### THIRD QUARTERLY REPORT FOR THE NINE MONTHS ENDED 30 SEPTEMBER 2015

# CHARACTERISTICS OF THE GROWTH ENTERPRISE MARKET (THE "GEM") OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE "STOCK EXCHANGE")

GEM has been positioned as a market designed to accommodate companies to which a high investment risk may be attached than other companies listed on the Stock Exchange. Prospective investor should be aware of the potential risk of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.

Hong Kong Exchanges and Clearing Limited and the Stock Exchange take no responsibility for the contents of this report, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this report.

This report, for which the directors (the "Directors") of Powerleader Science & Technology Group Limited (the "Company") collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on the Growth Enterprise Market of The Stock Exchange for the purpose of giving information with regard to Company. The Directors' having made all reasonable enquiries, confirm that to the best of their knowledge and belief the information contained in this report is accurate and complete in all material respects and not misleading or deceptive, and there are no other matters the omission of which would make any statement herein or this report misleading.

#### MANAGEMENT DISCUSSION AND ANALYSIS

In the third quarter of 2015, the Company continued its operation with a clear strategic positioning as a "leading cloud computing solutions provider with the capability of autonomous innovation in China". Based on the leading technology developed over the years, a competent research and development team, a strict management system, extensive sales channels and quality customer services, the Group provides comprehensive cloud computing solutions and related services by focusing on the five key business sectors underpinned by cloud computing solutions and services providers, namely, Cloud Infrastructure as a Service (IaaS), Cloud Module as a Service (MaaS), Software as a Service (SaaS), Platform as a Service (PaaS), Client as a Service (CaaS).

Firstly, we vigorously developed our IaaS segment through enhancing our autonomous innovation capacity, continuing the optimization of products and solutions for mid-to-high-end cloud servers, cloud storage, HPC and all-in-one big data machine, and strengthening our overall capacity for solutions related to enterprises' private clouds and public clouds, with a view to providing customers with pay-per-use cloud services that are simple, effective, flexible in expansion, and safe and stable. We also proactively participated in construction projects of cloud computing infrastructure, such as Intelligent City, E-Government Affairs, Secure City, Intelligent Transportation, Broadband China and 4G.

Secondly, we continued to expand our MaaS segment through consolidating our core competitiveness with self-owned brands, reinforcing the development of our sales system, raising the standard for sales management, expanding the room of cooperation with suppliers, diversifying the portfolio of products distributed by agents, actively seeking cooperative channel partners and providing them and industry customers with timely and sufficient supply of components and professional technical support, so as to solidify our position as a leading supplier of components related to cloud computing in the PRC.

Thirdly, we accelerated our SaaS and PaaS segments through focusing on demands for the applications associated with cloud computing and big data by providing quality, diversified and tailor-made software and services to our customers.

Riding on the global trend of cloud computing development, the Company will capitalize on the opportunities of growth arising from cloud computing, big data and mobile Internet, as well as consolidating our core competitive strengths in the fields of IaaS, MaaS, SaaS and PaaS. Looking forward, the Company will fully utilize its advantages in technology, resources and markets attributed to its facilities of cloud infrastructure through autonomous innovation, cooperation with external parties and strategic investments. Also, the Company will continually exploit the market potentials of cloud module and speed up the development of relevant software and platform, aiming at driving the integration of prime resources in both the up-stream and down-stream of the industry chain. As such, the Company will develop an all-round capacity for solutions that covers the industry chain of cloud computing with features in comprehensiveness and professionalism, and with which the Company shall maintain our leading position in the cloud computing industry in the PRC.
