures.

ix) Pursuant to the Business License – No. 91360111MA38CNHJ10 dated 13 February 2019, Jiangxi Xinyue has been registered.

x) The general description and market information of the property are summarized below:

Location	The Property is located at East to Planning Road, south to Xi'an Road, west to Shanghai Road, north to Jiangxi Investment and Development Company, Qingshanhu District, Nanchang City, Jiangxi Province, PRC
Transportation	Nanchang Changbei International Airport is located approximately 21.1 kilometres away from the Property. Also, taxi and bus are readily available in the locality.
Nature of Surrounding Area	The subject area is a predominately residential area.

xi) Rental transactions that had been selected include the CPS-B ranges from RMB270 to RMB330 per lot per month and the CPS-C ranges from RMB270 to RMB330 per lot per month. According to our market research, the yield of comparable parking spaces in the vicinity ranges from 4.5% to 5.5%, as the CPS was vacant on the valuation date. For CPS-B, we have capitalized the estimated future rental income to be generated over the remaining period, which has an approximate duration of 43.99 years and terminates on 13 February 2069. In our valuation, we have adopted an average market rent of RMB296 per parking space and a capitalization rate of 4.75%. For mini parking lots, the prices mentioned above require an additional adjustment for the parking space size, which is 0.85. For tandem parking lots, the prices mentioned above require an additional adjustment for the parking space size, which is 1.35. For accessible parking lots, the prices mentioned above require an additional adjustment for the parking space size is 1.05.

xiii) We have been provided with a legal opinion on the Property prepared by the Client's PRC legal advisor, which contains, inter alia, the following information:

1. According to the confirmation from Changshu Hongrun, the external promotional name of the Property is Hefeng Architecture in Xinhua Road (新華路和風名築);
2. Changshu Hongrun has obtained the real estate ownership certificate related to the land of the Hefeng Architecture in Xinhua Road (新華路和風名築) project;.
3. Changshu Hongrun has obtained the necessary construction permits in accordance with the actual progress of development Hefeng Architecture in Xinhua Road (新華路和風名築);
4. According to the confirmation from Changshu Hongrun, based on the current progress of the Hefeng Architecture in Xinhua Road (新華路和風名築) project, it has not involved matters related to environmental impact assessment approval, civil air defense projects, fire safety approval and construction, and the corresponding approval and construction certificate documents have not been obtained.
5. Upon completion of construction in accordance with the approved construction documents and obtaining the full acceptance certificate as required by law, Changshu Hongrun will apply for the relevant property rights documents in accordance with the relevant laws and regulations. Upon acceptance by the competent authority, there are no substantial legal obstacles to obtaining the corresponding property ownership certificates.
6. Based on the information disclosed to our firm by Changshu Hongrun and as set forth in this legal opinion, regarding CPS-B spaces that have not been registered for property rights: According to the local policies of Suzhou City and the statements and confirmations provided by Changshu Hongrun, the target CPS-B spaces are classified as non-certifiable spaces within the planning (not shared by all property owners), and these spaces have not been included in the communal area, nor have their construction costs been apportioned or agreed to be attributed to the property owners. There are no encumbrances such as seizures or mortgages on these spaces. Since the property rights of these parking spaces cannot be ascertained through the real estate registration center, and based on the premise that the aforementioned confirmations by Changshu Hongrun are true, the original ownership of these CPS-B spaces should belong to Changshu Hongrun, which has the right to dispose of the target parking spaces. However, when disposing of them, attention must be paid to the legal stipulation that "parking spaces within the residential community must first satisfy the needs of the property owners."

ix) Pursuant to the Business License – No. 913201007217014139 dated 19 April 2024, Hongyang Land (Group) Co., Ltd. (弘陽置地(集團)有限公司) (“**Hongyang Land**”) has been registered.

The general description and market information of the property are summarized below:

Location	The Property is located at No.48, Daqiao North Road, Pukou District, Nanjing City, Jiangsu Province, PRC
Transportation	Nanjing Lukou international Airport is located approximately 56 kilometres away from the Property. Also, taxi and bus are readily available in the locality.
Nature of Surrounding Area	The subject area is a predominately residential area.

x) In assessing the investment value of CPS-B, we have made reference to rental prices of similar CPS in the vicinity. Comparable are located in the same district with similar conditions, size and tenure, etc.

