

FIRST QUARTERLY RESULTS ANNOUNCEMENT
(For the three months ended 31 March 2011)

CHARACTERISTICS OF THE GROWTH ENTERPRISE MARKET (“GEM”) OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

GEM has been positioned as a market designed to accommodate companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board of the Stock Exchange and no assurance is given that there will be a liquid market in the securities traded on GEM.

Hong Kong Exchanges and Clearing Limited and The Stock Exchange of Hong Kong Limited take no responsibility for the contents of this announcement, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this announcement.

MANAGEMENT DISCUSSION AND ANALYSIS

FINANCIAL REVIEW

Turnover and loss attributable to shareholders

The total turnover of the Group for the three months ended 31 March 2011 was approximately HK\$1,775,000 (2010: HK\$1,662,000) which was increased by approximately 6.8% as compared to that of the previous financial year. The increase in turnover was attributable to the further development of the Group's IPTV division.

The unaudited consolidated loss from operations for the three months ended 31 March 2011 was approximately HK\$5,644,000, which was decreased as compared with the corresponding period last year, HK\$8,133,000. The decrease in loss for the period is mainly attributable to the reduction in the provision made for amortisation on the intangible assets of the Group.

Provision has been made for amortisation on the intangible assets of the Group in the amount of approximately HK\$4,709,000 as the Board has adopted a prudent approach and determined that amortisation on the intangible assets provision should be made on the intangible assets of the Group.

The intangible assets of the Group are comprised of the IPTV permit, namely the "Broadcast of Audio-Video Program On Web Permit" (信息網路傳播視聽節目許可證) (the "Permit") currently held by Guangzhou Wavecom Communications and Advertising Limited ("Guangzhou Wavecom"). Guangzhou Wavecom is a wholly-owned subsidiary of the Company and possession of the Permit allows Guangzhou Wavecom's subsidiary, South Pearl Limited, to operate the Group's IPTV division in the greater southern China region. The Permit has been granted by Guangzhou Television Broadcast Microwave General Station ("Guangzhou Television Station") to Guangzhou Wavecom. Possession of the Permit allows, and is a prerequisite to South Pearl Limited being able to act as the exclusive service provider of Guangzhou Television Station's programmes, advertising and other IPTV services within the greater southern China region. The Permit commenced on 1 October 2007 and will expire on 30 September 2015.

The Group's gross profit margin is decreased from approximately 61% for the three months ended 31 March 2010 to approximately 32% for the current period.

Financial cost

The financial cost of the Group for the three months ended 31 March 2011 was approximately HK\$247,000 (2010: HK\$211,000) which was increased by approximately 17.06% as compared to that of the same period of last year.

Liquidity, financial resources and capital structure

For the three months ended 31 March 2011, the Group's borrowing consists of a loan from the Company's immediate holding company of approximately HK\$20,089,000. The Group had a cash balance of approximately HK\$2,952,000 (2010: HK\$1,080,000).

The Group continues to adopt a prudent treasury policy to maintain its cash balance either in Hong Kong Dollars, or in the local currencies of the operating subsidiaries, maintaining a minimum exposure to foreign exchange risks.

The issued share capital of the Group for the three months ended 31 March 2011 has increased from HK\$96,341,799 to HK\$107,491,799, as compared with that for the same period last year.

Gearing Ratio

As at 31 March 2011, the gearing ratio of the Group, expressed as a percentage of net debt divided by total capital plus net debt, was 312.45% (2010: 99.89%).

Employee and remuneration policies

As at 31 March 2011, the Group employed a total of 18 employees (as at 31 March 2010: 27), of which 4 were located in Hong Kong and the remaining 14 were located in the PRC. The Group's remuneration policies are in line with the prevailing market practices and formulated on the basis of performance and experience of the employees. The salary and related benefits of the employees are rewarded on a performance related basis and the general remuneration structure of the Group is subject to review annually.

OPERATIONAL REVIEW

During the period under review, the Group sought to further enlarge its revenue base through the further development of the Group's IPTV division which currently provides IPTV value added services to the greater southern China region. The Company has a sufficient level of operations in its IPTV division and has sufficient assets to operate its business as a going concern. The Company does not have any financial difficulties to an extent which may seriously impair the Company's ability to continue its business. The Company also has, in addition to those assets held by the IPTV division, sufficient assets to operate its business due to the continuing support of the Company's immediate holding company.

The Board, looking forward, is contemplating transferring the investment operations of the Group, which will allow the Company to focus on project investments which will derive value for the Company's shareholders, and pave the way for the Company's future growth, both in terms of revenue streams and profits achieved from its business operations.

Performance of operating divisions

Information Technology Division

The Group has been positioning its IPTV division towards becoming a major provider of IPTV technology and upgrades, contents and high-definition value added services (“Direct IPTV Services”) and the provision of advertising slots and services (“Downstream Services”) to the customers of established internet and network services providers which South Pearl Limited (“South Pearl”) is currently in partnership with within the greater southern China region.

As to South Pearl’s provision of Direct IPTV Services, having established and upgraded its necessary networks, South Pearl expects that it will launch the provision of Direct IPTV Services with associated value-added services in full force in the next one to two years, and that the expected potential subscribers to the proposed Direct IPTV Services to be provided, upon completion of the development and implementation of this technology platform, is expected to be no less than 50,000 subscribers.

South Pearl is now also actively negotiating further agreements with other third parties for the provision of advertising slots and services, the revenue from which will be derived once the direct IPTV services network issues are addressed and the Direct IPTV Services are provided to South Pearl’s potential customer base for the receipt of Direct IPTV Services.

The Board is of the view that the key competitive strength of the Group, with regards to the IPTV division, is its exclusive right of usage of Broadcast of Audio-Video Program On Web Permit (信息網絡傳播視聽節目許可證) (the “Permit”) granted from Guangzhou Television Broadcast Microwave General Station (廣州市廣播電視微波總站). To date, the Group’s IPTV division has secured the necessary operating licenses and has fulfilled the necessary research, development and technology investment, to position itself for the provision of Direct IPTV Services to the greater southern China region.

Whilst the Board has been adopting a prudent and cautious approach with regard to further investing, developing and expanding the Group’s IPTV division, the Board has been very actively involved in developing the IPTV division such that it has sufficient assets and a sufficient level of operations which the Board is of the view delivers present, and more positively looking forward, should deliver future enhanced benefits for the Company’s shareholders.

Financial Consultancy

Apart from the aforementioned operations, the Group continues to research, develop and explore investment opportunities which are strategic to its business operations and which will contribute significantly to the return of the Company’s shareholders.

With the acquisition of Vega International Group Limited, which is principally engaged in the provision of services in corporate finance and investment, project planning and development, technology project brokerage services, corporate development services, management consulting and post-acquisition advisory and professional management services, the Group is

researching, developing and exploring further opportunities for development in the corporate finance sector which will further contribute to the current revenue streams generated by the Group.

In relation to the corporate finance sector, the Board is planning to devote more time and resources towards expanding the provision of financial consultancy services to business sectors that complement and have synergy with the household consumers and media services that the IPTV division of the Company is presently pursuing. The Board envisages that such services, if agreed, will encompass the establishment of financial advisory offices which will provide investment, financial and project management advise to other companies. In terms of these consultancy services, they will be negotiated in the normal course of business and shareholders will be kept informed of this division as it progresses.
