**VOLUNTARY ANNOUNCEMENT  
LAUNCH OF NEW PRODUCT**

This is a voluntary announcement made by Powerleader Science & Technology Group Limited\* (宝德科技集团股份有限公司) (the “**Company**”, together with its subsidiaries, the “**Group**”).

The board of directors (the “**Directors**”) of the Company (the “**Board**”) is pleased to announce that the Company has launched a new product named PM208 (the “**New Product**”), which utilises an Intel B250 motherboard paired with an Intel Celeron G3900 processor (dual core with 2 threads, 2.8GHz processor base frequency and 2MB cache) and 8 AMD RX 570 4G display cards (Samsung memory module) for extremely high computational power, as well as a 1600W uninterrupted power supply unit.

The New Product is mainly used in blockchain, equipped with professional chips it adopts a high-efficiency operation mode and runs specific algorithms after downloading of software. The New Product, with improvements based on the Group’s technical experience in servers, possesses powerful hardware configurations, ensures high efficiency and low consumption in its operations. The New Product can be overclocked and underclocked, and is suited for wider application scenarios, and at the same time, the New Product emphasizes user experience with the adoption of a hot swapping hash board design for convenient maintenance and removal, which is simple to install and easy to master.

As at the date of this announcement, pre-orders for the New Product from potential clients have already exceeded over 1,000 machines. The Company expects that once the New Product is in widespread operational usage, there will be considerable growth in the Group’s turnover.

**Shareholders of the Company and potential investors are kindly advised to exercise caution in dealing with shares of the Company.**

By order of the Board  
**Zhang Yunxia**  
*Chairman*

Shenzhen, the PRC  
17 January 2018