Rental transactions that had been selected include the CPS-B ranges from RMB130 to RMB190 per lot per month. According to our market research, the yield of comparable parking spaces in the vicinity ranges from 4.0% to 5.0%, As the CPS-B was vacant on the valuation date. We have capitalized the estimated future rental income to be generated over the remaining period, which has an approximate duration of 35.17 years and terminates on 21 April 2060. In our valuation, we have adopted an average market rent of RMB150 per parking space and a capitalization rate of 4.5%.

- xi) Copies of instruments in respect of the status of title and grant of major approvals and licenses of the Property provided to us are as follows:

Document/Approval	Availability
State-owned Land-use Rights Grant Contract	Yes
Realty Title Certificate	Yes
Construction Land Planning Permit	Yes
Construction Work Planning Permit	Yes
Construction Work Commencement Permit	Yes
Commodity Housing Pre-sale Permit	Yes
Construction Work Completion Certified Report	Yes
Business License	Yes

- xii) We have been provided with a legal opinion on the Property prepared by the Client's PRC legal advisor, which contains, inter alia, the following information:

1. According to the confirmation from Hongyang Land, the external promotional name of the Property is Sunrise Love City 6 (旭日愛上城6區);
2. Hongyang Land has obtained the Realty Title Certificate related to the land of the Sunrise Love City 6 (旭日愛上城6區) project;
3. Hongyang Land has obtained the necessary construction permits and construction work completion certificates in accordance with the actual progress of development Sunrise Love City 6 (旭日愛上城6區);
4. Upon completion of construction in accordance with the approved construction documents and obtaining the full acceptance certificate as required by law, Hongyang Land will apply for the relevant property rights documents in accordance with the relevant laws and regulations. Upon acceptance by the competent authority, there are no substantial legal obstacles to obtaining the corresponding property ownership certificates.
5. Regarding the CPS-B: for which title registration has not been made: as the title of such part of the parking spaces cannot be found out through the Real Estate Registration Center, Hongyang Land confirmed that CPS-B belong to the non-licensable parking spaces in the planning (not the parking spaces for the common use of all the owners), and that the said part of the parking spaces have not been counted in the common shared area, and that the cost of construction has not been shared or has been agreed to be vested in the owners. This part of the parking space is not included in the apportioned area, and the construction cost has not been apportioned or agreed to be attributed to the owners, and there is no restriction of rights such as seizure or mortgage. Based on the premise that the confirmation of Honyang Land, Hongyang Land has the right to dispose of the parking space but should conform to the legal regulation that "community parking spaces should first meet the needs of owners" when disposing based on Article 276 of the Civil Code of the People's Republic of China and Article 63 of the Property Management Regulations of Jiangsu Province.

- xiii) We have been provided with a legal opinion on the Property prepared by the Client's PRC legal advisor, which contains, inter alia, the following information:

1. According to the confirmation from Hongyang Zhiye, the external promotional name of the Property is Shangshui Garden of Elegance (上水雅苑).
2. Hongyang Zhiye has obtained the real estate ownership certificate related to the land of the Shangshui Garden of Elegance (上水雅苑) project.
3. Hongyang Zhiye has obtained the necessary construction permits in accordance with the actual progress of development Shangshui Garden of Elegance (上水雅苑).
4. Hongyang Zhiye is entitled to pre-sell the in-progress buildings of Shangshui Garden of Elegance (上水雅苑) within the pre-sale scope specified in the "Pre-sale Permit".
5. According to the confirmation from Hongyang Zhiye, based on the current progress of the Hongyang Zhiye project, it has not involved matters related to environmental impact assessment approval, civil air defense projects, fire safety approval and construction, and the corresponding approval and construction certificate documents have not been obtained.
6. Upon completion of construction in accordance with the approved construction documents and obtaining the full acceptance certificate as required by law, Hongyang Zhiye will apply for the relevant property rights documents in accordance with the relevant laws and regulations. Upon acceptance by the competent authority, there are no substantial legal obstacles to obtaining the corresponding property ownership certificates.
7. Based on all the information disclosed by Hongyang Zhiye to this office and in this legal opinion, regarding the underground parking spaces that have not been registered for property rights: according to local policies in Suzhou and Hongyang Zhiye's statements and confirmations, the target parking space belongs to the planned non certified parking space (not shared by all owners), and this part of the parking space is not included in the shared area, nor has the construction cost been shared or agreed to belong to the owners. There is no situation of sealing, mortgage or other rights restrictions. Due to the inability to inquire about the ownership of the parking spaces through the real estate registration center, based on the confirmation of Hongyang Zhiye's authenticity, the original ownership of these parking spaces should belong to Hongyang Zhiye. Hongyang Zhiye has the right to dispose of the target parking spaces, but should pay attention to the legal regulation that "residential parking spaces first meet the needs of owners" when disposing of them.

xi) In assessing the investment value of CPS-B, we have made reference to rental prices of similar CPS in the vicinity. Comparable are located in the same district with similar conditions, size and tenure, etc.

Rental transactions that had been selected include the CPS-B ranges from RMB220 to RMB230 per lot per month. According to our market research, the yield of comparable parking spaces in the vicinity ranges from 4.0% to 5.0%. As the CPS-B was vacant on the valuation date. We have capitalized the estimated future rental income to be generated over the remaining period, which has an approximate duration of 41.81 years and terminates on 12 December 2066. In our valuation, we have adopted an average market rent of RMB222 per parking space and a capitalization rate of 4.5%.

xii) Copies of instruments in respect of the status of title and grant of major approvals and licenses of the Property provided to us are as follows:

Document/Approval	Availability
State-owned Land-use Rights Grant Contract	Yes
Realty Title Certificate	Yes
Construction Land Planning Permit	Yes
Construction Work Planning Permit	Yes
Construction Work Commencement Permit	Yes
Commodity Housing Pre-sale Permit	Yes
Construction Work Completion Certified Report	Yes
Business License	Yes

xiii) We have been provided with a legal opinion on the Property prepared by the Client's PRC legal advisor, which contains, inter alia, the following information:

1. According to the confirmation from Hongyang Touzi, the external promotional name of the Property is Upper Sunny Master piece Garden (上熙名苑);
2. Hongyang Touzi has obtained the real estate ownership certificate related to the land of the Upper Sunny Master piece Garden (上熙名苑) project;
3. Hongyang Touzi has obtained the necessary construction permits in accordance with the actual progress of development Upper Sunny Master piece Garden (上熙名苑).
4. Hongyang Touzi is entitled to pre-sell the in-progress buildings of Upper Sunny Master piece Garden (上熙名苑) within the pre-sale scope specified in the "Pre-sale Permit".
5. According to the confirmation from Hongyang Touzi, based on the current progress of the Upper Sunny Master piece Garden (上熙名苑) project, it has not involved matters related to environmental impact assessment approval, civil air defense projects, fire safety approval and construction, and the corresponding approval and construction certificate documents have not been obtained.
6. Upon completion of construction in accordance with the approved construction documents and obtaining the full acceptance certificate as required by law, Hongyang Touzi will apply for the relevant property rights documents in accordance with the relevant laws and regulations. Upon acceptance by the competent authority, there are no substantial legal obstacles to obtaining the corresponding property ownership certificates.
7. Based on all the information disclosed by Hongyang Touzi to this firm and in this legal opinion, regarding the underground parking spaces that have not been registered for property rights: According to local policies in Suzhou and Hongyang Touzi 's statements and confirmations, the target parking space belongs to the planned non certified parking space (not shared by all owners), and this part of the parking space is not included in the shared area, nor has the construction cost been shared or agreed to belong to the owners. There are no restrictions on the rights such as sealing or mortgaging. Due to the inability to inquire about the ownership of the parking spaces through the real estate registration center, based on the confirmation of Hongyang Touzi 's authenticity, the original ownership of these parking spaces should belong to Hongyang Touzi. Hongyang Touzi has the right to dispose of the target parking spaces, but should pay attention to the legal regulation that "residential parking spaces first meet the needs of owners" when disposing of them.

xviii) We have been provided with a legal opinion on the Property prepared by the Client's PRC legal advisor, which contains, inter alia, the following information:

1. According to the confirmation from Anhui Honglan, the external promotional name of the Property is Changfeng In Times (長豐時光里);
2. Anhui Honglan has obtained the real estate ownership certificate related to the land of the Changfeng In Times (長豐時光里) project;
3. Anhui Honglan has obtained the necessary construction permits in accordance with the actual progress of development Changfeng In Times (長豐時光里);
4. Anhui Honglan is entitled to pre-sell the in-progress buildings of Changfeng In Times (長豐時光里) within the pre-sale scope specified in the "Pre-sale Permit".
5. According to the confirmation from Anhui Honglan, based on the current progress of the Changfeng In Times (長豐時光里) project, it has not involved matters related to environmental impact assessment approval, civil air defense projects, fire safety approval and construction, and the corresponding approval and construction certificate documents have not been obtained.
6. Upon completion of construction in accordance with the approved construction documents and obtaining the full acceptance certificate as required by law, Anhui Honglan will apply for the relevant property rights documents in accordance with the relevant laws and regulations. Upon acceptance by the competent authority, there are no substantial legal obstacles to obtaining the corresponding property ownership certificates.
7. Regarding the CPS, as part of the Development, the titleship of CPS-A is clear, and no sealing or mortgage has been found. Anhui Honglan has the right to dispose of the parking space but should conform to the legal regulation that "community parking spaces should first meet the needs of owners" when disposing
8. Civil air defense parking spaces: As the project developer and investor, Anhui Honglan can obtain the usufructuary right to use civil air defense parking spaces. However, when disposing of such parking space usage rights, attention should be paid to completing the corresponding procedures.

ix) Pursuant to the Business License – No. 913201007217014139 dated 19 April 2024, Hongyang Land (Group) Co., Ltd. (弘陽置地(集團)有限公司) (“**Hongyang Land**”) has been registered.

x) The general description and market information of the property are summarized below:

Location The Property is located at No.48, Daqiao North Road, Pukou District, Nanjing City, Jiangsu Province, PRC

Transportation Nanjing Lukou international Airport is located approximately 56 kilometres away from the Property. Also, taxi and bus are readily available in the locality.

Nature of Surrounding Area The subject area is a predominately residential area.

xi) In assessing the investment value of CPS-B, we have made reference to rental prices of similar CPS in the vicinity. Comparable are located in the same district with similar conditions, size and tenure, etc.

Rental transactions that had been selected include the CPS-B ranges from RMB250 to RMB270 per lot per month. According to our market research, the yield of comparable parking spaces in the vicinity ranges from 4.25% to 5.25%. As the CPS-B was vacant on the valuation date. We have capitalized the estimated future rental income to be generated over the remaining period, which has an approximate duration of 28.49 years and terminates on 19 August 2053. In our valuation, we have adopted an average market rent of RMB239 per parking space and a capitalization rate of 4.75%. For Mechanical parking lots, the prices mentioned above require an additional adjustment for the parking space size, which is 0.75.

xii) Copies of instruments in respect of the status of title and grant of major approvals and licenses of the Property provided to us are as follows:

The Board of Directors
REDSUN PROPERTIES GROUP LIMITED
REDSUN SERVICES GROUP LIMITED

30 APRIL 2025

Dear Sir or Madam,

**RE: VALUATION OF PROPERTIES HELD BY REDSUN PROPERTIES GROUP LIMITED
AND ITS SUBSIDIARIES, LOCATED IN CHINA (THE “PROPERTY”)**

INSTRUCTIONS

We refer to your instructions for us to value the property interests, located in the People’s Republic of China (the “**PRC**”) to be held by REDSUN PROPERTIES GROUP LIMITED (the “**Company**”) and its subsidiaries (hereafter together referred to as the “**Group**”). We confirm that we have carried out inspections, made relevant enquires and searches and obtained such further information as we consider necessary for the purpose of providing you with our opinion of the market value of the property interests as at 28 February 2025 (the “**Valuation Date**”), for the purpose of incorporating in the document.

BASIS OF VALUATIONS

Our valuations are provided on the basis of market value.

The market value we would define as “the estimated amount for which an asset or liability should exchange on the valuation date between a willing buyer and a willing seller in an arm’s-length transaction after proper marketing and where the parties had each acted knowledgeably, prudently and without compulsion”.

market value is understood as the value of an asset or liability estimated without regard to costs of sale or purchase (or transaction) and without offset for any associated taxes or potential taxes.

This estimate specifically excludes an estimated price inflated or deflated by special considerations or concessions granted by anyone associated with the sale, or any element of special value.

Investment Value is understood as the value of an asset to a particular owner or prospective owner for individual investment or operational objectives. The investment value is a value specially designed for individual entities, reflecting the benefits obtained by the entity from holding assets (such as rental income), and therefore may not involve hypothetical transactions.

VALUATION STANDARDS

These valuations have been carried out in accordance with the Royal Institution of Chartered Surveyors (RICS) Global Valuation Professional Standards, incorporating the International Valuation Standards of the International Valuation Standards Council (IVSC), and the requirements met out in Chapter 5 and Practice Note 12 of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited.

QUALIFICATIONS OF THE VALUER

These valuations have been prepared by Kin Ming Woo (James Woo) (RICS Registration No.: 0837243), who is a Fellow member of the Royal Institution of Chartered Surveyors. James is co-head of China Valuation and Advisory Services team at Colliers. He is suitably qualified to carry out the valuation and has over 26 years' experience in the valuation of properties of this magnitude and nature in China.

James Woo is acting as an independent valuer as defined in the latest "RICS Global Valuation Standards" published by the RICS, which incorporates with the IVS.

Neither the valuer nor Colliers are aware of any pecuniary interest or conflict that could reasonably be regarded as being capable of affecting the ability to give an unbiased and objective, opinion of the value of the property interests.

VALUATION APPROACHES

In valuing the property interests in Group I which are held by the Group for sale, we have valued the property by direct comparison approach with reference to comparable transactions in the open market and on the basis of vacant possession.

In valuing the carparking space ("CPS") in Group I property, we have categorized the CPS into two types according to their title described in the PRC legal opinion. CPS-A and CPS-C. CPS-A is defined as parking spaces with title that can be freely traded. CPS-C is defined as Civil air defense parking spaces.

For CPS-A which with title ship that can be freely traded, the preferred valuation method is the market comparison approach assuming sale of each of these property/property interests in its existing state with the benefit of vacant possession by making reference to comparable sales transactions as available in the relevant market, subject to appropriate adjustments including but not limited to conditions, location, time and other relevant factors. Given that the property/property interests are carpark spaces, comparable sales transactions are frequent and information about such sale is readily available. We are therefore used Market Comparison Method which is in line with the market practice.

For parking spaces lacking complete ownership and where there has been no sale of usage rights, or if there are issues with the payment of land transfer fees or civil defense project, the income capitalization approach is utilized. This method capitalizes the existing rental income from all leasehold units over the remaining lease term, while vacant units are assumed to be rented at the market rate as of the valuation date. Upon the expiration of existing leases, each unit is assumed to be rented at the market rate on the valuation date and capitalized based on the remaining use term. The market value of the property/property interests thus equal to the sum of the capitalized value of the income from the leased units during their lease term, the appropriately deferred capitalized value of the income from the leased units (i.e., market rental income), and the capitalized value of the vacant units.

In valuing the property interests in Group II which are held by the Group under development, we have valued the property on the basis that they will be developed and completed in accordance with the latest development proposal provided to us by the Group. We have assumed that all consents, approvals and licenses from relevant government authorities for the development proposals have been obtained without onerous conditions or delays. In arriving at our opinion of values, we have adopted the direct comparison approach by making reference to comparable sales transactions as available in the market and also taken into account the costs that will be expended to complete the developments. The “market value as if completed” represents our opinion of the aggregate selling prices of the property interests assuming that it would be completed as at the Valuation Date.

In valuing the property interests in Group III which are held by the Group for future development, we have valued such property by direct comparison approach the comparison approach assuming sale of the property interests in their existing state with the benefit of immediate vacant possession and by making reference to comparable sales transactions as available in the market.

Our valuations have been made on the assumption that the owner sells the property interests on the open market in its existing state without the benefit of a deferred terms contract, leaseback, joint venture, management agreement or any similar arrangement which would serve to increase the values of the property interests. In addition, no forced sale situation in any manner is assumed in our valuations.

SOURCES OF INFORMATION

Although we have made independent enquires as much as possible, we have relied to a very considerable extent on the information provided by the Company and its legal advisor in respect of the titles of the property interests in the PRC. We also have accepted such information given to us as being true and correct for valuation purposes. This has included such matters as ownership title, site and floor areas, planning approvals, statutory notices, easements, tenure, the identification of the property interests and all other relevant matters.

We have also been advised by the Company that no material factors or information have been omitted or withheld from the information supplied and consider that we have been provided with sufficient information to reach an informed view. We believe that the assumptions used in preparing our valuation are reasonable and have had no reason to doubt the truth and accuracy of the information provided to us by the Company which is material to the valuation.

TITLE DOCUMENTS

We have been provided with copies or extracts of some title documents relating to the property interests and have made relevant enquires where possible. Due to the nature of the land registration system in the PRC, however, we have not examined the original documents to verify the existing titles to the property interests in the PRC or any material encumbrances that might be attached to the property interests or any lease amendments. We have made assumptions that the full and proper ownership title of the Properties has been obtained and all payable land premium or land-use rights fees have been fully settled.

We have relied on the advice given by the Company's legal adviser, Sichuan Puyi Law Firm (四川朴易律師事務所), regarding the titles of the property interests in the PRC. We do not accept liability for any interpretation that we have placed on such information, which is more properly placed within the sphere of the legal adviser.

All legal documents disclosed in this letter, the summary of values and the summary reports are for reference only. No responsibility is assumed for any legal matters concerning the legal title to the property interests set out in this letter, the summary of values and the valuation summary reports.

ASSUMPTIONS AND CAVEATS

Our valuations of the target property/property interests exclude an estimated price inflated or deflated by special terms or circumstances such as atypical financing, sale and leaseback arrangement, special considerations or concessions granted by anyone associated with the sale, or any element of value available only to a specific owner or purchaser.

We have conducted the valuation assuming:

- the information as set out in the section headed “Sources of Information” above about the titles of the Property provided by the Company and the Company’s legal advisor, Sichuan Puyi Law Firm (四川朴易律師事務所) is true and correct;
- the Properties are free from contamination and the ground conditions are satisfactory;
- the full and proper ownership title of the Properties have been obtained, and all payable land premium or land-use rights fees have been fully settled;
- For CPS-C we have assume they have been granted for a land use term of 20 years since valuation date;
- all required approvals and certificates necessary for the development and occupation and use of the Properties have been duly obtained and are in full force and effect;
- the Properties can be freely transferred, mortgaged, sublet or otherwise disposed of in the market.

No allowance has been made in our valuations for any charges, mortgages or amounts owing on the property interests valued nor for any expenses or taxation which may be incurred in effecting a sale. Unless otherwise stated, it is assumed that all Properties are free of any encumbrances, restrictions and outgoings of an onerous nature which could affect their values.

SITE MEASUREMENT

We have not carried out on-site measurements to verify the correctness of the site areas in respect of the Properties but have assumed that the areas shown on the documents and plans provided to us are true and correct in all respects. All documents and contracts have been used as reference only and all dimensions, measurements and areas are approximations.

SITE INSPECTION

We have inspected the Properties exterior and, where possible, the interior of the properties upon the instruction received. No structural surveys or environmental assessments have been made, but in the course of our inspections, we did not note any serious defects. We are not, however, able to report whether the properties are free of rot, infestation or any other structural defects. No tests were carried out on any of the services. We have assumed such are in good order for the purpose of valuation.

Please be advised we have not carried out investigations to determine the suitability of the ground conditions and the services etc. for any future development. Our valuation has been prepared on the assumption that these aspects are satisfactory.

Site inspections of the Properties were carried out by James Woo between 3 March 2025 to 7 March 2025.

ESG CONSIDERATION

Where our advice is based on International Valuation Standards (IVS), we have had regard to i) those significant environmental, social and governance (ESG) factors which were readily apparent to us from our inspection of the property and ii) which we consider significantly impact our advice. This is a requirement of the IVS. In our advice we have endeavoured to analyse whether any significant ESG factors affect the value assessed. For your acknowledge, Currently, we do not explicitly adjust valuations for ESG factors.

CURRENCY

Unless otherwise stated, all monetary figures stated in this report are in Renminbi (RMB).

We hereby certify that we have neither present nor a prospective interest in the properties or the values reported.

Our summary of values and valuation summary reports are attached hereto.

Yours faithfully,

For and on behalf of

Colliers Appraisal and Advisory Services Co., Ltd. (“Colliers”)

- xiii) We have been provided with a legal opinion on the Property prepared by the Client's PRC legal advisor, which contains, inter alia, the following information:
1. According to the confirmation from Chengdu Hongsheng Heding, the external promotional name of the Property is Chinoiserie Mansion (彭州玖峯);
 2. Chengdu Hongsheng Heding has obtained the Realty Title Certificate related to the land of the Chinoiserie Mansion (彭州玖峯) project;
 3. According to the confirmation from Chengdu Hongsheng Heding, the construction of the Chinoiserie Mansion (彭州玖峯) project is completed;
 4. Based on the information disclosed by Chengdu Hongsheng to our firm and all the information disclosed in this legal opinion, regarding the housing portion: Chengdu Hongsheng has obtained the pre-sale permit documents listed in this legal opinion, and except for the houses that have been seized or mortgaged, Chengdu Hongsheng has the right to dispose of other unsold houses. Regarding the parking space portion: (1) CPS-A: Since the property rights of this portion of CPS-A cannot be inquired about through the real estate registration center, Chengdu Hongsheng confirms that it belongs to the planned parking spaces and there are no restrictions on transfer such as seizure or mortgage. On the premise that Chengdu Hongsheng's confirmation is true, Chengdu Hongsheng has the right to dispose of the target property parking spaces, but when disposing of them, attention should be paid to the legal regulation that "community parking spaces should first meet the needs of the owners"; (2) CPS-C: As the project developer, that is, the investor, Chengdu Hongsheng can obtain the usufructuary right to use the civil air defense parking spaces, but when disposing of the use rights of such CPS-C, attention should be paid to perfecting the corresponding procedures.

NOTICE OF EGM

Notes:

1. For more information relating to the abovementioned resolution, please refer to announcement of the Company dated February 17, 2025 and the circular of the Company dated April 30, 2025.
2. An eligible shareholder is entitled to appoint one or more proxies to attend, speak and vote in his/her/its stead at the EGM (or at any adjournment of it) provided that each proxy is appointed to represent the respective number of shares held by the shareholder as specified in the relevant proxy forms. The proxy does not need to be a shareholder of the Company.
3. Where there are joint registered holders of any shares, any one of such persons may vote at the EGM (or at any adjournment of it), either personally or by proxy, in respect of such shares as if he/she/it were solely entitled thereto but the vote of the senior holder who tenders a vote, whether in person or by proxy, will be accepted to the exclusion of the vote(s) of the other joint holders and, for this purpose, seniority shall be determined by the order in which the names stand in the register of members of the Company in respect of the relevant joint holding.
4. A proxy form for use at the EGM is enclosed.
5. In order to be valid, the completed proxy form must be received by the Company's Hong Kong branch share registrar and transfer office, Computershare Hong Kong Investor Services Limited at Shops 1712-1716, 17th Floor, Hopewell Centre, 183 Queen's Road East, Wanchai, Hong Kong at least 48 hours before the time appointed for holding the EGM or adjourned meeting (as the case may be). If a proxy form is signed by an attorney of a shareholder who is not a corporation, the power of attorney or other authority under which it is signed or a certified copy of that power of attorney or authority (such certification to be made by either a notary public or a solicitor qualified to practice in Hong Kong) must be delivered to the Company's Hong Kong branch share registrar and transfer office together with the proxy form. In the case of a corporation, the proxy form must either be executed under its common seal or be signed by an officer or agent duly authorized in writing.
6. For the purpose of determining shareholders' eligibility to attend and vote at the EGM (or at any adjournment of it), the register of members of the Company will be closed from Friday, May 16, 2025 to Wednesday, May 21, 2025, both days inclusive, during which period no transfer of shares of the Company will be registered. In order to qualify for attending and voting at the EGM, all share transfer documents, accompanied by the relevant share certificates, must be lodged with the Company's Hong Kong branch share registrar and transfer office at the address stated in note 5 above no later than 4:30 p.m. on Thursday, May 15, 2025.
7. As set out in the Letter from the Board included in the circular, each of the resolutions set out in this notice should be voted on by poll.
8. If a typhoon signal No. 8 or above is hoisted or a "black" rainstorm warning signal is in force at any time at or before 11:00 a.m. on the date of the EGM, the EGM will be adjourned. The Company will post an announcement on the websites of the Stock Exchange (www.hkexnews.hk) and the Company (www.rsunservice.hk) to notify shareholders of the date, time and place of the adjourned meeting. The EGM will be held as scheduled when an Amber or a Red Rainstorm Warning Signal is in force. Shareholders should decide on their own whether they would attend the EGM under bad weather conditions bearing in mind their own situations.

As at the date of this notice, Mr. Zeng Junkai is the non-executive Director; Mr. Chen Yichun is the executive Director; and Ms. Wang Fen, Mr. Li Xiaohang and Mr. Zhao Xianbo are the independent non-executive Directors.
